

Heritage Strategy Engagement Summary - Stage 2

Question	PAE Built Heritage Strategy 2022
What were we engaging on?	<p>The PAE Built Heritage Strategy 2022 establishes a clear framework around Council's commitment to the City's built heritage and:</p> <ul style="list-style-type: none"> • ensures that its commitment to heritage is understood and recognised • communicates its commitment to the City's heritage • provides a sound basis on which to prioritise and allocate funds towards heritage commitments • enables it to periodically review its heritage commitments. <p>Council was keen to receive stakeholder and community feedback as part of both the development of the strategy and its finalisation. Earlier consultation on the "Key Directions" of the strategy confirmed the appropriateness of Council's focus areas and overall approach. Consultation on the subsequent draft Built Heritage Strategy 2022 was undertaken to obtain feedback and refine the more detailed strategies and actions.</p>
What did we do?	<p>We consulted on the draft PAE Built Heritage Strategy between 8 April 2022 and 15 May 2022.</p> <ul style="list-style-type: none"> • We sent a total of some 1,400 letters to: <ul style="list-style-type: none"> ○ owners of State Heritage listed places ○ owners of property within the Port Adelaide State Heritage area ○ owners of local heritage listed places ○ owners of 'Representative Buildings' (formerly 'Contributory Items') ○ tenants of Council owned heritage buildings ○ heritage organisations ○ museums and selected business operators ○ relevant Government agencies ○ selected major developers • We also consulted with the broader community via Council's website and the Have Your Say PAE platform • We received 22 responses <ul style="list-style-type: none"> ○ 18 were online survey form responses ○ We received written responses from State Agencies (Planning and Land Use Services, State Planning Commission, SA Heritage) & Port Adelaide Branch of the National Trust ○ The majority of resident responses were from owners of heritage buildings (mostly Representative Buildings) in PAE
What did we hear?	<p>There was strong agreement that the draft strategies and actions met the vision for built heritage in the City Plan 2030. This is illustrated in the diagram below:</p>

- Yes, the draft strategies and actions meet the vision (50%)
- The draft strategies and actions meet the vision to some extent (33%)
- No, the draft strategies and actions will not meet the vision (0%)
- Unsure (17%)

The most frequently raised issues were:

- The need for Council to undertake regular heritage reviews to list and protect heritage places
- Incentives to owners and increasing /improving heritage grants program
- New development needs to be sympathetic and respond to streetscapes
- Activation of heritage precincts and Port Adelaide State Heritage Area
- Encouraging greater activation and adaptive re-use of buildings
- Increasing the role of Heritage Advisor and making more advice available

- Following consideration of the feedback received, the draft PAE Built Heritage Strategy was updated and formally endorsed by Council at its meeting on 12 July 2022.

What are the next steps?

An implementation plan has been developed in conjunction with the strategy and will serve as a rolling program of activities to be delivered according to the new Council's agreed prioritisation process, annual budgets and available resources.

To support the implementation of the strategy, the staff project steering group that oversaw the development of this strategy from its inception, will continue to function but will shift its focus from strategy development to strategy implementation. It will use and be guided by the operational implementation plan.

This group includes all of the managers who have responsibility for Council's various heritage programs and activities.
