1 Dogs on Beaches Community Engagement activities

1.1 Engagement activities

The primary focus of community engagement activities was to direct community members to the [Participate PAE](#) website to find out more about the Community Working Group's options and to complete the survey. The Participate PAE pages included information about

- the Community Working Group process
- answers to frequently asked questions
- information, maps and videos outlining each option
- an ask a question/contact us option
- directions to request a hardcopy survey
- background information from earlier stages of engagement
- the ability to follow the project

Information about the engagement was communicated via

- An email to all registered dog owners with email in the Dogs and Cats online system
- Letter to all households on the Lefevre Peninsula (13,000+ letters)
- 4000 emails across 4 email campaigns to site members and project followers
- Signs at beach entrances and along foreshore areas across PAE – a significant number of these signs were illegally removed during the engagement period
- Roadside banners
- Postcards
- 4 City of PAE Social media posts including promoted posts
- One appearance on [television news](#)
- 2 School groups, with abbreviated survey
- 9 Pop-up sessions at locations across the beaches and PAE

1.2 Pop-up sessions

During the six weeks of community engagement, staff ran nine pop-up engagements across our community. The aim of the sessions was to ensure people had the opportunity to hear about the engagement and talk to us about the proposals that had been prepared by the Community Working Group. We spoke to approximately 250 community members across the pop-up activities. Below is a summary of key themes discussed at each session. Overall, discussions with community members, mainly centered around clarity of what the rules were currently, what the future rules were being proposed in the different options and background information about the process and specifics about each proposal. Many people asked for clarity around why the process was occurring and why it was needed. Many others thanked the City of PAE and Council for undertaking the process and shared their experiences with the current rules not meeting their needs or not being followed, with discussions also including implementation and enforcement of rules.

The Dogs of LeFevre Peninsula group, shadowed several of our foreshore pop-up engagements, setting up a marquee and distributing information about how they would like the community to 'vote' (via voting sheet, see heading 1.3). Several community members expressed their confusion about which pop-up tent was the official engagement tent. Some community members after speaking to the Dogs of LeFevre group, came over to the City of PAE marquee with misconceptions about the options that were being proposed, including that dogs were being excluded from areas of the beach. Once staff had the opportunity to speak through the proposed options, most then felt comfortable that the proposals offered variety, were reasonable and provided a compromise for different wants and needs across the community.

| Pop-up activity | Summary |
|--|--|
| Semaphore Beach Pop-up: 9-11am, Saturday 23 September 2023 | <p>Staff spoke to approximately 50 community members. Some members came specifically for the engagement and others stopped in on their way past. Postcards were given to families using the playground and community members on the shared pathway. There were mixed responses from community members around their support for the different options. Many community members were unaware that the rules for the grassed foreshore are currently off-leash at all times, with many thinking that on-leash zones around the jetties was reasonable and a few believing the entire grassed foreshore should be on-leash. Most people with dogs, expressed that they already leashed their dogs on the grassed foreshore when people were present.</p> <p>The Beach Dogs on Lefevre peninsula set up a marquee on the foreshore and spoke to community members sharing their preference for the engagement including a voting information sheet.</p> |
| North Haven Beach Pop-up: 4.30-6pm, Thursday 28 September 2023 | <p>Staff spoke to approximately 25 community members over the session. A group of approximately 8 people arrived as staff were setting up, who were questioning why the engagement was occurring, resourcing, why Council was wasting time etc. The group presented different views about what should happen and when one person arrived who said they were attacked by a dog on the beach, they were made to feel uncomfortable by the group. There were very strong views about engagement and they were advised to complete the survey. A number of people requested a hard copy survey be sent to them. Quite a few received the letter in their letterbox the same day.</p> <p>As the session went on, others came along and there were many constructive conversations about how the beach could be shared. There were also concerns raised about if North Haven has different rules, it may become more popular compared to the current use which is more locals.</p> <p>A common theme throughout the session was the amount of dog feces not just near the beach but also at the reserve behind the surf living saving club. It appears to be a daily issue where dog owners fail to clean up after their dogs.</p> |
| Semaphore Beach Pop-up: 7.30-9am, Tuesday 3 October 2023 | <p>Staff spoke to approximately 25 community members. Conversations were held with community members to understand what information they needed, talk through the process and function of the working group, and show the options as displayed on the maps and answering questions.</p> <p>A variety of opinions were shared including desire to keep things as they are as well as understanding the need to balance community needs, in particular areas such as the foreshore when busy and whether on-leash areas would need to be year-round.</p> <p>The Beach Dogs of LeFevre group setup a marquee on the grassed foreshore.</p> |

| Pop-up activity | Summary |
|--|---|
| <p>Port Plaza Pop-up: 5-7pm, Thursday 5 October 2023</p> | <p>Staff spoke to approximately 35 community members from PAE and surrounding suburbs about their use of PAE beaches and their preferred rules for dogs on beaches moving forward. A resident attended the session who specifically came down to talk to staff away from the foreshore where they were worried about neighbours hearing their feedback. They thanked us for the opportunity to speak to staff at different locations. Majority of people staff spoke to, felt that Semaphore South to Breakwater options 2 and 3 provided an opportunity/compromise for everyone.</p> |
| <p>Touch a Truck Pop-up: 10am to 12noon, Saturday 7 October 2023</p> | <p>Staff spoke to approximately 15 community members who came up for a chat when they saw the display or knew we were going to be at the event. Most wanted to gain a better understanding of the engagement and the proposed options. We shared postcards as most were busy with children and looking to visit the engagement platform after the event.</p> |
| <p>Largs Bay Beach Pop-up: 7.30-9am, Wednesday 11 October 2023</p> | <p>Staff spoke to approximately 30 community members, predominantly of an older demographic, many on a morning walk with or without a dog(s). Some with familiarity of the engagement process and many seeking clarity, more information and answers to questions about the options and process. Postcards were handed out and a number of names and addresses recorded for hardcopy surveys to be distributed.</p> <p>A broad variety of opinions were shared understanding the need to balance community needs, experience of fear of dogs, keeping things as they are, cultural needs and preferences for and against dedicated off-leash areas. Conversation was held with participants to understand what information they needed, talking through the process and function of the working group, showing the options as displayed on the maps and answering questions.</p> <p>The Beach Dogs of LeFevre group spoke to people on the beach.</p> |
| <p>Largs Bay Beach Pop-up: 9-11am, Sunday 15 October 2023</p> | <p>Staff spoke to a steady flow of community members (50-60 across the morning) from PAE and other areas of Adelaide including Glenelg. Conversation was held with participants to understand what information they needed, talking through the process and function of the working group, showing the options as displayed on the maps and answering questions.</p> <p>The Beach Dogs of LeFevre group led a walk of 20-25 members and their dogs from Semaphore to arrive at their marquee setup a short distance down the path.</p> |
| <p>Greenacres Library Pop-up: 10-11am, Wednesday 18 October 2023</p> | <p>Staff members spoke to six community members over the hour. Four were attending the English class held at the library and staff member spoke about how the engagement information could be viewed online in a variety of different languages. Another community member was quite familiar with the role of local government in planning and enforcing dog by-laws but wasn't a regular beach visitor. The last community member was most interested in speaking about by-laws for local reserves as he had had a number of issues with dogs approaching him at reserves and not being under effective control.</p> |

| Pop-up activity | Summary |
|--|---|
| North Haven Beach Pop-up: 9-11am, Saturday 21 October 2023 | <p>The Beach Dogs of LeFevre group setup near the entrance to the carpark.</p> <p>Staff spoke to about 20 community members including locals walking down and members of the North Haven Surf Life Saving Club. A very windy morning meant the Marquee had to be setup directly adjacent to the Surf Life Saving Club in a more sheltered area. Discussions were predominantly about familiarising with the options, in particular the options for North Haven. There were views shared in support and against the proposed on-leash area at the Northern end of North Haven beach.</p> |

1.3 Beach Dogs of Lefevre Peninsula engagement hand out

The Dogs of LeFevre Peninsula group distributed information flyers and posters about how they would like the community to 'vote'.

VOTE OPTION 1

TO SUPPORT OUR CURRENT RULES FOR DOGS ON THE BEACH AND FORESHORE

What are the current rules for dogs on the beach and foreshore?

DAYLIGHT SAVINGS RULES
From October 1 to April 7, all dogs on the beach must be on-leash between 10am to 8pm. Anytime outside of daylight savings, dogs are allowed off-leash but must be under effective control.

What is effective control?

The dog walker must actively supervise the dog at all times. The dog remains within visual and audible range to allow for effective recall. Dog etiquette dictates that an off-leash dog should never approach an on-leash dog without permission and should be steered away from families and people without dogs.

Why support the current rules?

SIMPLE AND EFFECTIVE
Time zones provide an easy way for all beach goers to share the beach and can be explained simply with good signage.

PLENTY OF DOG-FREE HOURS
During summer, dogs must be on-leash for over **70% of the daylight hours**, plenty of time for other beach activities.

CONSISTENCY ACROSS ALL METROPOLITAN BEACHES
Current rules align with all other councils, making it easy to understand, no matter which metro beach you go to.

YOUR RATES USED WISELY
Regular beach patrols only need to run in summer, not year-round, so are more cost-effective. Council could use the opportunity of patrols to have a positive impact, to educate dog-owners on good dog behaviour and to explain and monitor on-leash rules.

Why does the council want to change the rules?

The dog and cat management plan must be reviewed every 5 years, but there is no need for the council to implement changes. **The current rules are a simple, effective and consistent approach to beach use based on time zones that allow everyone to share the beach.**

PAE Council vs the facts

DOG INCIDENTS
PAE continue to mislead the public on the issue of negative dog interactions. The number of dog incidents have actually decreased over the last 2 years, not increased, and across the whole council area, only a fraction of these occur on our beaches (4.5% in 2022).

ERRORS IN 2022 CONSULTATION
PAE have admitted fault in not contacting all registered dog-owners, however in the 2022 survey they also used misleading questions about zones and skewed results to obtain a pre-determined outcome. This would have resulted in a three kilometre ban for off-leash exercising of dogs, all year round! (Check out the beach in the middle of winter PAE!)

Other options proposed by PAE

OPTION 2 RED ZONES / JETTIES
Although this does offer 'safe' areas, it is difficult to support given; **a) previous misleading options from council, b) that the size of these areas are not specified, c) that they will be in effect all-year-round, and d) could limit access to the beach for elderly residents and people with disability.** How does PAE propose to cut up the beach into these 'zones' and how will they fund the monitoring of this option?

OPTION 3 RED ZONES + GREEN ZONE (BEACH DOG PARK)
What resident would want this in their own front yard? The extensive area proposed is in front of existing and new housing developments, has limited access to public toilets, bins and parking and poses risks to the fragile dune environment. Dog parks are notorious for inattentive dog-owners and high numbers of dog attacks. This remote zone would require many locals to drive to exercise their dogs, this is not an option for many residents and would also contribute negatively on the environment.

Want to know more? Find us on facebook...

Beach Dogs of the Lefevre Peninsula are a 500+ strong, community group that support good dog etiquette and responsible dog-ownership. We strongly believe that all councils should offer positive support and education of dog-owners, hey PAE... check out Charles Sturt Council.

Have your say at Participate PAE
CLOSING DATE FOR SURVEY IS 29 OCTOBER 2023

When you choose your options throughout the survey, please use the comments section in the survey to support your answers, so your responses cannot be misinterpreted. Ask the council questions about zones, signage, monitoring, infrastructure and costs.

1.4 School Engagements

Staff ran a simplified version of the Dogs on Beaches engagements with two school groups from Blair Athol North B-6 School and Indie School Port Adelaide.

31 students and 2 teachers participated in the engagement.

How do you feel about dogs?

- I love dogs - 10
- I like dogs - 12
- I don't mind dogs - 9
- I don't like dogs - 7
- I am scared of dogs - 10
- I have a dog that is scared/aggressive around other dogs - 2

The simplified survey asked students for feedback about how they felt about descriptive concepts for dog rules

Main themes from student comments:

- Importance of dogs having some freedom and access to sand and water – 4
- Fear / dislike of dogs – allergies, fear of dog dogs, general dislike - 4
- Don't like dogs because against religion – 3
- Owners responsibility to decide / based on dogs training - 2
- People being able to relax - 2
- Witnessed incidents with dogs

1.4.1 Student Comments

| ID | Tell us more about your answers |
|-------|--|
| 12562 | There have been too many incidents where dog attacks/bites have occurred. Safety is important. On leash I think is really important. |
| 12561 | I think owners should make an informed choice if they believe their dog is better or not on/off leash. |
| 12549 | They have to be trained so they don't run off |
| 12545 | I don't like big dogs |
| 12544 | dog's deserve freedom as long as they are trained |
| 11607 | because it's good for dogs (times/part day). |
| 11605 | I think people might feel more safe. |
| 11604 | I feel like if the dogs are off leash they will maybe act crazy. but if they are off leash part day it will maybe be better. |
| 11603 | I would say that owners should be able to choose when their dog would wear a leash. |
| 11602 | I'm allergic to dogs so I don't like them |
| 11601 | Some dog like beach and like to run around and to swim. |
| 11600 | I think dog need to have some freedom to play in the water and sand on the beach. |
| 11599 | I don't really like dogs that much because it is against my religion |
| 11598 | I don't like dog. it's against my religion. |
| 11597 | I don't like dog and it's against my religion. |
| 11596 | at the beach people want to have a good time and relax so dogs should have a leash on. |
| 11595 | I don't really mind dog but my family don't like dog. but other people like dog so I don't mind it |
| 11594 | My family doesn't like dogs so do I so do my little cousins they are really scared of them. |

2 Public Engagement data

This document provides a summary of community responses to the Dogs on beaches community engagement survey during September and October 2023. In addition to this a shorter survey was provided to children on school visits to the Town Hall.

Community survey participants were asked to provide some information about themselves, for example where they live, gender, age, whether they own a dog and their relationship with dogs.

It is noted that the age demographic is generally older than that of the City of PAE at the Census (see inset chart). Relative to the PAE population at the 2021 Census there is a higher proportion of female participants (55%) and lower male participants (24%), with 0.2% as non-binary and 21% not stating gender. Responses were received from 46 of 51 PAE suburbs with the greatest proportion of respondents from beachside suburbs and 10% of responses from outside PAE.

Most participants (79%) own a dog and had positive relationships with dogs (93%). Smaller group are scared of dogs (4.5%) or have a reactive dog (8.3%)

Participants were asked to rate how they feel about each rule concept/type on a Likert scale including 'Love it', 'Like it', 'Can live with it', 'Dislike it' and 'Love it'.

This represents a summary of how strongly communities and groups within our community feel on the questions put to them. The data is presented for all respondents and followed by smaller groups (by their relationship with dogs) within the overall response the number of responses per group is listed in brackets in the left hand column.

Data collected is summarized below.

Please note: an individual may align with multiple smaller groups. For example they might love dogs (Positive group) and have a reactive dog (Reactive dog group), as a result the total for 'All' respondents does not equal the tally of all groups added together.

Public Engagement – About the participants and their relationship with dogs

3 Engagement Results – Concepts

This section provides an overview of how participants feel about generalised rule concepts for dogs.

The rule types include

- Daylight savings rules (on-leash 10am-8pm)
- Dog off-leash areas (all times)
- Dog on-leash areas (all times)
- Dog exclusion areas (all times)

3.1 Daylight Savings Rules (DLS)

In general participants across all groups indicated they are comfortable with the daylight savings rules concept.

140 responses spoke about DLS rules or times providing the right/fair balance for users across the community and a separate 138 responses shared general support for the existing rules or leaving the rules as they currently are.

There were a range of responses about DLS rules being too restrictive (61 total) with 45 of these responses relating to DLS being too restrictive for off-leash use. Of these 45 comments, 32 related to requests for reduced DLS hours and 22 comments were around adjusting current days and/or months rules applied for. 16 people had comments relating to DLS hours being too restrictive for on-leash use and general beach use, with 8 of these comments requesting hours be increased to allow families and people with reactive dogs to access the beach earlier in the morning.

14 people spoke about the current DLS rules not being followed and 8 people suggested daylight savings rules being in place all year around.

3.2 Dog Off-leash areas

There was a strong dislike of off-leash areas from people who are scared of dogs, dislike or are indifferent to dogs.

111 comments shared support for off-leash at all times areas stating that they would provide access to shift workers and options for dog walkers all year around. 27 people shared that they didn't support off-leash areas listing the effect this could have on other beach users, especially locals to this space of beach and that these spaces may encourage dog congestion and poor dog management/behaviour.

3.3 Dog On-leash areas

People with a positive relationship with dogs expressed a dislike of on-leash areas while people who are scared of dogs, have reactive dogs, dislike or are indifferent to dogs expressed a strong liking for on-leash areas.

87 comments shared support for on-leash at all times areas and 40 people spoke about the need to create safe community spaces and/or our beaches needing to be safe community spaces. A further 8 people supported on-leash areas only during daylight savings. 26 people shared that they didn't support on-leash areas on the beach with some mentioning that it would be frustrating and/or confusing to have different rules along the beach and that the beaches were often quiet outside of DLS months.

3.4 Dog Exclusion areas

There was a strong dislike of exclusion areas from people with a positive relationship with dogs and people with reactive dogs. People who are scared of dogs, are indifferent to or dislike dogs expressed a strong liking of dog exclusion areas.

21 comments shared support for dog exclusion areas stating they would create safe spaces for people who didn't want to interact with dogs. 35 comments shared a lack of support for dog exclusion areas and the impact that this could cause for the community.

3.5 General Comments on Concepts

99 people shared comments about effective control not currently being followed or enforced. 68 people requested that dogs be on-leash all times in public areas. 64 people mentioned having a fear of dogs or having a bad experience/incident with a dog not under effective control. 64 comments related to increased enforcement of rules whether they be the current ones or future ones. 25 people spoke about poor behaviour of some dog owners and the effects this had on their use of the beach. 18 people shared comments about them currently having issues or not being able to access our beaches because of the current rules and/or behaviours of beach users.

83 comments spoke about the importance of dogs having opportunities to exercise and socialize. 57 people made reference to the enjoyment of their off-leash lifestyle and purchasing a house in this area or visiting this area, due to dog friendly beaches. 33 comments spoke about the need for dogs to be able to access adequate open space with several mentioning decreasing size of backyards. 27 people spoke about their want to be able to walk dogs off-leash at all times on the beach with majority of these comments also saying that this would need to be under adequate effective control and would be the owners responsibility to make a decision on whether it was appropriate to do this. 27 people mentioned issues with disposal of dog poo with some stating the need for bin facilities.

23 people spoke about the preferences of dog owners being put before other users of the beach or that the preferences of dog owners should be put placed before other users as the highest users of this space. 19 people thought that the views and preferences of locals should be put before the preferences of visitors to the beach/area. Grassed foreshore - 20 people shared comments that they thought the grassed foreshore should be on leash at all times. 3 people thought the grassed foreshore should be under DLS rules and 3 thought the rules should remain as they currently are.

Top comments Daylight Savings Rules

- DLS rules provide the right / a fair balance – 140
- Leave the rules as they are / general support for DLS rules – 138
- DLS rules too restrictive – 61
 - Too restrictive for off-leash use - 45
 - Requests to reduce DLS hours - 32
 - Requests to adjust days/months – 22
 - Too restrictive for on-leash and general beach use – 16

Top comments for dog off-leash areas:

- Comments in support for off-leash all times areas – 111
- Comments against off-leash all times areas - 27

Top comments for dog on-leash areas:

- Comments in support for on-leash areas – 87
- Creating safe community spaces and need for beaches to be safe community spaces – 40
- Comments against on-leash all times areas - 26

Top comments for dog exclusion areas:

- Comments against dog exclusion areas – 35
- Comments in support for dog exclusion areas - 21

Top general comments for concepts:

- Effective control not followed or enforced – 99
- Important of off-leash access for dog health and socialisation – 83
- Requests for dogs on-leash all times in public places – 68
- Fear of dogs or bad experience/incident with dog – 64
- Increased enforcement of rules (existing and/or new) – 64
- Comments about off-leash lifestyle of local residents – 57
- Suggestions for or reference around effective control and general dog ownership education – 56
- Health benefits of owning a dog (mental and physical health and community socialisation) – 53
- Owners responsibility / decision to follow the rules and/or may the right decision on rules for their pet – 44
- Importance of access to open space for dogs – 33
- Requests or preferences for off-leash all times under effective control – 27
- Comments around lack of dog poo and availability of dog poo disposal - 27

4 Engagement Results – Options, Grassed Foreshore

Participants were asked how they feel about the current rules for the Grassed Foreshore and an option for on-leash in designated busier areas typically around the jetties. Participants could also provide a comment.

4.1 Option 1 – Off-leash all areas (Current rules)

People who are scared of dogs, are indifferent to or dislike dogs expressed a strong disliking of off-leash all areas. More than half of people who have a positive relationship with dogs were positive about off-leash all areas on the grassed foreshore.

35 people commented in support of the current rules (off-leash all times), 39 people said that there was no issues with the current rules, and 13 just stated to leave the rules as they are (some cross over between responses). This cohort of respondents did not provide much context as to their support for the current rules other than providing areas for elderly and people with mobility issues to exercise their dogs (7), suggesting that the on-leash areas would impacts on business (6) and concerns about the impacts on dogs owners on having to put their dog on leash within the designated areas (6).

4.2 Option 2 – On-leash at designated areas

People who are scared of dogs had a strong liking for designated on-leash areas. More than 75% of people who are scared of dogs, are indifferent to or dislike dogs or have a reactive dog loved, liked or could live with designated on-leash areas, 62% of people with a positive relationship with dogs also supported on-leash at designated areas.

63 people commented in support of the rules for the grassed foreshore being on-leash at all times.

People who commented in support of the on-leash areas spoke in support of having safe areas for families and the general community to gather (27), support for on-leash in high traffic areas (25) and the general benefits of an on-leash area (34).

4.3 Grassed Foreshore General Comments

33 people mentioned the need for more effective control education, and 33 spoke about effective control not currently being followed or enforced. There was a cohort of people who spoke about dog owners needing to have the rights to make the responsible decision based on their pet and the surrounding circumstances (22) and/or about how they already put their dog on-leash in these areas or around other people and animals.

Top comments Option 1 – off-leash all areas:

- Support for current rules -35
- Nothing wrong with current rules - 39
- Leave rules as they are - 13
- Needs of people with mobility issues - 7

Top comments Option 2: On-leash at designated areas

- Benefits of on-leash area – 34
- Safe family/community spaces – 27
- Support for on-leash in high traffic areas – 25
- On-leash all times around children, picnic areas and crowds – 20
- On-leash at designated times e.g. daylight savings – 20

General comments for Grassed Foreshore:

- Grassed foreshore should be on-leash at all times – 63
- Effective control education - 33
- Effective control not followed or enforced – 33
- Enforcement of rules - 22
- Owners responsibility / decision – 22

5 Engagement Results – Options, North Haven Beach

Participants were asked how they feel about the current rules on the North Haven beaches and an option for on-leash area in a northern section of the beach. Participants could also provide a comment.

At the North Haven pop-up the Surf Life Saving Club President indicated the club is comfortable with the current rules on the beach.

5.1 Option 1- Daylight Savings Rules

More than 75% of people who have a positive relationship with dogs or have a reactive dog 'loved', 'liked' or could 'live with' the current rules.

More than 50% of people who are scared of dogs strongly disliked the current rules.

Comments

The highest number of responses showed a lack of support for changes to current rules due to there being nothing wrong with the current rules (44), general support for daylight savings rules (37), that the current rules being a fair option for all (15) or just simply stated to leave the rules as they are (13) (some cross over between responses).

5.2 Option 2 – North On-leash Area

90% of people who are scared of dogs 'loved', 'liked' or could 'live with' this option and 80% for people who are indifferent about or dislike dogs. 52% of people with reactive dogs 'loved', 'liked' or could 'live with' this option.

There was strong dislike of this option (greater than 65%) by people with a positive relationship with dogs.

17 comments voiced support for the on-leash area in general, 12 spoke about creating safe community / family spaces and 10 voiced feelings that it would be a good compromise for all. Some people felt that that this area of the beach was too small to split (15), that the rules should be the same for the full section of the beach (10), the option unfairly would impact dog owners (16), create dog/people congestion (12) and that it would be confusing (11).

5.3 North Haven General Comments

A group of respondents thought that this beach and/or all beach areas should be on-leash at all times (27) and another group of respondents that thought this section of the beach could be appropriate for off-leash all times rules or an off-leash all times area (24).

21 people spoke about effective control not currently being followed by dog owners and/or not being enforced by Council. 22 people mentioned that this area of the beach was quiet and 13 people said majority of the people using the beach were doing so with dogs.

Top comment Option 1 – Daylight Savings Rules:

- Nothing wrong with the current rules – 44
- Support for daylight savings rules – 37
- Fair option for all – 15
- Leave rules as they are - 13

Top comment Option 2 – North On-leash Area:

- Support for on-leash area – 17
- Impacts on dog owners - 16
- Small area of beach to split – 15
- Dog / people congestion – 12
- Confusion around split rules – 11
- Support safe space for children and families – 12

General comments for North Haven Beach:

- Support for on-leash all times – 27
- Support for off-leash all times or off-leash all times area – 24
- Comments about North Haven being a quiet beach – 22
- Effective control not being followed or enforced – 21

6 Engagement Results –Options, Semaphore South to Breakwater

Participants were asked how they feel about options for Semaphore South to the Osborne Breakwater including

- The current Daylight Savings Rules
- On-leash around jetties
- On-leash around jetties, off-leash north of Taperoo

6.1 Option 1 – Current Rules Daylight Savings Rules

More than 75% of people who have a positive relationship with dogs or have a reactive dog ‘loved’, ‘liked’ or could ‘live with’ the current rules. Other groups recorded above 50% for ‘loved’, ‘liked’ or could ‘live with’.

Commentary around staying with the current rules spoke about there being no issues with the current rules (64), DLS rules being fair for all users (26), requests to ‘leave rules as they are’ (17) and general support for DLS rules (42) (some cross over between responses). 20 people mentioned support for reducing DLS hours to increase off-leash hours on the beach especially in the evening.

6.2 Option 2 – On-leash Around Jetties

More than 75% of people who have are scared of dogs, dislike or are indifferent about dogs ‘loved’, ‘liked’ or could ‘live with’ this option and 68% of people with reactive dogs. Just over half of people with a positive relationship with dogs ‘loved’, ‘liked’ or could ‘live with’ this option.

People that felt Option 2 seemed like a reasonable approach commented in general support for on-leash areas (24), and more specifically about supporting the provision of a safe space for everyone all year round (18). 22 people mentioned only having the on-leash area during daylight savings.

Commentary around the size of the on-leash jetty areas was as following:

- 200m total per jetty – 20
- 500m total per jetty – 9
- 150m total per jetty – 7
- At least 1km per jetty – 6
- 300m per jetty – 6
- 100m per jetty – 4
- On leash between Semaphore and Largs Bay jetties - 4

6.3 Option 3 – On-leash Around Jetties, Off-leash North of Taperoo

Reactive dog owners and people scared of dogs were the only groups to have more than 50% indicate they ‘loved’, ‘liked’ or could ‘live with’ this option.

The off-leash area in Option 3 provided the most contrast between respondents with 39 people being very supportive of accessing an off-leash area anytime of day all year around and others believing that no area should be off-leash all of the time and that this space may cause people to be less aware of their animals and congregate in one space (24), not supporting the location of the off-leash area (14) and/or not wanting to have to travel to the off-leash area (14). 39 people commented that option 3 provided the fairest option for all users.

People who were not supporting of option 2 and 3 spoke about the confusion that these rules may cause in the community (27), issues enforcing the rules (20) and the effects on dog owners (28) and local businesses (10).

6.4 Semaphore South to Breakwater General Comments

There were 28 comments about effective control not currently being followed by dog owners or enforced by council and 28 comments about further education around effective control being needed and 25 comments about better enforcement of the rules. 21 people thought that it should be dog owners responsibility to decide when and whether their dog should be off-leash.

Top comments Option 1 – Daylight Savings Rules:

- No problem with current rules – 64
- Support daylight savings rules – 42
- Fair for all users – 26
- Support for reduced DLS hours - 20
- Leave as is - 17

Top comments Option 2 – On-leash Around Jetties:

- Support on-leash areas – 24
- On-leash areas in line with daylight savings – 22
- Support safe community space – 18
- Jetty distance uncertainty - 16

Top comments Option 3 – On-leash Around Jetties, Off-leash North of Taperoo:

- Best options for all users – 40
- Support off-leash all times area – 39
- Don't support off-leash at all times area – 24
- Travel to Taperoo off-leash space – 14
- Don't support location of off-leash area - 14

Top comments relating to Options 2 and 3:

- Effects on dog owners – 28
- Confusing – 27
- Issues enforcing – 20
- Effects on businesses and tourism – 10

General comments for Semaphore South to Breakwater Beaches:

- Effective control education - 28
- Effective control not followed and/or enforced – 28
- Enforcement of current or new rules – 25
- Semaphore South to Breakwater on-leash at all times – 24
- Signage and education – 23
- Owners responsibility / decision - 21

Dogs on Beaches Community Engagement – Responses by Individual

| | | | |
|--|---|--|---|
| Contribution ID: 12568 | About contributor | | |
| | Age group: 30-34 | Gender: Female | Suburb: I live outside PAE |
| | Dog ownership: Yes | Relationship with dogs: I love dogs | |
| | | Reasons to Visit (reasons don't visit): With my young family; With my adult friends and family; To walk my dog(s); To exercise; For recreation() | |
| | Concepts: How do you feel about... | | I have taken my dog and 2 year old to a few beaches before but we love going to Semaphore on a regular basis (1-2 times a week). Sometimes i enjoy running with my dog on my own early and then after 10am i feel i can enjoy the beach with my family without the dogs running around everywhere. However that time in the morning is so peaceful and everyone seems happy and responsible. I'm not a fan of dog parks - I get worried about dog fights within those smaller spaces, but i have only ever had positive experiences at Semaphore with dogs off leashes and the adequate space to run to run with my dog. We would be absolutely devastated if these rules were to change, as I'm sure many others would be too! |
| | Daylight Savings Rules | Love them | |
| | Off-leash (all times) | Love them | |
| | On-leash (all times) | Love them | |
| | Exclusion (all times) | Like them | |
| | Grassed Foreshore | | |
| | Current Rules | Can live with it | I don't usually take my dog on the grass area, only the beach. However, i can see why the change would be better suits as it can get busy on the grassed foreshore. Not everyone likes dogs or some may be wary, so i do think in busier parts dogs are better suited on a leash. |
| | On-leash around jetties | Like it | |
| | North Haven | | |
| | Current Rules | | |
| | North On-leash | | |
| | Semaphore South to Breakwater | | |
| | Current Rules | Love it | I prefer option 1 as usually my dog walks are between 7am-9am. Between those times, i can't say i have ever seen people picnic etc. Maybe 1 or 2 people sitting on the beach but never bothered. Especially if people can control their dogs not to go upto people. Unless it's been a very hot day and people are heading to the beach early. Could the weather be a consideration? |
| | On-leash around jetties | Can live with it | |
| On-leash around jetties, north off-leash | NA | | |
| | | | |

| | | | |
|--|---|--|--|
| Contribution ID: 12560 | About contributor | | |
| | Age group: 35-39 | Gender: Female | Suburb: Largs North |
| | Dog ownership: No | Relationship with dogs: I like dogs; I am scared of dogs | |
| | | Reasons to Visit (reasons don't visit): To exercise; Other: I take my grandchildren to the beach to play in the sand and for swimming.() | |
| | Concepts: How do you feel about... | | My grand children have been charged by dogs quite often, terrify them, by dogs off leash. Some dog owners don't seem to have consideration for others. I would love to have dogs on their lead at all times, but I am aware that is not possible so the current Daylight Savings rules are fine. |
| | Daylight Savings Rules | Like them | |
| | Off-leash (all times) | Loathe them | |
| | On-leash (all times) | Love them | |
| | Exclusion (all times) | Like them | |
| | Grassed Foreshore | | |
| | Current Rules | Loathe it | I feel that the areas near the jetties and kiosks that are heavily used by families both young and old should be protected by having the dogs under control by lead at all times. |
| | On-leash around jetties | Love it | |
| | North Haven | | |
| | Current Rules | | |
| | North On-leash | | |
| | Semaphore South to Breakwater | | |
| | Current Rules | Like it | I have lived in the area for 30 years and paid my rates. We do use the beach near us often over the time have noticed the dogs of the lead more often. My rates have been used to provide dog parks in the area which I'm happy about so I don't think the beach area should be taken away from the freedom use of my family. I'm not sure when the rights of the dogs overrides the rights of the rates payer and their families. |
| | On-leash around jetties | Love it | |
| On-leash around jetties, north off-leash | Dislike it | | |
| | | | |

| | | | |
|--|---|--|---|
| Contribution ID: 12559 | About contributor | | |
| | Age group: 35-39 | Gender: Female | Suburb: Exeter |
| | Dog ownership: Yes | Relationship with dogs: I like dogs | |
| | | Reasons to Visit (reasons don't visit): To walk my dog(s); To exercise() | |
| | Concepts: How do you feel about... | | |
| | Daylight Savings Rules | Can live with them | |
| | Off-leash (all times) | Dislike them | |
| | On-leash (all times) | Like them | |
| | Exclusion (all times) | Like them | |
| | Grassed Foreshore | | |
| | Current Rules | Loathe it | The grassed areas adjoin the pathway and are the access to the beach. There are too many people, dogs, bikes, skateboards, e bikes etc using the area to have dogs loose. Dogs should be on lead at all times. |
| | On-leash around jetties | Love it | |
| | North Haven | | |
| | Current Rules | Like it | It traditionally is an area few people frequent and space allows dogs to move freely. Maybe restrict to peak usage times or rely on people to be reasonable and make that decision themselves!! Signage to encourage this?? |
| | North On-leash | Dislike it | |
| | Semaphore South to Breakwater | | |
| Current Rules | Like it | Would consider including 100 metres north of the Breakwater (near noonies) as this is a busy area - kids, ice creams, e-scooters | |
| On-leash around jetties | Love it | | |
| On-leash around jetties, north off-leash | Can live with it | | |

| | | | |
|--|---|---|---|

| | | Reasons to Visit (reasons don't visit): With my young family; With my adult friends and family; To walk my dog(s); To exercise; For recreation() | |
| | Concepts: How do you feel about... | | |
| | Daylight Savings Rules | Dislike them | Daylight Savings rules - Believe afternoon time is way to late. 6pm would be better. Dog off-lash areas - yes, but specific areas. Dog on-leash areas - yes, but specific areas. Dog exclusion areas - yes specific areas. |
| | Off-leash (all times) | Like them | |
| | On-leash (all times) | Like them | |
| | Exclusion (all times) | Love them | |
| | Grassed Foreshore | | |
| | Current Rules | Dislike it | |
| | On-leash around jetties | Love it | |
| | North Haven | | |
| | Current Rules | Can live with it | I still though feel that 8pm is way to late and that maybe a 6pm start for off lead provisions is more logical and sensible especially when young children to have time with their dog/dogs off leash for possibly spending time in the water is to occur. Have only just visited this beach for first time today. Don't get the sense that this is a popular beach, good area for allowing off leash at all times. |
| | North On-leash | Dislike it | |
| | Semaphore South to Breakwater | | |
| Current Rules | Dislike it | On popular beaches I agree with the current Daylight Savings rules, although feel that maybe 6pm might be a better time for off leash as families with young children and dog would have time to be on beach for playing/swimming with 8pm way to late for families whether you have children or not and for very elderly people also. Option 2 - 150m too short 500m if feasible. Option 3 - this is a good option, though if necessary it could start further up say at where the carpark/play area at Osborne. | |
| On-leash around jetties | Love it | | |
| On-leash around jetties, north off-leash | Love it | | |

| On-leash around jetties | Can live with it | |
| North Haven | | |
| Current Rules | Like it | |
| North On-leash | Can live with it | |
| Semaphore South to Breakwater | | Option 3 gives something to all parties. Jetty to breakwater and return is a reasonable walk for dogs and 150 mtr each side is enough for picnics on sand. I do notice most people on beach are with dogs in off-leash times. |
| Current Rules | Can live with it | |
| On-leash around jetties | Dislike it | |
| On-leash around jetties, north off-leash | Love it | |

| About contributor | | |
|--|---|---|
| Age group: 35-39 | Gender: Female | Suburb: Semaphore |
| Dog ownership: No | Relationship with dogs: I feel indifferent about dogs | |
| | Reasons to Visit (reasons don't visit): With my young family; To exercise; For recreation() | |

| Off-leash (all times) | Loathe them | |
| On-leash (all times) | Love them | |
| Exclusion (all times) | Love them | |
| Grassed Foreshore | | Both options mean off-leash at all times on the grassed foreshore in front of our home. It is not possible to stop an off-leash dog on the grassed foreshore area from straying onto the coastal path. The off-leash dog does not understand the difference between being on the grass or the path. Allowing off-leash on foreshore grassed area at all times, in practical terms, means off-leash at all times on the coastal path. The grassed foreshore area from Semaphore South through to Semaphore jetty is used extensively on warm days for family picnics, ball games, riding bikes or scooters, using the showers to wash off sand, and by people jogging or walking on the path. If there is a high tide and fresh sea breeze the grassed areas can become extremely busy. The implication in the survey options is that if these people don't want to be approached by dogs they should cram into a small area around the Semaphore Jetty. (extra text included in written submission included in engagement report) |
| Current Rules | Loathe it | |
| On-leash around jetties | Like it | |
| North Haven | | Have no specific views. |
| Current Rules | Can live with it | |
| North On-leash | Love it | |
| Semaphore South to Breakwater | | The small area around the jetties outside of daylight saving is insignificant and unlikely to be complied with or policed. How many owners walking their dogs along the beach during the quiet winter months are going to remember to put the lead on the dog when they pass an imaginary line? The dog off-leash beach north of Strathfield Terrace does not affect us directly, but we would be greatly concerned if we lived at North Largs or Taperoo. No consideration has been given to whether the daylight savings rules are compatible with contemporary beach use. Easter Sunday can occur as late as April 25th and the South Australian school holiday dates are 13th to 28th April in 2024 and 12th to 27th April in 2025. Victoria has school holidays during September with significant numbers of interstate visitors to our beaches and foreshore. Parents with young children regularly visit the beach before 10am to minimise sun and heat exposure. (extra text included in written submission) |

| | Reasons to Visit (reasons don't visit): To exercise() | |
| Concepts: How do you feel about... | | I like the idea of daylight savings rules - but that means I can only access the beach in the hottest part of the day - so in summer it's a bit impractical - and the reality is that whether daylight saving rules are applied or on leash areas, when people think that no-one is around to encourage them to adhere to the rules - they don't/won't. As soon as they think no-one is watching, they will let their dogs off the leash. |

| Grassed Foreshore | | On leash in designated areas again encourages dog owners to take responsibility for their animals. Families picnicing won't be at risk of being harassed by strays. The elderly (frail people) would feel safer at not at risk of being bitten or knocked over, |
| Current Rules | NA | |
| On-leash around jetties | Love it | |
| North Haven | | My prior reasons for on-leash at all times is supported by examples of incidents wherein smaller dogs have been attacked and even killed by more aggressive dogs whose owners are ineffective in controlling them. Our own dog was reactive to others so we were unable to walk him (on leash) on the beach whilst he was alive because of dogs that were unleashed. |
| Current Rules | NA | |
| North On-leash | Love it | |
| Semaphore South to Breakwater | | My overall observations and concerns have changed over 30 years' residing in both Semaphore and Largs Bay - primarily because of the greater number of beach-goers, some who are not taking rules seriously that affect our community and undermine the safety of the greater population. |

| Dog ownership: Yes | Relationship with dogs: I love dogs | |
| | Reasons to Visit (reasons don't visit): To walk my dog(s); With my young family; To exercise; For recreation() | |
| Concepts: How do you feel about... | | <p>Our young family have lived at Semaphore South for many years and a visit to the beach is a daily routine. Summer time when there are many people at the beach, yes dogs should be on a leash, its best to exercise your dogs early in day or late anyway during the warmer months. Sometimes feel 8pm is far too late to go for walk safely on my own with the dog to enjoy a run. Winter time the beaches are empty often we are the only ones there and our dog loves chasing the ball and running along the beach meeting other friendly dogs.</p> <p>We are so thankful our kids can grow up with memories of enjoying the beach with their pet dog. It's been our way of life and for all the local community, please do not change our way of life when there is no need for change, it would be far more beneficial to provide more education for owners to effectively control their own dogs on public beaches.</p> |
| Daylight Savings Rules | Can live with them | |

| On-leash around jetties | Can live with it | |
| North Haven | | Adding a very small on leash year round area seems complex and at odds with the announcement last year to create an off leash zone at this beach. It's hard to understand the need and rationale behind this suggestion, especially if the jetty areas end up becoming on leash year round (which is where families can go if they want this option). I also would normally not rate daylight savings rules as 'love it' but in the context of the Taperoo beach hopefully becoming off leash year round, this would mean there would be a nearby option for those who wish to go to a beach off leash. |
| Current Rules | Love it | |
| North On-leash | Loathe it | |
| Semaphore South to Breakwater | | I am fully supportive of creating an off leash year round zone. I am not fussed by the jetty part. Creating this zone from Strathfield Tce means that you could park at the large carpark and head north or south depending on your leash preference. The size of the off leash zone is good and the location, as the quietest part of the beach, makes complete sense (given that this area is often full of seaweed & very wide). Many people in this area also already use it as an off leash area year round. It's unfortunate that the question around jetties and off leash have been added together - ie you cannot vote for off leash and no change to jetties. It would have made more sense to ask 1) what do you think about the jetty area, and 2) the off leash proposal. This means many people who are supportive of off leash areas, but don't want the jetty rule (particularly if living in the south area), are voting for option 1, and it will be unknown how many people actually support the off leash idea. |

| Concepts: How do you feel about... | | <p>We live in Salisbury east and our closest dog beach is 50 mins away. Our dogs love north Largs beach. We always go straight to the water for swims even though there is barely anyone there possibly the seaweed. The pooches love seaweed that accumulates there and they love to fetch their ball from the water which is a great workout and enriching quality of life for them. Ball is life to them so they don't bother a soul. We train our pooches to be civilised pooches and we take the responsibility of letting them off leash incredibly seriously like every owner should.</p> <p>I really, really hope you go with option 3 because we need a beach north of Adelaide all year round.</p> |

| Concepts: How do you feel about... | | <p>Dogs on the beach was one of the reasons we purchased our house.</p> <p>I am quite happy with the on leash regulations at the moment. During the winter it is generally only dog walkers on the beach. Also it was very sneaky of the council to try and sneak the change under everyone's radar also our council leader seems to have made up her mind that we will not have dogs on the beach or was that just a slip of the tongue.</p> |

| Concepts: How do you feel about... | | I'm opposed to changing the dogs on beaches laws from Semaphore to Northhaven, I feel that all our metropolitan beaches should have the same rules. I understand some people are afraid of dogs but I don't think that justifies changes to our beaches if it was a significant public concern all beaches would be changing the rules. In the Summer after 10 am dogs are on leashes until 8 pm, I think this is very reasonable. In the cold winter, most of the beachgoers are people who specifically go there because their dogs are allowed to exercise off-leash. Your proposal is unclear regarding on leash distance between Semaphore and Largs Bay, there are only 1.7 kilometres between both Jetties, so anything over 150 meters is going to impact the use for residents who live between the jetties that walk to the beach to exercise their dogs off-leash. If you create a permanent off-leash beach area that could create a concentration of dogs in an area that could be more dangerous. |

| Concepts: How do you feel about... | | I think the current rules are fair relating to day light savings. If there is a consensus that Dogs should be on leads near the jetty, This could be attached to the day light savings rule to create consistency. For many months of the year it is only people with dogs on the foreshore and beach. |

| Concepts: How do you feel about... | | I am an older resident with a 30kg very sociable and friendly dog who is very difficult for me to get into and out of a car. This restricts our beach visits to Semaphore as walking further to say north of Largs is too far. I am happy with the current daylight saving rules as we can be off the beach by 10am. My dog has been trained to come back immediately when called from a young age. If she didn't she was put on the leash and learned quite soon that this was a form of discipline. For quite a number of years now she has never had to be leashed on the beach. Outside daylight saving time, particularly in winter we are often the only 2 beings on any area of the beach. Why should she have to go on a leash on those days? |

| Grassed Foreshore | | This would be costly to police and realistically the major grassed areas are around the jetties anyway. I prefer the current rules with an emphasis on "under effective control" . I would agree that dogs should be on a leash when there are events on any of the grassed foreshore areas such as cultural celebrations, Anzac dawn service. |
| Current Rules | Love it | |
| On-leash around jetties | Dislike it | |
| North Haven | | |
| Current Rules | | |
| North On-leash | | |
| Semaphore South to Breakwater | | I have never noticed more beach goers around or under the jetties than other parts of the beach before 10am on the daylight saving period . After 10 am on very hot days there would be but then dogs would be on leash then anyway, so don't see the point in the on leash around jetties areas. Most days outside daylight saving there are very few people on the beach and quite a few days in winter myself and my dog have been the only beachgoers so what would be the point of putting her on a leash when no one is around? |

| Dog ownership: Yes | Relationship with dogs: I love dogs; I have a reactive dog (sensitive to certain stimuli or situations) | |
| | Reasons to Visit (reasons don't visit): With my adult friends and family; To walk my dog(s); To exercise; For recreation() | |
| Concepts: How do you feel about... | | <p>Day light saving (on-leash 10am-8pm) - Dogs need some off leash time.</p> <p>The current DS rules regarding dogs being allowed off lead at certain times works well. Most dogs are walked in the early mane or late evening when it is cooler in summer. I do feel additional education and signage would help people be aware of what they need to do. Occasional Inspectors would help to enforce the rules and remind people on what is appropriate.</p> <p>If someone is walking their dog on lead, people need to put there dog on lead when walking past. Then they can remove their lead once past. Dogs are more reactive if they are on lead and approached by an off lead dog.</p> <p>For a dog to be off lead, the owner needs to have effective control and have the dog within 10-20 m of them, and be able to call their dog to them. I have had owners be running down the beach and their dog be 500m away.</p> <p>Don't let your dog run out onto the beach when the owner is still walking down the path.</p> <p>Thank you</p> |

| Concepts: How do you feel about... | | Off leash areas need to be properly sign posted and enforced if they are to be implemented. Off leash dogs need to be under complete control of the owner and not wandering away - too many off leash dogs come over to our on leash dog and scare both the dog and my children. Off leash zones need to be away from areas with high numbers of people. Off leash dogs that cause issues need to be expelled from the area and given a "do not return" notice. |

| Concepts: How do you feel about... | | <p>Dog ownership is becoming so much more prevalent. Part of responsible dog ownership is providing them enrichment and exercise opportunities. Well caredfor dogs in turn leads to less disruptive behaviour in neighbourhoods.</p> <p>With the cost of living crisis & boom in the housing market, dog owners can't necessarily afford the backyard space we once would have provided to our pets. We rely heavily on off leash walking opportunities to let our dogs play with each other and engage in their environment.</p> <p>Particularly in spring (grass seed season), the beach provides a great place to do this. Forcing all dogs to be on leash for prime parts of the day removes rights of responsible dog owners. Rather than a forcing all dogs to adhere to strict leash rules, council should instead patrol dog parks during busy times & be tougher on irresponsible owners that can't control their dogs and are unfit to own them.</p> |

| Concepts: How do you feel about... | | <p>Dog ownership is becoming so much more prevalent. Part of responsible dog ownership is providing them enrichment and exercise opportunities. Well caredfor dogs in turn leads to less disruptive behaviour in neighbourhoods.</p> <p>With the cost of living crisis and boom in the housing market, dog owners can't necessarily afford the backyard space we once would have provided to our pets. We rely heavily on off leash walking opportunities to let our dogs play with each other and engage in their environment.</p> <p>Particularly in grass seed season, the beach provides a great place to do this. Forcing all dogs to be on leash for prime parts of the day removes rights of responsible dog owners. It also forces young women like myself to walk at often the darkest times of the day. Rather than a forcing all dogs to adhere to strict leash rules, council should instead be tougher on those irresponsible owners. I reported multiple dog attacks as a constituent when living in Oakden and council enforced nothing.</p> |

| Concepts: How do you feel about... | | Semaphore South To Breakwater - just keep rules as they are. the majority of people walk their dogs on the beach early to avoid crowds and the heat of the day during summer. I walk every morning between 7-8 am and sometimes am the only person on the beach from Semaphore to Largs!! Why change what is not broken? Council seem intent on ignoring the majority as can be witnessed by the actions and attitude of their staff at the recent 'pop-ups' at the beaches. They have been very offhand and dismissive of locals thoughts and suggestions, seemingly already having their minds made up to get the outcome they have wanted all along. |

| Current Rules | Love it | Why is council determined to change something that already works for the majority of people? Most people exercise their dogs off-leash before 10am anyway especially in Summer due to the heat. The only people on the beach before this time are dog walkers with a few people jogging or walkers doing their daily routines. Council have obviously not listened to local sentiment at their 'pop-ups' being off-handed and very dismissive, with the outcome seemingly already decided but needing to keep up the charade of public engagement. This has been a total waste of tax-payers money trying to fix something that is not broken whilst pampering to a minority. |

| | Concepts: How do you feel about... | | I always keep my dog on leash (unless in single use park - she's friendly, but we've been attacked). I've been walking on the PAE beaches for over 20 years, with a few dogs! We've been rushed many times by dogs off lead and an idiot owner screaming "he's friendly". Well, some dogs aren't friendly, and if they're on lead, they're allowed to go out too!! They need exercise and enrichment, why shouldn't they enjoy the parks and beaches if they're doing so without interrupting anyone else? Also, some people are scared of dogs. I watched an idiot at the dog park let his dog off lead outside the park and it terrorised a poor lady, just walking past. The dog was friendly, but the lady was scared. That's not ok. People are just too irresponsible to let their dogs off lead just anywhere. Give them a spot they can go and harrass each other and leave the rest of us alone. Also, there are entire dogs who still need outings, and they can do so safely if there aren't dogs running around!! |

| Concepts: How do you feel about... | | Please keep North Haven Beach rules as they are, the change to on leash at all times would be detrimental to us and our community. The grassed area and reserve behind North Haven Beach should not be classified as foreshore in the same way as Semaphore and Largs Bay. It is totally different and much quieter. |

| North Haven | | |
| Current Rules | Love it | VERY IMPORTANT please keep option 1. This is a quiet area and the current rules work. Option 2 would severely impact us and our family nearby and could also affect the value of our home. We use the beach (sometimes) and the northern reserve area every day to walk and exercise our dog (and ourselves). Off leash paths, grassed area and beach is very important - particularly as all the houses along Gulf Point Drive and the beach facing South Australia One Drive do not have backyards. I am in my late 60s and my husband in his late 70s - and we are not always able to walk the dog on the beach because of mobility. As we age we won't be able to walk the dog on the beach at all. The walking paths/reserve at the north end are therefor very important for us to walk/exercise the dog offleash and socialise with others. The area is very quiet and is very windy and cold. Necessitating dogs on leash in the middle of winter at 7am (when we walk) is ridiculous - and you get sandblasted on the beach. |

| Concepts: How do you feel about... | | <p>Dog exclusion areas and on-leash at all times would be discriminatory to many people including the elderly and unwell / disabled.</p> <p>The number of people on the beaches without dogs is minimal so there is not a problem with the current rules.</p> <p>Local businesses would suffer as people will not be there to make buy from them.</p> <p>Finding huge fish heads and fish bones from the fishers on the jetties is more disgusting than having dogs on the beach.</p> <p>There are no services (toilets /cafes) down the Largs - Taperoo end of the beach which is huge problem if you want to force people to move to there. You would need to spend a lot of money to make that work.</p> <p>There are no car parks either, where are you going to put them in? Plus with the extra distance from the road to the beach it is unsafe as there is a lot of areas dangerous people can hide in not to mention the additional risk of snakes in the warmer months.</p> |

| Age group: 40-44 | Gender: Female | Suburb: Semaphore |
| Dog ownership: No | Relationship with dogs: I feel indifferent about dogs | |
| Reasons to Visit (reasons don't visit): With my young family; For recreation() | | |
| Concepts: How do you feel about... | | Daylight savings rules are problematic as early morning (before 10am) is the only feasible time my young children can visit the beach in summer to avoid heat & UV risks. It often feels crowded with off-leash dogs & inconsiderate owners, leading to negative experiences. Off leash rules don't work because most dog owners don't have effective control & don't respect other beach users. I have to constantly watch for approaching dogs & my kids have been bothered & scared by them - sniffed, licked, jumped on, knocked over, chased. We've had dogs disrupt our belongings & encountered unpleasant situations, such as a dog jumping on me when I was heavily pregnant. This has made me hesitant to visit the beach without my husband as I worry about protecting my kids. Families should be able enjoy the beach without fear of unwanted dog interactions. We should have dog-free zones on the beach & at the very least require dogs to be on leash at all times during daylight savings & within 2km of jetties. |
| Daylight Savings Rules | Dislike them | |
| Off-leash (all times) | Dislike them | |
| On-leash (all times) | Love them | |
| Exclusion (all times) | Love them | |
| Grassed Foreshore | | Option 2 is better than option 1 but it doesn't go far enough to address the need to manage off-leash dog interactions and the impacts on members of the community who don't want to be approached by dogs. Semaphore foreshore gets very busy at certain times in the year and dogs should be required to be on leash across a much more extensive area of the grassed foreshore. This would provide more opportunities for children and families to enjoy the area safely and reduce unwanted interactions with dogs while playing, picnicking, etc. |
| Current Rules | Loathe it | |
| On-leash around jetties | Like it | |
| North Haven | | Daylight savings rules are problematic as early morning (before 10am) is the only feasible time my young children can visit the beach in summer to avoid heat & UV risks. The combination of off-leash dogs & inconsiderate owners has led to negative experiences for me, my children & others who don't want to interact with dogs. Families should be able enjoy the beach without fear of unwanted dog interactions impacting their safety and enjoyment. Option 2 would be an improvement on current rules but doesn't go far enough to take into account the needs of families to enjoy the beach safely. We should have dog-free zones on the beach & at the very least require dogs to be on leash at all times during daylight savings & all year-round within 2km of jetties and the Outer Harbour breakwater. I don't understand why off-leash dog experiences are being prioritised over the safety and wellbeing of children, families and other people across the vast majority of areas of beach and foreshore in PAE?? |
| Current Rules | Dislike it | |
| North On-leash | Like it | |
| Semaphore South to Breakwater | | Option 2 is better than 1 or 3 but none are suitable. Early morning (before 10am) is the only feasible time my young children can visit the beach in summer to avoid heat & UV risks. Dogs should be leashed at all times during daylight savings & within 2km of the jetties all year round to manage unwanted interactions between people & dogs. I'm disappointed the proposals presented throughout this engagement generally prioritise the desire for dog owners to give their dogs off-leash exercise over the needs of the broader community to enjoy our public places safely & without the fear, discomfort & aggravation associated with unwelcome interactions with off-leash dogs. The concept of designated leash- |

| Concepts: How do you feel about... | | This response like the questions are very generalised and not precise. These survey questions are badly structured as it is unclear to which option the questions and answers refer. Each option should have had its own set of questions with a clear vote for or against the option. This survey is too wishy-washy to be taken earnestly. |
| Daylight Savings Rules | Love them | |
| Off-leash (all times) | Like them | |
| On-leash (all times) | Like them | |
| Exclusion (all times) | Can live with them | |
| Grassed Foreshore | | The on-leash areas need to be clearly defined, voting for an on-leash area that has no boundaries is like writing an open cheque. Areas at entrances to jetties, beside jetties and down to the ocean should be a consistent size to enable people to become familiar with them. The size of the on-leash area could be 50 metres to the north and 50 metres to the south each jetty (as an example). People need to know what they are voting for when answering this survey, there are grey areas in the descriptions and proposals. |
| Current Rules | Love it | |
| On-leash around jetties | Dislike it | |
| North Haven | | Option 2 reduces available areas of beach where dogs must be on a leash to a small cramped northern end of North Haven beach, it is not very accomodating or compromising to meet the needs of all. |
| Current Rules | Love it | |
| North On-leash | Loathe it | |
| Semaphore South to Breakwater | | Option 2 again does not provide a definitive boundary and a vote for this could be agreeing with untenable options. Option 3 provides no area for people wanting a dogs free or dog on leash area, this means they would have to use an area further to the south. I can't see, firstly, that Council have the man-power or the budget to manage these, secondly convey the rules to residents so they would be clearly understood, and thirdly, how they would inform visitors to the area as to which areas are suitable for what. I know the Council doesn't want a proliferation of signs on roadways and footpaths and I assume they would be resistant to having signs everywhere all over the beaches. |

| Concepts: How do you feel about... | | I do not really support any of the options offered. Rather, I think a common sense approach ought be adopted, such as requiring dog owners to use leads when appropriate, such as when young beach-using families are present, or when large numbers of people are present, as is typical on warm days. At any rate, rule regimes are pointless if they are not monitored and policed. |

| Dog ownership: No | Relationship with dogs: I feel indifferent about dogs | |
| | Reasons to Visit (reasons don't visit): With my young family() | |
| Concepts: How do you feel about... | | I am a non-dog owner with young kids who are often frightened by dogs. The daylight savings rules create major challenges, during summer, we only go to the beach between 8-10am to avoid extreme heat/UV. Every beach visit includes negative encounters, with unrestrained dogs consistently approaching our kids, resulting in knockdowns, licking, a dog jumped up on my heavily pregnant wife, our kids have come into contact with faeces. We are constantly navigating a challenging environment created by dogs and their owners, who act as if they own the beach. I want my children to feel safe at the beach. It's perplexing why the safety and preferences of families without dogs aren't prioritised over entitled dog owners. Why do dog owners enjoy access to all beaches while my family can't find a dog-free area to visit? The only option is a small, proposed leash zone around the jetties. The council should prioritise making most beaches dog-free and allow leashed dogs in limited designated areas. |
| Daylight Savings Rules | Loathe them | |
| Off-leash (all times) | Dislike them | |
| On-leash (all times) | Love them | |
| Exclusion (all times) | Love them | |
| Grassed Foreshore | | Option 2 is better than 1. Consideration should be given to dog-free areas, I would prefer off-leash areas to be well away from the main public spaces. |

| On-leash around jetties | Love it | |
| North Haven | | Need to include dog-free areas. The daylight savings rules create major challenges, during summer, we only go to the beach between 8-10am to avoid extreme heat/UV. Every beach visit includes negative encounters, with unrestrained dogs consistently approaching our kids, resulting in knockdowns, licking, a dog jumped up on my heavily pregnant wife, our kids have come into contact with faeces. We are constantly navigating a challenging environment created by dogs and their owners, who act as if they own the beach. I want my children to feel safe at the beach. It's perplexing why the safety and preferences of families without dogs aren't prioritised over entitled dog owners. Why do dog owners enjoy access to all beaches while my family can't find a dog-free area to visit? The only option is a small, proposed leash zone. The council should designate dog-free areas in the populous places and allow leashed dogs elsewhere. |
| Current Rules | Loathe it | |
| North On-leash | Like it | |
| Semaphore South to Breakwater | | Option 3 is the best but all fall short. I don't mind the concept of designated leash-free areas, but they need to be balanced with dog-free areas too. All 3 options give dog owners' access to all beaches. It reinforces the impression I feel from many dog owners that it's their beach. There are no options for people to enjoy a dog-free beach. A better option would be to make the proposed leashed areas around jetties dog-free (& extend them 500m N & S). It frustrates and annoys me as a non-dog owner, that my family and I are constantly running the gauntlet of dogs and their owners. Why is it that dog owners have access to all beaches, at all times, yet there is no-where I can take my family that is dog free, and the only option is to access a small, proposed zone either side of the jetties, where dogs must be on a leash. The council should be proposing the reverse, with dog-free zones, zones ok for dogs on leashes, and designated zones where it's permitted to have a dog off a leash. |

| Current Rules | Like it | The current ruling requiring dogs to be on leash from 10am and 8pm between October to March is already too long given that beach usage drops significantly from late Feb/March to well into October. This is not a rule to love, only tolerate. Any additional year-long total restrictions are unnecessary and unreasonable. | |

| | Daylight Savings Rules | Like them | I like the rules the way they are. The people who walk dogs on the beaches are considerate of others and genuinely committed to the welfare of the beaches and the people who use them. Daylight savings rules don't intrude on summer visitors. Wintertime off-leash areas allow everyone to enjoy the beaches. Please keep things the way they are. Thank you |

| Concepts: How do you feel about... | | I have lived here for 16 years and being able to walk my dog to the beach every day directly from my home is one of the reasons I love living here. While I know they occur, I have never witnessed a dog attack and we are there all the time. Dog walking is a healthy and social activity and a great way for dogs to be able to run free and get exercise off leash. I imagine that if it was not easy to give well behaved dogs a great run in this way, many would not be able to unload the energy they have, causing problems of barking and frustration in the neighbourhood. |

| Grassed Foreshore | | Dog owners will either comply with rules, (including having dogs under effective control) or not. Everyone I know as regulars voluntarily put their dogs on a lead at times when it appears others are afraid of a dog, or another dog is looking unfriendly. This can happen in any zone, and an education program of how to manage dog etiquette wherever you are would be of great value. |

| Concepts: How do you feel about... | | As a non resident of PAE my wife and I visit at least once a week to walk our small dog off leash. We generally go to Semaphore and the have breakfast along Semaphore Rd at one of the Cafe's. This means, these days, on average we are putting \$50 a time into the local community. We happily observe leash rules on the grassed areas and stringently observe the times. Simply put, it Council prohibits off leash at the jetty area we will change our habits, but once in the car we'll not stop for breakfast. I would add as an aside, my wife and I have travelled extensively through other States. In States such as Queensland and NSW where dogs have been excluded from beaches, very often they are deserted with little economic activity in surrounding areas. The current rules are a wonderful compromise. WIllth respect, I suggest you might change them at your peril. |

| Dog ownership: Yes | Relationship with dogs: I love dogs | |
| | Reasons to Visit (reasons don't visit): With my adult friends and family; To walk my dog(s); To exercise; For recreation; To participate in environmental activities() | |
| Concepts: How do you feel about... | | As a Semaphore resident I enjoy the ability to walk my dog to the beach and allow her to run freely on the beach. Restricting the off leash areas only benefits non dog owners and visitors to the area. |
| Daylight Savings Rules | Can live with them | |
| Off-leash (all times) | Love them | |
| On-leash (all times) | Loathe them | |
| Exclusion (all times) | Dislike them | |
| Grassed Foreshore | | Option 2, Once again this only benefits people that don't like dogs and non local visitors. It doesn't consider locals who pay a premium to live here and enjoy being able to walk their dogs as and when it is convenient. Additionally, I consider myself a responsible dog owner and would ensure my dog is on a leash on a busy day regardless of the rules. I would like to know how these rules will be monitored as currently there is little or no monitoring of the beach and foreshore areas. If they were to be regularly monitored it may prevent issues that occur because of irresponsible dog owners and these reviews would be unnecessary. In the 11 years I've lived in Semaphore and walk dog on a daily basis (other more) I have never seen a Council officer patrolling the beach or foreshore areas. I have seen them in the Charles Sturt |
| Current Rules | Love it | |
| On-leash around jetties | Loathe it | |
| North Haven | | Further restrictions to beach areas only seeks to disadvantage local residents. Once again, if you don't monitor or patrol these areas nothing will change. How about we try to educate people who visit the area about the requirements of being a responsible dog owner. And patrol these areas to further ensure compliance and education. Let's not punish all dog owners because of a few bad ones. |
| Current Rules | Can live with it | |
| North On-leash | Dislike it | |
| Semaphore South to Breakwater | | I can not possible agree to an option of exclusion of an undetermined area, it's like signing a blank cheque? Furthermore, to exclude dogs off leach until Taperoo is intolerable, it marginalise dog owners. Currently I can walk my dog to the beach and then along the beach, albeit at restricted times of the day. If we are forced to go to Taperoo, I would need a vehicle to drive my dog to the beach which is counter productive to living in a village area like Semaphore, where I don't need a vehicle, I catch the train into the CBD and ride my bicycle everywhere else. How about we patrol these areas to ensure the current rules are informed instead of punishing everyone for the actions of a few recalcitrance. |

| Dog ownership: Yes | Relationship with dogs: I love dogs | |
| | Reasons to Visit (reasons don't visit): To walk my dog(s); To exercise; For recreation() | |
| Concepts: How do you feel about... | | <p>The current rules provide a balance between the ability to exercise our dogs off leash and other beach/foreshore users. Restricting access further will make it difficult for dog owners many of whom are residents and moved here for the lifestyle including for our dogs. As residents, our perspectives should hold more weight than non-residents or ratepayers who may only visit a few a times a year.</p> <p>The current rules provide a balance between dog owners and other users. Further restrictions only penalise dog owners who do the right thing. Those irresponsible dog owners will continue to flout the rules as they do now.</p> <p>The concept of an off leash area at all times is good except that it will require residents to drive to get there. Also, if the area is not large enough, it will congregate too many dogs in one area which ,any increase issues (similar to dog parks).</p> <p>The current rules provide a balance between dog owners and other users. Further restrictions only penalise dog owners who do the right thing. Those irresponsible dog owners will continue to flout the rules as they do now. The off leash area north of Taperoo will require residents to drive to use it. Feedback from resident/ratepayers should be weighted higher than visitors as we would use the beach more often and are contributing financially to the upkeep.</p> |

| | Concepts: How do you feel about... | | The Daylight savings rule time line long, With large amounts of subdivisions and small blocks approved at an alarming rate, these blocks have little to no yards. The working class person can only let their dog run off the leash after 8pm at night during daylight savings Most work first thing in the morning or getting kids to school. The result is that their dog is not able to be off the leash. You only need to look at New Port to see there is going to be a larger part of PAE with no or little yards. We are over developing and not creating enough reserves/recreational areas for people or animals or maintaining. (example, the grass area next to the North Haven school and Hunter Reserve, these areas get over taken & full of prickles/burrs in late spring and summer so people have to use the parks near the water front. The grass area near north haven school needs new grass, has no bins or dog bags. Would make a great dog Park, needs trees near railway tracks.) Thank you for your time. |

| Concepts: How do you feel about... | | <p>I think exclusion areas are the answer to help people with phobias but also it will just make the rules clearer.</p> <p>As it is people act like they didn't realise it was time to put their dog on a leash. An exclusion area would be a very small percentage of beach where dogs can't go. It would provide a safer environment for young kids and people that don't want wet dogs running up to them as they relax.</p> <p>I think leashes should be compulsory at all times as most people do not have effective control of their dogs....but yeah I don't think I can ever win that argument.</p> <p>When I had my dog I got injured, yelled at and abused for having him on a leash and not allowing other dogs to run up and "play" (intimidate) with him. To be honest it has put me off dog ownership as other people are just idiots!!!!</p> <p>It's time people were given clearer boundaries for their dogs.</p> |

| Concepts: How do you feel about... | | All dogs should be on leads in public places. I walk my dog around the Port Loop path and there is always that one person with a dog off lead who doesnt come back when called and runs up to people with kids, dogs, on bikes and causes mayhem. Last week we had a dog try to bite my dog and the owners didnt apologise or make any effort to control their off lead dog. The rest of us have our dogs on lead. The only places that dogs should be off lead are fully enclosed dog parks or ovals, where the owner has full control of their dog. If you cannot control your dog - then it stays on a lead. If you dont have a garden big enough for your pet - then maybe getting a pet wasnt the smartest of decisions for you. The easiest thing is ALL dogs must be on a lead in public. No lead = fine. i love my dog however I dont have to love everyone elses |

| | Concepts: How do you feel about... | | I think existing rules work perfectly well, suit dog walkers ALL year, meet needs of dogs and owners to freely exercise, socialize, make new friends, share local news, provide supportive interaction and enjoyment each day of the year. I bought my home to give me this lifestyle and in my retirement and into the future and think it would be a travesty for Council to change the rules. |

| Concepts: How do you feel about... | | <p>We have a well behaved dog who loves to walk and socialise on the beach. Both here and in our previous council area we found walking on the beach with the dog a wonderful way to engage with the community and make friends in the local area. It is also great for local business as dog walkers will stop and grab a coffee, breakfast or lunch all year round.</p> <p>I understand having an on leash time during summer, especially for younger children who may be nervous around dogs. However I find 8pm to be quite late to walk as it is often dark by then and families with young children have generally already left a couple of hours earlier so it would be good to have this adjusted to end at 6pm or even 7. During winter it is primarily dog walkers on the beach so to lose that off lead time would be a shame for the local community and as many people would then chose to walk somewhere more flexible (myself included) it would be a shame for local businesses who regulars frequent post beach walk year round</p> |

| <p>It would be good to have an area where dogs are allowed off lead at all times year round however not at the cost of having areas of the beach where dogs are never allowed off lead. During daylight savings it would be good to have the on lead time end a little earlier as 8pm is quite late and is generally already dark by then. Having reduced on lead daylight savings times and an area where dogs are allowed off lead at all times would be ideal.</p> <p>Reducing the ability to walk dogs off lead will have an impact not only on the community of local dog walkers and dog lovers but also on local businesses who rely on their business, particularly during the cooler months when the vast majority of people still on the beach and frequenting local cafes are the regular, dedicated dog walkers.</p> | | |

| Concepts: How do you feel about... | | I don't think that dog on leas areas/exclusion areas would be respected if they were implemented, and I think it would be hard to enforce. Not to mention it would be really cumbersome to go off leash, to on leash to walk under and through the jetty zone. Personally, I feel that the red zone should not happen. I think Daylight savings rules (on-leash 10am-8pm) are a bit silly as outside of school holidays you aren't going to have a beach that is pumping at 1pm on a Wednesday afternoon. Kids would still be in school and people would still be at work. If you wanted to enforce a lockout time where dogs should be on a leash it should be more aligned with busy periods rather than an arbitrary date and time. |

| Current Rules | Can live with it | I appreciate that there is an off-leash zone for dogs all year round. This would be an improvement on the current rules. Dogs don't care if it is 10:01 and they don't understand that today is now a part of daylight savings. As long as they are under effective control I believe that off-leash should be allowed and I appreciate the inclusion of this zone. I don't think that the red zones would be respected if they were implemented, and I think it would be hard to enforce. Not to mention it would be really cumbersome to go off leash, to on leash to walk under and through the jetty zone. |

| Concepts: How do you feel about... | | Lived in North Haven for a couple of years, regularly dogs off leash run at us at North Haven beach, clearly not under control by their owners. We have a young daughter who is quite scared of big dogs jumping at her, this is a constant fear it will happen at the beach, we have to be wary when dogs run towards us when she is at the beach. Dog exclusion areas are needed, and the enforcement of dogs on leash too. We witnessed recently 2 big dogs running wild at the beach, in the water where people were having a bit of a swim and paddle boards; they fell of their boards when the dogs arrived. The owner was not controlling his dogs as he was far behind in the sand whilst his 2 big dogs were in the water. We like dogs but they need to be under the control in public spaces. |

| | Daylight Savings Rules | Can live with them | If at any time there is a family on the beach in the time prior to 10am or after 8pm I place my dog on a leash. But for all the time I've walked my dog (over 15 years) during the time prior to 10am I've never seen hardly anyone on the beach without a dog. Like this morning, lovely sunny morning and there was probably 6 people on the beach, mostly with dogs. Unless it's very hot people generally do not go to the beach before 10,11 or 12 o'clock. I'd leave the laws the way they are. That's my suggestion. Cheers Zane |

| | Concepts: How do you feel about... | | Walk daily at various times on North Haven Beach with my elderly husband. We are fed up with wet dogs running up and jumping on us. Dirtying and on a recent occasion having my top ripped. My husband has been bitten. Owners nowhere near the dog. My other gripe is people can't see where their dog has done its business, therefore don't pick it up. There are also incidents where they just dump the full poo bag on the beach. We called one man out over this, he said he'd pick it up later, then left the beach. I like dogs, so does my husband, but they must be on leashes, preferably at all times. Short leashes, not the long ones. | |

| Concepts: How do you feel about... | | <p>We walk from our address to the beach and we are able to walk with her off the lead. However depending on the time of day/season we then have to put her on the lead on an area where we should be able to play.</p> <p>I understand that there are different standards of training among dog owners, but feel having to put a dog on a lead if you're walking within a certain proximity of a jetty isn't appropriate. Realistically, will the rules really be followed by irresponsible owners? Where as well trained dogs wouldn't need the rule. Not being native to Australia, I see dogs are less socialised here and therefore aren't as well behaved. This will only worsen the more restrictions being implemented as dogs aren't able to learn from a young age about their environment/behaviour around people/dogs.</p> |

| Concepts: How do you feel about... | | My family and friends have walked our dogs on weekends at Semaphore Beach for +7 years. Dog owners are regular people who come to the beach for all seasons, including in Winter. There are many dog owners who walk thier Dogs regularly. It such a lovely community. I don't understand why you want to destroy this! If the beach is not dog friendly by have to be on leash, THERE IS NO REASON FOR US TO GO BACK THERE AGAIN EVER! Thank you for listening to our voice and we hope the right decision will be made. |
| Daylight Savings Rules | Can live with them | |
| Off-leash (all times) | Love them | |
| On-leash (all times) | Loathe them | |

| Concepts: How do you feel about... | | <p>Dogs should be under effective control at all times. During summer daylight saving hours dogs should be leashed 10am to 8pm, as these are the busiest times.</p> <p>Better patrolling during summer and ensuring people understand the rules, and good dog etiquette would be a much wiser use of time and money.</p> <p>I like dogs very much - but am also scared of large, aggressive, unleashed dogs at any time of the year, whose owners are not in control. Where are the patrols for these dog owners, whose poor behaviours ruin it for everyone?</p> |

| Concepts: How do you feel about... | | The current rules make sense. A fair balance for everyone. As a frequent visitor to the beach on the regular dog walks during the allotted daylight savings period, I have taken numerous photos that we share with our family and friends in Sydney gloating how spacious and deserted the beach is early on by comparison. It is great PAE are progressive to the work life balance in this wonderful open space and the importance on our furry companions that get people of all ages outdoors. After walks there are then the beautiful cafes along Semaphore where everyone and their dogs gather and chat with one another. This current arrangement will ensure the welfare and wellbeing of this lovely community not withstanding the benefits for mental health and fitness. Also beneficial for dogs to have a good run before owners head to work as they relax better and helps reduce fretting. This is a most positive initiative by council to which people appreciate most as a middle ground strategy fair for all |

| Concepts: How do you feel about... | | Beach users, especially in winter, are predominantly dog owners. It seems very unfair to have such harsh rules during summer (daylight savings). I believe it would be more fair to have majority dog friendly areas, and a specific small portion of the beach/area zoned for no dogs. |

| | Concepts: How do you feel about... | | I currently keep my dog on a leash along Semaphore beaches, however I would not like to see off-leash banned anywhere along our beaches. The beauty of living close to the beach is that you can stroll down to take your dog on the beach, I wouldn't want my neighbours to have to drive to another part of the beach to enjoy this. I think there is nothing wrong with the way it is now. |

| <p>Why do we have any restrictions, it is every bodies right to go to a public beach. With that right you also have a personal responsibility to asses the environment you enter. Dog fights can occur, People can also fight, next will we be banning people of certain weights and sizes only allowing certain entry times for the select few people in the event to avoid fights between people?... Dog poo is left on the beaches in some scenarios, everyday I collect rubbish off the beach again will we all now be banned from the beach, no eating drinking between these hours on the sand.</p> | | |

| Concepts: How do you feel about... | | <p>Dogs on lead in Summer between 10am to 8pm is a reasonable compromise in summer especially as most people on beach especially in mornings are dog walkers. Restricting dog walkers to using leads prevents the enjoyment of walking on the beach for both dogs & people. Dogs on leads also tend to be more aggressive. Most beachgoers use the beach after 10am in Summer & the beaches are almost empty in winter. Most dog walkers are responsible for the behaviour of their dogs and the exception penalise the rest.</p> <p>If Semaphore & Largs beaches become restricted to leash only then people will move to other beaches which will impact on the use and safety on those beaches due to increased numbers.</p> <p>The current rules in summer are working and any changes will have a negative impact on dog owners.</p> |

| | Reasons to Visit (reasons don't visit): With my adult friends and family; To walk my dog(s); To exercise; For recreation; To participate in sport (SLS, sailing)() | |
| Concepts: How do you feel about... | | In changing the rules this can make it extremely hard for the dog owner especially if; 1. having a picnic with family and friends around the Jetty's, 2. if you want to go for a walk on the beach near the jetty and have a dog, 3. hard for the children to play with a dog, 4. deciding to walk the dog on the beach between jettys - hard to divert your walk. I am a responsible dog owner, and I want to give the freedom to my dog just like all humans. I understand some people are scared of dogs, why don't we make a fenced off areas for humans to sit in whilst they are enjoying themselves dog free or giving a time limit for cyclists. So the point is why do you want to spend unnecessary money on signage and rules when the rules are sufficient. Osborne I do believe that it should be dog off leash all year round as the beach is full of seaweed. Why waste money when you could put the money into improving Semaphore road. |

| Concepts: How do you feel about... | | <p>Being a responsible dog owner I fully understand that our beaches and parks are to be shared with everyone. I use a lead if the beach or a park is occupied by many people including younger families. I also embrace the idea that when the beach is mostly free of people I like to let my two dogs run without a lead. It lets them explore and exercise. It is a very joyful experience for me as well as them. This is one of the reasons I chose to live in this part of the city. The freedom it offers, but also keeping in mind other people who enjoy the area. In the last 13 years of enjoying this beautiful part of Adelaide I have never witnessed any kind of negative experience with other dogs or my dogs being attacked. My dogs have never been a problem or interfered with other people using the beach or parks.</p> <p>I think the council is trying to over regulate by imposing new rules and excessive restrictions. We have enough of this happening in our daily lives.</p> |

| Dog Owners need to be responsible and know their dogs behaviours etc. I am a dog owner and have no problem with dogs being on leashes in areas and along the beach. I am actually not a fan of off leash dogs on beaches and in large open spaces. Dogs can sometimes be unpredictable and off-leash just is a recipe for disaster for other dogs, owners & the public. | | |

| Concepts: How do you feel about... | | I think the proposals for on and off leash areas are a great idea. the option of a permanent off leash is fantastic. I regularly use the off leash area at Glenelg North. Everyone who goes there knows it is the dog off leash beach and accepts that. It is a well used beach and an additional one in the PAE council area would be a great addition. |

| Current Rules | Can live with it | Option one appears to be the fairest option. The area of beach designated as on leash all year round is probably the worst part of that beach. If anything the SLSC nippers set up to the south of this area so i am unsure what you hope to achieve with option 2. The northern area up to the breakwater has very soft sandy areas. In my experience all of the dog owners using this beach keep their dogs under control and the existing day light saving rules are sufficient |

| Concepts: How do you feel about... | | I often take my two smalls dogs to the Semaphore foreshore quite early on weekend mornings. Given how deep the foreshore is with plenty of room for dog lovers and those not interested in dogs, I've found this to be the best place to let my dogs run around and enjoy the beach, while being respectful of those around us who may not like or fear dogs. I would hate to see this area become on-lease at all times - I often see children behaving less respectfully than many dogs do. Provided that the dogs are adequately under the control of their owners, I see no reason to change the rules currently in place. I often see many other people down at Semaphore for the same reasons, and feel that if the foreshore became an on-lease only area, I and many others certainly would not make the trip down, and I imagine the local cafes would suffer as a result of the high dog-owner traffic. |

| Concepts: How do you feel about... | | Public spaces, especially beaches and foreshaw lawn areas are usually populated by families and children in particular (even during off peak times). Having any dog (regardless how well trained) off leash poses a risk. So more stricter rules during peak busy times needs to occur. Dogs should be kept on leashes on these spaces at all times - I say this as a dog lover and owner. I've lost count how many times unleashed dogs will come running towards my children or small dog whilst walking along the beach. It's a risk and about time owners of dogs were more responsible and not give `they're harmless'. |

| Concepts: How do you feel about... | | The problem is that no matter the "rules" people with dogs feel entitled to do as they please. Especially people with the problem dogs. Every year, many times, people let their dogs run up to you, and I am terrified of dogs, thinning "its ok, my dog is not going to hurt you". Dogs should be on leash at all times in public places, no exceptions. There are dog parks for them to go to. The beach should be a safe place for everyone. Also, these rules don't get policed. I have never seen a member of council on the beach watching for unruly dogs. I know this is all a bit negative, but bad dog owners ruin it for the good ones. So the only sensible solution is on leash at all times. |

| Daylight Savings Rules | Love them | I am reluctant to vote for on leash areas due to the lack of clarity about the size of the proposed areas around jetties. While i feel it may be reasonable for some area to be on leash, I am concerned that if the larger area ie 500m (and especially if this is each side) is a possibility, this would negatively impact on our beach use. |

| Grassed Foreshore | | GRASSED AREAS SHOULD BE LEFT AS THEY ARE FOR THE BENEFIT OF ELDERLY AND THOSE WITH MOBILITY AND DISABILITY ISSUES WHO MAY NOT BE ABLE TO ACCESS/USE THE BEACH TO EXERCISE THEIR DOGS. ANY RESTRICTIONS IN THESE AREAS COULD HAVE AN ADVERSE EFFECT ON LOCAL BUSINESS AS PEOPLE WILL CHOOSE OTHER AREAS TO EXERCISE THEIR DOGS AND NOT RETURN TO THESE RED ZONE AREAS TO SUPPORT LOCAL BUSINESSES. |
| Current Rules | Love it | |
| On-leash around jetties | Loathe it | |
| North Haven | | OPTION 2: RED ZONE FOR NORTH HAVEN BEACH IS NOT APPROPRIATE BECAUSE IT IS SUCH A SMALL BEACH AND UNNECESSARY DUE TO THE SMALL AMOUNT OF DOG RELATED INCIDENTS IN THIS AREA. ACCESS FOR POLICING????? VERY LIMITED ACCESS. EDUCATION AROUND DOG ETIQUETTE AND SAFE BEACH USE WOULD BE MORE APPROPRIATE. |
| Current Rules | Love it | |
| North On-leash | Loathe it | |
| Semaphore South to Breakwater | | ONCE AGAIN RED ZONES ARE INAPPROPRIATE FOR THOSE WITH MOBILITY ISSUES INCLUDING THE ELDERLY. AGAIN NEGATIVE EFFECT ON LOCAL BUSINESSES AS PEOPLE WILL GO ELSEWHERE TO EXERCISE THEIR DOGS. AS A LOCAL BUSINESS OWNER I AM OPPOSED TO ANY CHANGES TO THE CURRENT BY-LAWS. THE PROPOSED GREEN ZONE HAS NO DISABILITY ACCESS AND LIMITED FACILITIES LIKE TOILETS AND RUBBISH BINS WHICH ARE A LONG WAY FROM THE BEACH. UNIFORM DOG LAWS ALONG OUR COAST LINE IS HELPFUL FOR THE WIDER COMMUNITY WHEN VISITING FROM OUTSIDE THE LOCAL AREA. HOW PEOPLE WITH DOGS USE THE BEACH IS MORE IMPORTANT THAN WHEN, THEREFORE EDUCATION FOR DOG OWNERS RE: DOG ETIQUETTE AND SAFE BEACH USE WOULD BE A MORE POSITIVE APPROACH AND A BETTER USE OF RATE PAYERS MONEY. POLICING OF THE PROPOSED RED ZONE DURING THE WINTER MONTHS IS A WASTE OF MONEY AND TIME WITH THE MAJORITY OF BEACH USERS BEING DOG OWNERS EXERCISING THEIR DOGS RATHER THAN BEACH GOERS USING THE BEACH. |

| | Concepts: How do you feel about... | | As a Hooded Plover volunteer within the Fleurieu Peninsula, I wish to represent the information that these vulnerable beach nesting birds are tending to nest further north than more recently. The more southern beach councils have introduced better regulations to protect these birds from predators, dogs being a major concern. I therefore ask you to seriously consider regulations that require dogs to be leashes within 100m of any roped area that identifies the presence of a Hooded Plover nest, and working in conjunction with Birdlife Australia teams to administer such. |

I am a dog owner and dog lover but know that not every dog is trained or well behaved. We all run the risk of dog fights dog attacks and people being confronted with dogs they are terrified of which can all be eliminated by enforcing a dog on leash 24/7 rule everywhere except dog parks

Dogs need to be controlled at all times to provide community safety everywhere

As mentioned previously, community safety is paramount so I believe there should be no off leash areas or times except at dog parks

Dogs require control at all times

| Concepts: How do you feel about... | | I think the beach is a great place for dogs! I also think that they need to be on leashes between the hours of 10am to 8pm. There are people who are afraid of dogs and do not want dogs coming up to them. I find when I walk my dog (on the leash) that dogs often come up to us and I do not know who or where their owner is. I think the most responsible thing is to have them on leashes from 10am to 8pm to keep everyone safe. Thank you |

| Concepts: How do you feel about... | | Have been badly bitten by a stranger's dog and can't enjoy outdoor activities when dogs are off leash. Also have a small granddaughter that I love to take to the beach who has been knocked over by playful dogs of leash. We just want to enjoy the out doors without having dogs run at us. Even with the rules we find often people have their dogs off leash and say don't worry he's friendly as a dog runs up to us. The do's that bit me was friendly till he wasn't and the dogs that knocked my granddaughter over was friendly just playing but she is small. |

| Grassed Foreshore | | There are dog parks where dogs can be off leash for people who don't have yards. I do love animals but people have to come first and is all good to say 'have the dogs under control ' but most people don't, if they did these dogs wouldn't be running up to people. Whatever rules are in place you have to have adequate monitoring and penalties being issued, as even now there are too many not obeying them. |

| Concepts: How do you feel about... | | we need more dog inspectors to catch people letting their dogs shit everywhere. i love how there are free dog bags all along the beach but some people just dont use them. if dogs were made to be on the 2 meter leash then the owners would see them shit and hopefully clean it up. i know of some owners who take their dog for a walk and then as soon as it shits turn around and go home. i live in a street by the beach where owners come from the inner suburb and we constantly get dog shits out the front of our house and neighbours houses. its not the dogs fault but the lazy disrespectful owners who wont pick up after their pet and we are not just talking about the old lady or old bloke who think they are too old to pick up their dogs shit, but also the younger people who think that its grose to pick their dogs shit. if the dog is off the lead then the owner makes out they dont see the dog having a shit or they genuinely dont see it so then its there for someone to step in it |

| | Current Rules | Dislike it | Why haven't you turned NH beach into a full time dog park? It's away from all other beaches. It's normally full of seaweed and next to giant tankers. Not attractive. Used by locals as a dog beach anyway. There are no full time dog beaches this side of the city so you'd have pollution from across Adelaide coming to a beach, which increases revenue. And all the other beaches don't have to allow dogs, because then dogs have their own beach. People who can't be bothered to train their dogs off-leash can put them on leashes like responsible adults. It's pretty bloody simple. Make North Haven the designated dog beach. It's obvious. |

| Concepts: How do you feel about... | | There are not enough "dog parks" around for dogs to run unhindered as they can at the beach. If there were areas where dogs could run at the beach off leash at anytime there would be less issues. I believe that each council should have a beach set aside for dogs to run off leash at any time (remembering that most dogs won't be there when it's hot as their paws will burn). |

| Dog ownership: Yes | Relationship with dogs: I love dogs | |
| | Reasons to Visit (reasons don't visit): To walk my dog(s); To exercise; For recreation() | |
| Concepts: How do you feel about... | | <p>Beaches are such a great space for dogs to exercise. In summer it provides a healthy way to cool our dog down on hot days. Our dog loves chasing her ball and jumping in the water, she doesn't really pay attention to anything else but her ball. She's good on recall and if we see other dogs getting close to her we make sure they interact safely.</p> <p>I had more inconvenience with noisy kids and teenagers when sitting on the beach than with dogs. Often people with dogs are focused on their dogs, more so than people with kids. So I'm all for dogs having access to pae beaches at all time. Dog owners often keep their dogs on lead when going through crowded areas and only let them off lead in areas where less people are sitting, it's just common sense. There are only very few disrespectful dog owners who leave waste behind or don't control their dogs so punishing the responsible ones by forbidding them access to the beaches isn't fair at all, when there are so very few dog parks in Pae.</p> <p>If beaches and grassy areas are only on lead areas, I might as well not take my dog at all, she's so excited and happy to run around grassed reserves that being on lead only would be cruel.</p> <p>Too small a space if going option 2.</p> <p>Also walking with dogs on the beach as a human when space is so small is boring, often people go to the beach to walk their dogs on long walks along the shore, good for both dogs and human health.</p> <p>Some days there are lots of people around jetty and some other days there aren't, dog owners know that on busy days they must keep their dogs on lead when walking through crowded areas and only let them off lead when away from crowded areas. On less busy days, they can just let their dogs run near the jetty. It's cruel to dogs to have the area on lead at all time.</p> |

| Concepts: How do you feel about... | | I understand that down areas require dogs to be on leash and that some areas are better suited for dogs off leash. Obviously, we'd love to be able to take our dog off leash at other times but we can live with the restrictions, especially since we don't have many places left or take our dog since the council allowed Port Adelaide Football club to take away our local dog park. |

| Concepts: How do you feel about... | | <p>Daylight Savings - 1 Oct; commences 10 weeks before school holidays start! The beach during the week (Mon-Fri) is not busy enough to force dog owners to lease on the beach! Usually the weather is still cold and the beach is deserted yet the dogs have to be leashed. I understand that we have to comply on the weekend as it can get busier.</p> <p>Off leash areas (parks) - the green reserve/park area adjacent to the Semaphore jetty is a non-leash area all times yet this can have a significant number of picnickers as those around the jetty on the beach! Not sure what the difference is as both have the same potential nuisance factor with a dog off leash!</p> |

| Concepts: How do you feel about... | | <p>Just because people fear dogs or are uncomfortable around them IS NOT reason to ban or restrict responsible off lead dog owners. FEAR ISN'T reasonable and its unreasonable to base regulations and restrictions BASED on fear. Dogs aren't harming people at north haven beach. they are doing what healthy dogs and dog owners are supposed to be doing - swimming, exercising, playing and using energy in healthy ways. Base your restrictions on FACTS not FEARS. the majority of people using north haven are responsible local dog owners who want their beach to be a happy play space for thier family. STOP bowing to a vocal minority who want OTHER people restricted to coddle THIER unrealised fears. regulation and law is supposed to be based in reality, not fictional 'what if's"</p> |

| North Haven | | |
| Current Rules | Dislike it | <p>north haven is a perfect place for a permanant off-leash dog beach year round. the beach doesn't touch other beaches, it isn't a pretty beach, it's normally covered with seaweed. the only people going there are locals with dogs anyway. North haven beach is next to industrial and shipping areas not exactly a tourist destination. there is a minority of the people who have to have on lead dogs because they haven't taken the time and effort to train thier dogs. - those are often the vocal and abusive minority who try to demand all dogs are restricted because they won't take the responsibility to socialise and train thier pets. these people irrationally expect others be restricted to make up for thier laziness. those with well socialised and trained off-leash dogs should not be restricted based on other peoples fears. fears are NOT rational. laws are supposed to be. make north haven off lead all year round. it solves the issues.</p> |

| Current Rules | Can live with it | I think the distance for on leash around jetties should be no more than 200 meters. |
| On-leash around jetties | Can live with it | In regards to daylight saving times, I think at the beginning of daylight saving you should be allow the dogs to be on lead from 10am to 6:30/7pm. At least this will allow people who work late a chance to let there dogs off leash from 6:30/7pm whilst it is still light. Once the daylight hours start getting longer then it can revert back to on leash till 8pm, as it will still be light after 8pm. |
| On-leash around jetties, north off-leash | Love it | |
| In regards to option 3, an off-leash area all year round I am strongly in favour of this and am happy with the suggested area where this can occur. Perhaps extending it to be a distance of 2kms, instead of 1.8kms, would be good. Then it's an easy distance to measure out. Makes for a nice 4km walk/run up and back for the dogs and owners. Thank you | | |

| Concepts: How do you feel about... | | <p>I am born and raised in Largs and for pretty well my entire 26 years I have walked my dog/s on the beach every morning off lead with nil issues.</p> <p>The proposed changes o the rules, specifically semaphore to breakwater regarding the on lead around each jetty, would logistically be a nightmare and doesn't seem to be necessary.</p> <p>For anyone who lives in the area and visits the beach often you would notice that for a majority of the year the only people on the beach in the morning or anytime are dog walkers, and punishing the people that use and love the beach the most seems ridiculous. Considering the summer months in weekend and holidays- when the beach has the most visitors these areas before 10am still mostly consist of dog walkers, considering most beach goers are aware of the rules and plan their day accordingly if they're afraid of dogs. As for children, I have 3 children in my family under the age of 4 and the current rules have not nor can I anticipate them being an issue. Option 1</p> |

| Concepts: How do you feel about... | | Daylight savings rules, I walk my dog every morning and sometimes afternoons if work permits, rain, hail or shine. During winter it is very rare to see anyone on the beach that is not giving their dogs the daily exercise they need. I actually don't understand why and how this current rule doesn't work. Having a well socialised dog makes for a healthier community, it enables both dog and owner to socialise in a positive environment. My dog loves the freedom of being able to swim and run it sets him up as it does for myself to be regulated for the day ahead. I have tried a dog park three times and on all three occasions, my dog was attacked and I felt threatened. Not once have we felt that on the beach, not once. Having access to the beach for my dog is my main reason for buying my house in Semaphore 23 years ago. |

| | Reasons to Visit (reasons don't visit): With my adult friends and family; To walk my dog(s); To exercise; For recreation() | |
| Concepts: How do you feel about... | | <p>Daylight savings rules really can limit the pleasure we can have when we come to the beach. We have to rush to be there early, and then the dogs become restless when we we have to put the leash on at 10am. We are essentially forced to leave. We can live with it, but its frustrating and annoying. The beach in winter isn't really a destination with family or friends - its too cold - so its really only for a bit of personal exercise and fresh-air with the dogs. Dog off leash areas at all times is great. Gives the freedom for those with dogs. They are our family and deserve that right as well. They will still be limited by where this freedom is provided, but at least there are limited places this should be available. Taking dogs on and off a leash for a short period (eg. around a jetty) should be avoided. It can be all sorts of a hassle and upsets the dogs and families with them. Complete dog exclusion areas seem a bit extreme. If the dog is on a leash that should suffice.</p> <p>If walking along the off grassed foreshore with my dogs off-leash, it would be painful to have to put them on-leash for just a short period (eg. 200-300m) just to get through one area. Even off-leash dogs it is requiried that dogs are to be under effective control which should be enough. If dogs aren't under effective control then they shouldn't be off-leash anyhow. If option 2 does unfortunately pass - on-leash designated areas - then PAE council will also have to provide very clear and numerous markings and sign-postings across the grassed foreshore, especially when crossing into and out of the off-leash area.</p> <p>This is not as bad as the other stretches in this survey whereby you cross into and out of designated on-leash areas. At least with this its one end of the beach - although a very significant chunk! The current daylight savings rules work well and provide families and those with dogs some, already limited, freedoms. A change to Option 2 would just be further restricting the enjoyment we get from visiting the beach area - whether with or without our dogs (yes, we sometimes visit without our dogs but love seeing the other dogs enjoying themselves and running around cheerfully).</p> <p>I would have actually liked to see the option to expand the freedom for dogs rather than options that restrict them even further.</p> <p>No matter what however, the on-leash restrictions around jetties are a bad idea. When someone goes to the beach with their dogs they walk up and down, they don't just stay in the one spot. So they'll end up constantly being frustrated in having to get the leash out, crouch down, put it on their dogs (and many have more than one dog), then a few hundred metres later have to take it off their dog.</p> <p>The above process is frustrating and annoying for dog-owners, but also very confusing for the dogs themselves. Considering how frustrating and annoying it would end up being, I'm sure many will flout the rules and not bother as well - which itself will cause many extra, probably unforeseen issues.</p> |

| Concepts: How do you feel about... | | <p>I have dogs and young kids. I have a balanced view of beach usage because i love to exercise my dogs freely but also like my children to be able play in the sand without the threat of a dog bowling them over. The current rules enable balanced beach usage.</p> <p>I want to support on-leashed areas around jetties but up to 500m is grossly over the top, not to mention the lack of certainty around the on-leash area is misleading! (The interactive map indicates no more than 200m on-leash zone).</p> <p>Off leash at all times would have an adverse effect in my view. The beach would become known around adelaide as the 'dog beach' and would attract high numbers of dogs and dog groups increasing the likelihood of conflict and attacks.</p> <p>I feel that dogs on leash is as good as an 'exclusion area'. if dogs are leashed and controlled then there is no need to exclude them altogether from public places. it's not a national park!</p> |
| Daylight Savings Rules | Love them | |
| Off-leash (all times) | Can live with them | |

| Grassed Foreshore | | <p>Personally I don't like dogs off leash on the foreshore reserves at all. But most people are responsible in these areas and I haven't personally seen dogs running freely around families. This is a recreation area, people play, picnic and this should be the priority in foreshore area without dogs running around. I support the proposed on leash areas.</p> |
| Current Rules | Loathe it | |
| On-leash around jetties | Love it | |
| North Haven | | |
| Current Rules | | |
| North On-leash | | |
| Semaphore South to Breakwater | | <p>Option 1 - Preferred</p> <p>Option 2 - I would like to favour this option because I believe children should be able to play without interference (even friendly, playful dogs can cause damage). Unfortunately the misleading info & lack of clarity around this option has spoiled it. Why am I being asked to select an option that does not have a defined zone? 150-500m is too broad. With 500m each side, may as well make semaphore to largs jetty an on-leash zone. And that is not what the map indicates. I feel a sense of deception by this option, even though, in principle, it has the most merit.</p> <p>3) Strongly against option 3 for the following reasons:</p> <p>a) word will spread quickly about a dog beach through dog group grapevine & the general marketing reach of this campaign . It will attract greater no. of dogs, increase likelihood of conflict, attacks & irresponsible behaviours. (ie not picking up poops)</p> <p>2) The people who will be most affected (future residents of Fort largs) will not have a say.</p> |

| | Reasons to Visit (reasons don't visit): To walk my dog(s); With my adult friends and family; To exercise; For recreation() | |
| Concepts: How do you feel about... | | Off leash dogs are often not under the owners control. When my dog has been on lead, other dogs have come up and attacked her. I have also been jumped on by other dogs. This has happened in both on and off leash dog areas, and it appears there is no policing or reinforcing of rules. It makes public areas unsafe, and people seem to lack awareness that others do not want their dog coming up to them. |

| Concepts: How do you feel about... | | Dog exclusion areas: exclusion areas are unfair and restrictive. Everyone should be allowed to have equal access to the foreshore and beach. While it is reasonable to expect dogs to be on lead at busy times there is no reason why they should be excluded from certain areas. I doubt the council would support child exclusion areas or provide areas where only dogs and their owners are allowed. Promoting responsible behaviour, educating the general public about how to behave around dogs and ensuring dog owners act responsibly would ensure that everyone can enjoy our beautiful beaches. |

| Grassed Foreshore | | As per my response from the previous page, I feel that rules which apply at all times do not correspond to the varying levels of business in the areas. while I agree that dogs may need to be managed over the summer months, these places are largely deserted over winter and the restrictions are overkill. |
| Current Rules | Like it | |
| On-leash around jetties | Dislike it | |
| North Haven | | |
| Current Rules | | |
| North On-leash | | |
| Semaphore South to Breakwater | | for the beach I feel that current rules are appropriate. I have noticed issues that arose from the interaction from dogs and beach visitors, however these were consistently caused by dogs that were off leash during times when they should have been on leash. In my opinion, the daylight saving rules correspond in a great way to the changing business of these areas without disadvantaging either interest group. I do not think that it would be a good idea to designate an area to be used as a permanent "dog beach". Reasons for that is that this would be a disadvantage to people who would prefer to use this quiet part of the beach to relax over the busy times of the years. Overall, I support a solution which focusses on a co-existence of dog owners and non dog owners without excluding (actively or passively) either group. |

| | Concepts: How do you feel about... | | For over 18 Years I have walked the beach with up to 3 dogs that never bothered or harmed or annoyed anyone. If someone looked annoyed, we would leash or move our dogs away with treats. In summer I don't want to walk dogs when too hot but also waiting for 8 o'clock to walk them is a bit late. I also try to follow tides so we can have a good amount of beach to walk on. This may take us over daylight savings 10am off lead time. |

| | Reasons to Visit (reasons don't visit): To walk my dog(s); To exercise() | |
| Concepts: How do you feel about... | | Certain areas should be restricted to only dogs on leash, grassed areas, under and near jetties. If there is no person within 100 metres of you on the beach, you should be able to have your dog off leash at any time. |
| Daylight Savings Rules | Can live with them | |
| Off-leash (all times) | Love them | |
| On-leash (all times) | Can live with them | |
| Exclusion (all times) | Can live with them | |
| Grassed Foreshore | | In areas just around jetties, say 50 metres either side and on grassed areas near the jetty and shops, I think it is far enough to expect your dog to be on a leash at all times. However in other areas such as the beach away from jetties you should be able to let your dog off leash so it can run around and exercise. The current day light saving rules are ok, however if there is no one else on the beach or within say 50 -100 metres of you and your dog, you should be able to let him off leash at all times. |

| Concepts: How do you feel about... | | I think dog exclusion areas are a bit much when referring to our open spaces, such as the beaches and reserves. Similarly, the on leash at all times rule seems very harsh particularly when areas are deserted. I can understand having dogs on-leash when other people are around, but when a beach is empty then I feel having a dog under effective control should be all that is necessary. |
| Daylight Savings Rules | Can live with them | |
| Off-leash (all times) | Like them | |
| On-leash (all times) | Dislike them | |
| Exclusion (all times) | Loathe them | |
| Grassed Foreshore | | Designated zoning of off and on-leash areas of the foreshore becomes too confusing. I feel that my enjoyment of the foreshore area would be diminished significantly as I would be constantly concerned about checking which area I was in and if I happened to set up a picnic in the on-leash area then juggling managing keeping my dogs on a leash whilst trying to enjoy a picnic. Normally all they do is sit with me, but when on a lead they think they are about to go for a walk and so get restless and anxious and start pulling. It would result in me not bothering to visit the beach with my dogs which would be a shame as the beach is a reason I chose to live in this area. |
| Current Rules | Love it | |
| On-leash around jetties | Loathe it | |
| North Haven | | I find the daylight savings rules consistent and easy to follow. I would find it difficult to have different rules applying to different sections of the beach. I could easily see me getting it wrong, possibly experiencing unpleasant interactions or being fined for unwittingly entering the on-leash zone at all times. I expect that this would stop me from using the beach all together as I would want to avoid such situations. This would be disappointing as being close to the beach was a big reason for me choosing to live in this council area. I find walking the beach with my dogs aids my mental health and so I do it regularly throughout the year. If these restrictions were to be brought in I fear it would affect my anxiety and consequently my depression as I would be anxious about being in the wrong section with my dogs off-leash and so would not be able to use the beach as an outlet to de-stress. |
| Current Rules | Love it | |
| North On-leash | Loathe it | |
| Semaphore South to Breakwater | | The current daylight savings rules are easy to follow and I find I can walk my dogs freely down the beach without the anxiety of having to make sure they don't venture into an on-leash zone. Although, in ways, I do like the idea of a permanent off-leash zone at the Taperoo end of the beach, I am not willing to sacrifice being mentally free of the burden of knowing which areas are on-leash and which are off-leash. I would much rather keep the rules as they are as they are easy to follow and provide a balance for both dog owners and non-dog owners to happily enjoy the beach and its surrounds. My dogs love to swim and it is hard to take them for an evening swim outside of daylight savings restrictions. However, I'd rather follow the restrictions and grab the fleeting twilight for my dogs to have an off-leash swim, than be burdened with the stress of potential dog attacks from uncontrolled dogs in a permanent off-leash area (prior experience) or by my dogs straying into an on-leash area. |

| <p>I would like to think I approach this topic with a fair point of view. I do understand that without any rules, then irresponsible dog owners may take advantage and make things unsafe for people and other dogs.</p> <p>I don't like the concept of making only the northern beaches off-leash. This is unfair and inconvenient for many responsible dog owners. Off-leash rules on all of our beaches in appropriate times is fantastic. You only have to spend time on the beaches in these times to see how beneficial it is to the dogs and how responsible the dog owners who frequent during those times are. Off-leash periods really are a special time to be on our beaches - all of them! I see so many more big problems and environmental issues from people on our beaches that don't involves dogs - extensive littering, free camping, unsafe use of jet skis etc.</p> | | |

| Concepts: How do you feel about... | | One thing the 3 options does not cater for are people who walk dogs to the beach and home again, it is presumed people travel to the beach by car. option 3 is out of reach for people who walk to beach with dogs who live closer to semaphore. An off leash at all times area is required at more reasonable intervals all along the foreshore, also during school term the beach is all but deserted except by people with dogs, we are being denied access to those areas when they aren't even in use |

| North Haven | | |
| Current Rules | | |
| North On-leash | | |
| Semaphore South to Breakwater | | These options are useless, there are people out here who cannot get to the proposed off leash all year area, neither does the daylight savings rule help if you are unable to get to the beach before 10am or after 8pm. We need off leash hours extended eg before 11am after 6pm or off leash at all times at more accessible areas at semaphore, largs bay, most people and people with kids cling to the jetty areas the huge space between is empty off leash areas should be allowed at the centre point between the jetties at all times of year with on leash near jetties |

| | Reasons to Visit (reasons don't visit): To walk my dog(s); To exercise; For recreation() | |
| Concepts: How do you feel about... | | <p>I understand why the council is thinking about changing the rules for dogs in order to make it fair for all, however with the new plans it looks like you are now forcing more dogs into a smaller area and for people who has a dog that is reactive towards other dogs (she has major anxiety issues, ex-rescue dog), it then makes it hard to take her down to the beach, which she absolutely loves, and not come into contact with other dogs. At the moment I try to keep as far away from other dogs as I can.</p> <p>The rules may state that dogs have to be under control however it seems that on a regular basis when at the beach I have had to ask other owners to call their dog back as it has come running over to my dog even though she is on the lead and they can see I am trying to keep her away from their dog.</p> <p>Going forward we might no longer be able to go to the beach and therefore she is the one who is going to suffer because of the new rules you are thinking about implementing.</p> |

| Concepts: How do you feel about... | | The current daylight savings dog on-leash hours are OK. They provide a necessary level of protection to some heavy traffic areas that may require a level of dog control (depending on the dog and the citizens). I'd rather continue this policy and have dog off lead zones as well, not have permanent on-leash dog zones. It's unnecessary given the number of people on the beach most days and nights. For local residents who want to walk their dog (and there's heaps of them), and that do it everyday should be permitted to do so freely. We can take responsibility for ourselves and our pets and don't need excessive control |

| Concepts: How do you feel about... | | Responding on behalf of the North Haven SLSC Board of Management. Consultation with our BoM and lifesavers has provided overwhelming feedback that for North Haven beach - we request the rules remain UNCHANGED. Supporting reasons are: Unpredictable seagrass formation up/down the beach - may necessitate Nippers and Patrol Flag area being located in off-leash area. This is not kind to dog owners nor safe for Nippers and our Patrolling Lifesavers if responding to a rescue in a vehicle. Just last weekend we nearly collided with a dog off leach whilst in our 4WD. Patrol hours are 11-5pm Saturday and 1pm-5pm Sunday (occasionally til 6pm in Dec/Jan). Based on current rules - there is no conflict between Nippers, Lifesavers, 4WD and dogs during our patrols as we patrol whilst DST is in effect. Whilst Option 2 may look good - we can't control how the beach forms and feel by adding an offleash area we are placing our 5-13 yr old Nippers at risk if we need to position near the Northern Breakwater. |

| Concepts: How do you feel about... | | We have been responsible dog owners with a large breed dog for more than 20 years. We moved to Semaphore in 2021 partly due to the sensible access to the beaches. We adhere to the daylight savings rules and recognise that during the busy summer season it is a delicate balance to have amenity for non-dog families and also dog families. In our experience the local dog owning community is both responsible and community-minded, leaving the beach in a clean condition and also being mindful of the behaviour of our dogs. In non-busy periods, the only people using the beach is generally dog walkers. It is a very social community that connects and supports one another in different ways. It is the only point of social contact for some. Having this resource means that dogs are well socialised and get their daily exercise needs. We encourage the council to leave the rules as they are. Thank you for your consideration. |

| Grassed Foreshore | | My experience of this space is that it is currently working well - there seems no reason to change it and introduce the complications of differently designated zones. As mentioned previously there is a strong social component to dog walking and this should be a valued component of local planning. It is for the dogs and for the humans too! |
| Current Rules | Love it | |
| On-leash around jetties | Dislike it | |
| North Haven | | The current situation is working well |
| Current Rules | Love it | |
| North On-leash | Dislike it | |
| Semaphore South to Breakwater | | The current arrangements are working well for dogs and families - indeed it is one of the reasons that we moved to Semaphore. It is a defining feature of the Semaphore community that we value the benefits of well socialised and well exercised dogs as well as the physical benefits and social contact that dog walking brings for their humans. Let's hold on to this wonderful aspect of our community. |

| Concepts: How do you feel about... | | <p>I feel so disappointed with the options. I've been attacked twice by dogs on Semaphore Beach on morning runs, and a few years ago my son was attacked when we went for a dusk swim. From what I understand, the best outcome I can hope for is the status quo? Everywhere else I've lived in Australia, dogs are completely banned from beaches 24/7, 365 (except for specific dedicated isolated dog walking beaches). This is the only outcome that makes sense and puts humans first. Has the working group researched other jurisdictions? Or received legal advice on the liability and danger of allowing leash free dogs to roam about attacking beach-going ratepayers in the mornings and evenings? Please allocate some faraway stretches of beach like north haven for the dogs, and leave the rest of the beach for humans to enjoy free from dog attacks.</p> |

| Concepts: How do you feel about... | | I have been attacked by 2 dogs before and I am highly anxious around dogs - they pick up on this and always come to me. It means I cant visit the beach in the morning. I would love to walk along the beach at 7am but I can't. I only go on the weekend during summer when my partner is also there to protect me. I would hate for my kids to have gone through what I went through. I would like to see areas of the beach where no dogs are allowed - or at least they are on a leash. It will be hard to police as already during the day at Semaphore beach there are dogs off leash there. I like dogs, I am just petrified of them and I understand that people love their dogs but we have to put children and humans first. |

| Grassed Foreshore | | I like the proposed on leash areas, however I think it becomes problematic in less busy times. I.e. during summer, or if there is an event on, absolutely these areas should be on lead. However in winter, mid-week, when there is no event, there if no reason to enforce on-lead for these areas. |
| Current Rules | Like it | |
| On-leash around jetties | Can live with it | |
| North Haven | | I have used the proposed On-Lead area multiple times with reactive dogs because it is minimally attended by other people or dogs. In my friends words it's the 'ugly end where no one goes'. Having this taken away would be a real blow. |
| Current Rules | Like it | |
| North On-leash | Dislike it | |
| Semaphore South to Breakwater | | Current set up is good, but I can understand the concern. Love Option 3 as a fair exchange between making safe spaces for people who do not like dogs, and giving space for dogs. Only concern is enforcement, in two parts. Firstly, it's hard to eyeball 500m, and no one should be penalised for leashing up 50m late / unleashing early. Secondly, my dog doesnt approach people, and I'll be leashing up. The people who cannot control their dog to prevent them harrassing families are the same people that won't leash up. The sentiment is good, but it will take constant policing to have an impact. |

| Concepts: How do you feel about... | | I have been approached many times by dogs unleashed on the beach, with the owners allowing their dog to approach myself and my children. The owners are often f miles away, as their dogs are allowed to run freely on the beach. The dogs are too far to hear their owners commands, or the owners simply have no control over the dogs. I have been nipped at, and jumped on many times by out of control wet sandy dogs, my kids have been jumped on by 'friendly' dogs, and scratched and nearly pulled under the water by dogs swimming in the water. Also the amount of dog poo (much of it bagged and dumped) on the beach is revolting, check out the state of the track to the beach at Osborne, I counted more than 20 piles of dog poo on the path alone. I am a dog owner, I love dogs, but I but despise off-leash times at the beach. Many dog walkers feel their dogs have more right to enjoy the beach than the people! |

| Concepts: How do you feel about... | | Option 1 is the only option that is reasonable and fair to EVERYONE. During winter dog walkers are the only people who use the beach so not having this freely available to us would be a gross injustice. The city planning doesn't not take into account enough green spaces for the amount of households with dogs, and the little (small areas and few of) green spaces we have not suitable for off leash dogs because children frequent these spaces and they're often not fenced in. So taking away or restricting access to the ONE place dog owners have where there's enough space to walk dogs safety (for dogs and people) is disgusting. People who do not like dogs have so many other options to choose from (ie going between 10am-8pm or walking on paths where dogs need to be on leash). Dog walkers are already limited enough. Please don't take away such a valuable resource to dog owners that help us maintain happy and healthy dogs. |

| Concepts: How do you feel about... | | The vast majority of people do the right thing and only let friendly, well behaved dogs off lead- usually putting them back on lead when approaching other dogs or people, regardless of the rules about off lead being ok. People who don't obey the existing rules and/or have badly behaved dogs are clearly bad owners. The existing rules don't need to be changed. They just need to be enforced so that people who don't or won't do the right thing get caught and fined. Don't penalise the majority because a small minority who don't obey the rules now still won't obey them if they change. Making half of North Haven beach an exclusion zone just concentrates dogs into a smaller area which probably will cause problems. The beach is rarely ever crowded and most dog owners are already considerate of others. |

| Concepts: How do you feel about... | | <p>Current rules are reasonable. No additional new enforcement activity needed.</p> <p>Note many cooler, wetter days when almost no one is on the beach during daylight savings, the rules are utterly useless & stupid....but I can live with the rules because your inspectors are not as stupid as the rules they enforce. Eg. They don't fine people letting dogs run on an empty beach... the rules are not about whether & when dogs should be allowed, but about when & how people can safely and comfortably enjoy the beach without dogs running at them. In that sense the whole survey and situation is ridiculous...though pragmatic</p> <p>Please retain the current rules and methods of enforcement. My rates can be spent better (PAE is usually quite good at spending it's money well)</p> <p>Thanks Kaarina</p> |

| Concepts: How do you feel about... | | <p>The current rules are fair, reasonable and balanced.</p> <p>There are very few people who use the beach before 10am for something other than walking their dog.</p> <p>I regularly walk my dog on the beach before 10am and estimate 95% of people on the beach before 10am are dog walkers.</p> <p>Why would you change it and see the beaches become near empty and under utilised at those warming morning times.</p> <p>As I've said the current rules are fair, reasonable and balanced.</p> <p>The fact that this is even being proposed and discussed (yet again) is moronic and shows the incompetence and stupidity of the PAE council.</p> <p>Surely you can find something better to put your time towards?</p> <p>Leave the rules as is and allow dogs to exercise, socialise and enjoy the beach during hours that they would otherwise be almost completely empty.</p> |

I think the Semaphore South to Breakwater option 1 Daylight savings rules, should have extended off leash hours for dogs
ie Before 11am and after 7pm Dogs should be allowed off leash.

| | Semaphore South to Breakwater | | |
| | Current Rules | Love it | Having to put a dog on and off at different areas of the beach is ridiculous. The dog I walk would not and has not harmed any person or any dog. This options feedback should be a simple vote, not this complicated and designed to confuse. Leave everything as it is. This has been a complete waste of my council rates and could be spent in many better ways. |

| | Reasons to Visit (reasons don't visit): To walk my dog(s); With my young family; With my adult friends and family; To exercise; To participate in environmental activities() | |
| Concepts: How do you feel about... | | Dogs should be allowed on the beach all year round. I can not understand that on days were no single person is on the beach, dogs have to be on lead. Have a look how many people enjoy walking their dogs during the week and the dog has to be on lead despite no one being on the beach? The area north of Largs Bay jetty is so infrequently used by beach visitors. I am happy to keep my dog on lead during day light saving times between 10am and 8 pm south of the Largs jetty but not north.where I live the council has supplied zero dog parks, now you want to restrict me even further from walking my dog on the beach. I have consulted many dog owners and they feel the same way as me about the topic. |

| <p>Every weekend we meet other dog walkers who have come from outside of the council area to walk their dog on the beach. They do this as their weekly ritual and then have breakfast on Semaphore road. Changing the rules for dogs on our beaches just means these people will drive to another 'off leash' beach and spend their money in another council area. Seems ridiculous. In winter, the only people who use the beach are dog walkers. There aren't families frolicking in the wind and rain! During summer, most dog walkers will be off the beach before 10 because it gets too hot for the dogs. Council needs to use a bit of common sense with this proposal. Even with 3 young kids, I can't see how the benefits of changing the rules would outweigh the negatives.</p> | | |

| | Concepts: How do you feel about... | | The current rules work well at PAE beaches and all the other Western suburb beaches so should remain unchanged. They provide a fair balance during the summer and the significant majority of people who use the beaches during the winter are people walking their dogs with no issues. |

| | Grassed Foreshore | | The current rules work well at should remain unchanged. This is a part of local people's public open space to be shared by all. It gives access to elderly people who can not walk on the beach and gives them an area to exercise their dogs. I utilize this area on a daily basis along with a cohort of walkers, cyclists, and joggers. all coexist with no issues. This provides an opportunity for community inclusion for many. |

| Concepts: How do you feel about... | | Feedback relates to dogs off-leash - Utterly irresponsible to have dogs off-leash in a public area. Who will be responsible if someone is mauled on the beach? Yes, it is the owners responsibility for the dog but if this is council-approved some of the blame lies with them. Not to mention dogs are annoying and not everyone wants a strangers dog running up to them and sniffing/licking them or ruining picnics. If they have to be on the beach they should definitely be required to be on a leash at all times. |

| Concepts: How do you feel about... | | I feel some areas ie jetty access, may need on leash to allow those with a dislike of dogs or reactive dog to feel safe. However our dog (good recall) loves the freedom of off leash play. In our many visits to the beach I haven't witnessed any major issues with dogs off leash. It is important that the dogs owners understand and recall their dog around new people arriving and while assessing o t her dogs. |

| Concepts: How do you feel about... | | I understand that the busier beach areas are not always appropriate places to have off-leash dogs. However, there should be designated low-traffic areas where dogs can be off-leash at all times. Shift workers, sporting parents and others may not always have access to dog-off-leash times as currently identified. Residents and visitors know these areas are dog-friendly, and can avoid if they are worried. |

| Current Rules | Love it | The current daylight savings rule work well and are simple for everyone to understand and align with other council rules on other metro beaches. Generally in winter there is no one at the beach, it doesn't seem right for dogs to be on lead if they are the only ones there. Maybe some clearer signage of these rules needs to be put in place for the non regular users of our beaches. |

| | | Reasons to Visit (reasons don't visit): To walk my dog(s)() | |
| | Concepts: How do you feel about... | | I am happy with the current rules for dogs on beaches. I'm down there at 7am all year round, from Largs Bay jetty, heading north. When visiting this area outside daylight saving times there may be one or two non dog walkers at this time. The proposal to have dogs on leads in the designated areas out side daylight saving times is silly as there is no one there so early in the morning. I can only comment on the this area. From Largs Bay heading south to Semaphore is busier, so this may be a different especially around the jetty areas. I like to keep my dogs in the quieter and wider part from Largs heading north. |

| Concepts: How do you feel about... | | Should be an area for dogs to run around on the beach. Too many dog unfriendly places in Adelaide. Pets are like family. They have rights to. BTW was as it so hard to provide feedback..surely you could make it simpler. There needs to be pet friendly places in Valley View as well as the beach. One day I want to buy a dog but need lots of places for the dog to go. |

| Concepts: How do you feel about... | | I like it just the way it is currently, it is the same at all or almost all Adelaide beaches. It makes sense and doesn't unnecessarily restrict dogs from being off-leash when there is often nobody else there anyway, and when there are other people there, it's fine anyway. The only time they should be on leash on the beach and foreshore is peak summer school holidays when it is crowded, but giving the dogs owners until 10am and after 8pm off leash means they have their fair time too. |

| North On-leash | Loathe it | |
| Semaphore South to Breakwater | | <p>The current arrangements of having dogs on-leash between 10am and 8pm through the summer period is a balanced, sensible and pragmatic approach to allowing multiple interest users of the beach have their own period to enjoy the great beaches within PAE.</p> <p>I don't believe the on-leash hours should be confined to daylight light saving however, but more the summer months (1 December to 1 March) as on most weekdays between October and December the beaches are empty during the day (and is a great time to walk the dog on the beach without impacting others). The summer months would cover the school holidays and majority of public holidays.</p> <p>10am to 8pm restrictions could be extended to weekends within daylight saving (ie remain as is for weekends).</p> |

| Concepts: How do you feel about... | | <p>2. The beach gives me and my dog quality of life. We don't get the same enjoyment or exercise at a dog park. I happily travel 35min each way once a week to spend quality time with my dog.</p> <p>3. Most dog owners tend to come early and are off the beach before it gets busy. The 10am restriction gives those of us coming from further way a chance to have sufficient off lead time. In winter, the beaches are much emptier and the vast majority of people are dog walkers.</p> <p>4. A perpetual off lead area would allow dog users like me to make more use of the beach after work when it's too hot to walk elsewhere.</p> <p>5. Dog on-leash areas at all times are important for community members but it would be good not to have on and off leash areas cut off each other. Having to walk through an on-lead area to get to the next off-lead area and vice versa creates issues. Daylight saving rules help avoid those.</p> |

| Semaphore South to Breakwater | | |
| Current Rules | Love it | <p>There are multiple access paths to beach so on lead around jetties doesn't really give clear access. The area is a through area for dog walkers. Dog love sniffing at the jetties and most people with dogs walk past the jetties so on-lead areas cuts the walk and can be awkward if a ball goes further than intended or a dog sees a friend they want to meet.</p> <p>We want our dogs under control as much as non-dog owners do but to train a dog well, they have to be in a situation and that means, like children, there will be times a dog needs reminding about what's expected. The on-lead around jetties rule has the potential to divide the community rather than unite it through intolerance rather than education and training.</p> <p>I think it would be better to keep the on lead area south of the Semaphore kiosk where there is a bird breeding ground and the 24 hour off lead at the other end, with daylight saving rules for the entire area between.</p> |

| Concepts: How do you feel about... | | <p>The current rules for daylight savings are okay, but 10am is late for leashing. Particularly in summer, we want to be down the beach early and then out of the heat of the day. This means sharing with dogs off leash, and many are NOT under effective control. When on the beach prior to 10am, our children (2 and 5) are consistently approached (EVERY TIME) and our stuff is frequently urinated on by dogs.</p> <p>Exclusion areas aren't the answer and unfair to dog owners. If a dog can be on a leash, these seem unnecessary</p> <p>A significant part of the issue is the enforcement. There is a major problem with dogs not generally being under effective control when they should be (always). If dogs were under effective control at all times, I feel like this wouldn't even need to be a conversation. So, unless there is going to be an increase in the Council's investment in time and follow through in ensuring its bylaws are followed, the effectiveness of any model will be questionable.</p> |

| Grassed Foreshore | | <p>I care less about grassed areas, as we don't really use them. However, I think on the grassed areas and pathways, dogs should be on leash at all times and the proposals put forward don't contemplate this.</p> |
| Current Rules | Loathe it | |
| On-leash around jetties | Loathe it | |
| North Haven | | <p>We frequently go to this beach and Option 2 would work well for us. Dislike Option 1, as current rules aren't being followed by dog owners (leashing and effective control), and would like something to change. However, this North Haven beach seems to be better than other section of beaches under review, perhaps because it is quieter?</p> |
| Current Rules | Dislike it | |
| North On-leash | Love it | |
| Semaphore South to Breakwater | | <p>Option 1, status quo, is not working. Within a 30 minute period, 7 dogs came up to our children one day last summer. This was a particularly bad day, but not unusual. Current situation not wroking.</p> <p>Option 2, giving people the option of, before 10am, being in a 500m on leash zone around a jetty, will funnel more people to the already busiest sections of our beaches. Parking is already an issue in these areas.</p> <p>Option 3, there is currently an issue with dogs approaching people and not being under effective control. Option 3 gives greater space in favour of dogs and their owners on our beaches, rather than helping their management in any way. As above, the jetty proposal is also inadequate.</p> <p>Other options: extending daylight saving times (eg 8am-8pm), dividing between jetties in a similar way to the North Haven option 2 proposal, on leash 500m BOTH sides of the jetties.</p> |

| Concepts: How do you feel about... | | Daylight saving times off lead currently have people with dogs walking when the tide is usually high and there is very little beach to share. This causes more dogs off lead in a smaller space. Time off lead at low tide allows more space for everyone to enjoy the beach. |

| | Concepts: How do you feel about... | | As a local to Semaphore, I'm happy to have the daylight savings rules, where beaches are often more busy with people visiting etc. I do not agree with exclusion zones and on leash areas at all times throughout the year, this will significantly impact elderly residents with dogs in particular who do not drive and have accessibility. I go to the beach regularly and have not witnessed dog attacks and issues, people are generally very responsible and do the right thing. Most people in this area own dogs, so will be severely negatively impacted by new laws of exclusion zones and on leash at all times. Please consider a balanced approach like is currently in place. |

| Concepts: How do you feel about... | | Daylight savings rules apply to PAE, Charles Sturt and Holdfast councils. They have been in place since the inception of dog by-laws and have served the community as the best approach to laws. Universally time is the most understood mechanism and is the easiest approach in understanding rules around dogs on beaches. If this was not the case the current rules would not have stood up to nearly 30 years of implementation. Statistically reported incidences are at the lowest of all areas governed by by-laws and this has been nothing but a waste of ratepayers money and has been to the detriment of the community, causing divide and hatred amongst people. Had the council actually taken the time to implement other initiatives from the 2018 to 2023 Dog and Cat Management plan the outcomes for the community would have been more constructive. The effects of any changes will have far reaching effects on the physical and mental health of those within the community who use our beaches daily. |
| Daylight Savings Rules | Love them | |
| Off-leash (all times) | Loathe them | |
| On-leash (all times) | Loathe them | |
| Exclusion (all times) | Loathe them | |
| Grassed Foreshore | | Option 1 will continue to provide the community with a consistent approach to by-laws. The concept of hard surfaces being (on lead) and soft surfaces being (off lead) is a simple approach to understanding rules around on and off leash use. Education around the best ways to approach use in these zones would have a more responsible effect on how these zones are used and minimize a unnecessary stress and hardship restrictions would have on those who have to police any rule changes. Restrictions may also have an effect on foreshore businesses with some choosing to congregate in other places. Should these areas come under any restrictions they should only be implemented in the daylight savings months. |
| Current Rules | Love it | |
| On-leash around jetties | Can live with it | |
| North Haven | | With such a small area of beach any changes to this area would be ineffective. With plenty of daylight hours restricted to on leash during daylight saving there is a good balance for both on and off leash use. During the winter months it is evident from many conversations with users of this area that there is no need for any restrictions during this time. I am curious to know if any extra funding has been secured for beach patrols during the winter months and has there been any communication with Charles Sturt council in relation to the extra patrols required. Once again had council taken the time to connect with people around the use of this area and implemented positive changes by way of education especially when the surf life saving club has activities in place the outcomes would have a more impact. |
| Current Rules | Love it | |
| North On-leash | Loathe it | |
| Semaphore South to Breakwater | | A uniform approach to by-laws along the metro coast is the best way to ensure compliance when visiting our coastline. Being part of a community of daily beach walkers I am yet to see or hear any evidence that changes to how people use the beach will have any positive impact on those who use this space for whatever reason. The assumption that the proposed changes will be the solution for those who do not like dogs or are afraid of dogs is an irresponsible approach to the needs of the community. The single biggest issue raised in the community is unleashed dogs approaching leashed dogs and families. The proposed restrictions around jetties is not necessary in winter months. The proposed off leash area is an even bigger issue for PAE to face. The proposed area does not take into |

| | | Semaphore has always been very dog friendly. We picnic in areas that are proposed on leash areas and have never had an issue with our dog or other dogs in the area. We have found that people, including us, put their dogs on a leash when they can see people or other dogs are worried about their interaction. |
| | | The current system works well, it is a small beach which allows dogs to run all year round. We walk our dog during summer and during the off-leash time the beach is not very busy, especially near the Outer Harbour break water. It is not a tourist beach, and almost everyone is local and know how the beach works. |
| | | The areas around the jetties, are not busy enough in the colder weather to justify having to put the dog back on lead. On a walk on colder days you are lucky to see 4-5 other people walking. Keeping it to day light saving makes sense, especially closer to Semaphore jetty. I love the off leash all year section of beach from Strathfield Tce. |

| | Reasons to Visit (reasons don't visit): To walk my dog(s); To exercise; For recreation() | |
| Concepts: How do you feel about... | | I think more effort needs to be put into dogs that ARE allowed off leash. Education about dogs being socialised and trained etc. if more owners were responsible for their dogs then off leash options aren't problematic. Increase patrols on beaches and make sure owners are doing the right thing- most already are (picking up after dogs, interacting well with other dogs and people, under effective control). The truth is that most people who don't have recall etc with their dogs, either don't go to the beach or keep them on leash anyway. |

| Dog ownership: No, but I care for a dog(s) | Relationship with dogs: I am scared of dogs | |
| | Reasons to Visit (reasons don't visit): With my young family() | |
| Concepts: How do you feel about... | | I used to be a dog owner, and I can empathise with the strong emotional connection between dogs and their owners. However, it has come to my attention that there is a growing issue of irresponsible dog owners allowing their dogs to roam off-leash, particularly large dogs, in public spaces. On numerous occasions, while enjoying walks in parks or at the beach, I have observed situations where dog owners confidently assert that their dogs are friendly, even when those dogs proceed to behave disruptively. These instances typically involve dogs rushing at people, damaging the surroundings and encroaching on the personal space of individuals or families. In response to any resulting inconvenience, these dog owners often offer a casual apology and continue without addressing the consequences of their pets' actions. Dogs owners have a responsibility to have the capacity to understand these rulings so that a harmonious space can be created without prejudice. |

| | | This is my local beach, it has become a common sight to witness a significant number of dog owners allowing their dogs to roam freely without leashes with the required leashed times. This practice has led to several unsettling situations where I've had to step in to protect my son from approaching dogs. In response to my concerns, dog owners often reassure me by saying, "Don't worry; my dog is friendly," before promptly walking away. As a result, instead of being able to fully enjoy our time at the beach, I find myself constantly on alert, anticipating the next intrusion by an off-leash dog into our personal space. I have also encountered situations where I've felt compelled to address dog owners about the need to have their dogs on leashes, which unfortunately sometimes leads to arguments. Faced with such resistance, I've found it more practical to disengage from such discussions and hope for the best, rather than prolonging a contentious exchange. |

| Concepts: How do you feel about... | | <p>With a reactive dog who is situation dependent it is great to have off leash areas where she does well but I also appreciate the need for on leash areas as if she is on leash she can be reactive to dogs who approach.</p> <p>Having an off leash area within the half hour drive for us would mean that we can take her somewhere to run and swim through summer when local creek areas here are especially dangerous due to the number of snakes.</p> <p>Currently due to work schedules during daylight saving rules the only time I am able to use the beach off leash is 8-10am on Sundays so it is very restrictive. I find often the only users around the proposed off leash area at Largs are other dog owners anyway.</p> <p>Option 2 would tie in with a designated off leash area at Largs better as it provides people the assurance that they have an access point where dogs will always be on leash.</p> <p>Please allow this small area as off leash as there are no other options nearby for dogs during day light savings.</p> |

I don't like when dogs are not under effective control. Especially when their owners allow them to roam and they urinate on belongings of swimmers that are unattended.

option 2:- Area involved for on-leash areas need to include around the playground and kiosk, the train station and areas highly used by elderly, children and young families. So maybe the areas bounded by the southern edge of playground and Palais.

| | Reasons to Visit (reasons don't visit): With my adult friends and family; To walk my dog(s); To exercise; For recreation() | |
| Concepts: How do you feel about... | | I believe it is extremely important to keep some dog OFF leash areas on the sand/water/beach at all times. I can accept some restrictions during daylight savings times especially in hot summer months. But the public health benefits of dog ownership and dog walking are proven by numerous international studies. Physical health and fitness of both people and animals is greatly improved as is people's social connectedness and mental health. Beaches are especially good as they offer dogs the opportunity to run over some distance and to swim. Using their physical capacities daily means a dog is calmer and better behaved at home. It is a tragedy when older people or those with less physical ability feel they have to relinquish their dog as they can't keep it sufficiently exercised on lead. This can lead to a rapid decline in the person's health, depression and isolation. Keeping beaches and grassed foreshore areas available for off-leash use is critical at least for some part of each day. |

| North Haven | | |
| Current Rules | Like it | I don't believe the on-leash at all times option for the Northern end of the North Haven beach adequately accommodates some older or less mobile residents who may not be able to walk down to the southern end of the beach. As I explained in my first response the public health benefits of dog walking are significant and it would have serious deleterious effects if people felt they had to give up their dogs prematurely as they could not exercise them adequately. |
| North On-leash | Loathe it | |
| Semaphore South to Breakwater | | |
| Current Rules | Love it | My preference is strongly for the current daylight savings arrangements. I think the complexity of requiring people to leash their dogs for a certain distance around the jetties is going to lead to unnecessary confusion. For at least half of the daylight savings period there are hardly any people on the beaches even in those designated times so dog owners and their animals are being inconvenienced needlessly. If you move to designating a certain area in-leash at all times it should be substantially less than 500 metres as most people sit with 100 metres of the jetties and 500 metres would exclude too much of the space. The off leash at Taperoo option is all very well but many dog owners who don't drive to the beach cannot access that area. |

| Daylight savings on leash period is a good policy in general due non-dog people (if such people exist!) and reactive dogs, but should be much shorter. Walking the dog before 0800 or after 2000 is just impractical! 1000 to 1900 during daylight saving would be much more suitable for on-lead hours. There aren't many young families and visitors etc outside of these times anyway. I prefer off leash walks as my dog has arthritis and the lead (pulling) aggravates this. Thanks for looking into this. | | |

| On-leash around jetties | Loathe it | |
| On-leash around jetties, north off-leash | Dislike it | |
| 1000 to 1900 on leash period during daylight saving would be more suitable, compared to through to 2000 when it is basically dark. The off leash all year region north of Taparoo is a good idea. However, near jetties should absolutely remain off leash. 'Near jetties' is so poorly defined. There are already the other restrictions- does this one really make a difference when pretty much everyone who might be concerned about off leash dogs visits in summer? It's just an ill-defined, awkward and inconvenient proposal that only affects the off-season. I understand though keeping dogs on the lead up to the point of sand (on pavement and grass) | | |

| Concepts: How do you feel about... | | I have lived in Semaphore for >15 years and have always enjoyed the dog-friendly nature of the beaches and the community in general. I was saddened to hear of the proposal to abolish off-leash times for dogs at local beaches given their importance for many residents and their animals –from both an exercise and mental health perspective. While I appreciate that there may have been isolated incidents in the past, it seems extremely unfair to punish the vast majority of residents (and their dogs) who do the right thing and who utilise the beach weekly (if not daily). I regularly walk my dog off-leash and have always found other dog owners to be highly responsible. I have also never had any issues with me or my young children feeling unsafe. I have no issue with on-leash times during busy periods – since this provides the best of both worlds – not disadvantaging local (or visiting) dog owners, while also allowing those who feel less comfortable around animals to enjoy our beaches. |

| | Reasons to Visit (reasons don't visit): With my young family; To walk my dog(s); To exercise; For recreation() | |
| Concepts: How do you feel about... | | I believe that dogs should have the freedom to socialise and be off lead if they are well behaved. It is a civil liberties issue as well! In all the years I've been walking dogs on the beach I've never had an issue that couldn't be resolved by communication. I live near the beach for the freedom to be able to have my dog off lead. Our dog was a rescue and because he has now been trained to be off leash on the beach, he now socialises well with all the regular dog owner who also enjoy the interaction. It's also a way people can have a chat with others and stay fit and healthy. Emphasis should be on behaviour and dogs on leads are often straining to run free. It is an issue of training, so the dog listens. Dog parks seem to initiate a pack mentality with aggressive bullying animals. I experienced this on several occasions before deciding that the beach is a much friendlier place for dogs to socialise and listen to their owners. I live near the beach for the above reasons! |

| Semaphore South to Breakwater | | I believe that rules for dogs on/off leash could be dependant on other factors, including how busy the area is at any given time. This is where responsible owners owners could be using their initiative. Blanket rules are not an option as there are too many variables. I live at the beachside precisely so I can walk to and on the beach with my well behaved and sociable dog being able to enjoy a little freedom. He looks forward to it every day. Why should the "rules" be for the few? Mostly the beach is practically deserted apart from dog owners/walkers. When it is busy on the beach it is generally very warm and I'd bet most people are not from the areas you want to make changes too. |

| | Concepts: How do you feel about... | | The beach areas current rules regarding dogs being on/off lead works fine - that is, on lead during the day light saving months between 10:00 and 20:00 and off lead any other time. We, like most dog owners use the beach early in the morning all year round before the beaches start being used by families, who I hasten to add don't even live in the area. The huge expanse of beach always means that they are quiet and there is plenty of space for everyone - so why change this?! This consultation, yet again appears to be a waste of tax payers money by PAE council. | |

| | | Reasons to Visit (reasons don't visit): I don't currently visit(Because of unleashed dogs that are not under control by their owners. I have yet to come across any dog that's is under effective control or owners that even worry about their dogs approaching others when off the leash. Too many unpleasant incidences occu) | |
| | Concepts: How do you feel about... | | The biggest concern is the amount of owners who have little dogs off lead who do not respond to owners commands or the owners that have no control over them(or care too). Small dogs do not need alot of exercise...large dogs do. If there is any problem with small dogs approaching a larger dog.. odds are on the large dog gets blamed if anything untoward happens. Maybe consider areas for the dog size....not the humans who want to walk and not take responsibility for their pets. My dogs love the beach but we will not take them because of this issue. |

| Concepts: How do you feel about... | | The winter off leash time is fantastic. There are so few people at the beach throughout the day and most people are sensible about leashing their dogs as required. I'm concerned about dog exclusion areas being applied to significant amounts of prime beach that would preclude less mobile people from accessing a beach closest to their home (I note a number of less mobile people I know also don't drive or have access to car) |

| Concepts: How do you feel about... | | <p>I find the question above quite confusing as the consultation about dogs on and off leash relates to different areas of the beach. I would be happy with dogs on a leash on foreshore reserves in select areas (eg around jetties) and/or on all areas of the reserve during daylight saving hours (eg 10am to 8pm) as there are often community events or people picnicking or playing games on the reserve during summer.</p> <p>However, I think current rules for dogs and and off the leash on the beach should be left as they currently are ie only on a leash during daylight savings (10am-8pm in summer), off leash in winter I think the dog on leashes rules need to consider all users of the beach and not one group over another as well as the times different groups use the beach. Dogs on leashes 10am-8pm in summer gives dogs a chance to run & play when fewer non-dog owners are on the beach but restricts them when the general public is more likely to use the beach</p> |

| Grassed Foreshore | | Prefer on leash in designated areas only but these should be quite limited areas. The info talks about restricted areas of between 100-500metres. The latter area is much too big, ie the restricted area should be limited to where large numbers of people gather. |

| Concepts: How do you feel about... | | <p>While I like the idea of dogs having off lead areas to run free, I am concerned about the impacts on wildlife when this happens on our beaches that have precious sand dune habitat. When I take children to the beach, they are very fearful of approached by strangers' off-lead dogs - this is a natural reaction, and one I don't want to dismiss, as there is no way for them or I to know if that dog poses a threat.</p> <p>Large, fenced reserves for off lead dog play might be a more considerate option.</p> |

| Current Rules | Can live with it | <p>I live in Taperoo, and the beach east of Fort Largs is the one I most frequently use, meaning I would be impacted if option 3 were to go ahead allowing dogs to be off lead north of Taperoo. I am very unhappy with this proposal, due to concerns about safety of humans and of the wildlife that inhabits this area. We are lucky to have deep sand dune habitat preserved in this area, with local conservation groups working hard to eradicate pest species and protect endemic plants and animals. Having dogs run loose in the area could threaten this. With the First Largs development bringing hundreds more human residents to the areas, there will likely be an increase in pet dogs, and they should be appropriately restrained in public spaces. The fact we don't have a jetty in Taperoo doesn't mean we are not entitled to the same protections on our beaches. Keep dogs on leads.</p> |

| Concepts: How do you feel about... | | I feel the proposed changes punish and segregate people with dogs. If you look at the number of people using the beach during the off lead allowable hours you will note that the beach is completely filled with responsible dog owners and at best 1 to 2 families. All other people who are walking there without dogs are not bothered by the dogs. People should be allowed to have time to walk their dogs off lead and during these periods there are limited other beach goers who don't have dogs visiting the site. |

| Concepts: How do you feel about... | | <p>I have marked the current Daylight Savings Rules as a dislike as i think they are tough... i am often one of only a few people on the beach and the others are generally other dog owners. Based on this rule, I should not let my dog off lead even when the area is deserted.</p> <p>Option 3 if accepted will alleviate this issue but i am concerned that if oodles of off leash dog owners are on top of each other, things may get a little more difficult.</p> <p>Many dog owners will deliberately give each other space and this may be harder.</p> <p>Will have to wait and see i guess.</p> <p>Most days during Daylight Savings are just average weather days...the beach only gets busy with non dog people on hot summery days.</p> <p>Off leash areas, i think are really important for dogs to be able to run. Dog parks are too small for exercise</p> <p>Totally understand some of the on leash areas at times, but most responsible dog owners would keep their dogs on leash in busy areas</p> |
| Daylight Savings Rules | Dislike them | |
| Off-leash (all times) | Love them | |
| On-leash (all times) | Can live with them | |
| Exclusion (all times) | Loathe them | |
| Grassed Foreshore | | <p>my dog and i will avoid heavy populated areas generally whilst off lead, so this will make little difference to us.</p> <p>I would have him on lead in these areas anyway, if there were lots of people around so option 2 makes sense. It's only when they are essentially deserted that it would affect me, but i can live with it.</p> |
| Current Rules | Love it | |
| On-leash around jetties | Like it | |
| North Haven | | |
| Current Rules | | |
| North On-leash | | |
| Semaphore South to Breakwater | | <p>I think option 3 is probably the most workable. I love that there will potentially be an off leash area at all times</p> <p>Whilst the off lead area is in close proximity to me and therefore very viable, i can imagine that anyone that would have to walk a distance before they could let their dog off lead may be disappointed.</p> <p>Currently and for anyone not in close proximity to the proposed off lead area (future), the option to finish work at 5, come home and take your dog for an off lead walk aren't allowed during daylight savings which seems silly when most of the time the beach is deserted. It only gets busy at this time during hot weather when i would totally understand the necessity. for leads.</p> <p>Saying all this i do understand the necessity for some rules but would love to see common sense prevail.</p> |

| Concepts: How do you feel about... | | I appreciate all dogs being on leash on the beach during daylight saving times between 10 and 8. This is very much a shared area with young children and less agile elderly people enjoying the space. When an uncontrolled dog (or 2) create havoc it is not only disruptive, but can be dangerous for those around. Thank you for considering the needs of all users on our wonderful shoreline area. |

| Grassed Foreshore | | Options 2 provides a 'safe' grassed area for those people who enjoy having a picnic on the grassed area, without fear of dogs that think they should join in! Sadly, some dog owners think this is fine but for many of us, we'd rather eat without an extra uninvited guest. However, I also see many dogs and their owners using the grassed area for recreation together, which is wonderful. |

| | Reasons to Visit (reasons don't visit): I don't currently visit (It's not safe to walk my dogs. One of my dogs was attacked at the beach and is now reactive to other dogs that come into his face. Other people who walk their dogs at the beach are not respectful of the space of other dogs. I very occasionally walk my bon) | |
| Concepts: How do you feel about... | | Off leash only areas creates the dog park concept. Dog parks are the worst thing in existence. People do not watch over their dogs and their behaviour. Dog parks create behaviour problems. Off leash times are good. It allows people to visit quieter parts of the beaches at quieter times with their dogs. I have three dogs one reactive, who is never off lead. Two who I want to protect from disrespectful owners and their dogs. Off leash times allows me to find protected areas to walk them. |
| Daylight Savings Rules | Love them | |

| Grassed Foreshore | | The shared footpaths are adjacent to the grasses areas. There is no way to police on leash and off leash in these spaces. People will just be off leash at all times. Most people do not have the voice control to stop their dog who might be off leash on the grass from interacting with people/dogs/bikes on the shared footpath if the chooses to interact with them. It's dangerous. Bikes, scooters and kids should not have to deal with dogs running across the footpath. The car park is also adjacent to the grassed areas and shared footpath. People consistently release their dog from the car with no leash. Dogs often run from the car park across the path, grassed area and onto the beach unaccompanied. This is dangerous. And unfair others using the space. Not least the people/dogs on the beach that then have to deal with an unaccompanied off leash dog. Dogs should on leash on the entire foreshore area at all times all year round. Dogs can be off leash on the beach itself at specified times. |
| Current Rules | Loathe it | |
| On-leash around jetties | Loathe it | |
| North Haven | | I think option 1 provides flexibility for all beach users. |
| Current Rules | Love it | |
| North On-leash | Loathe it | |
| Semaphore South to Breakwater | | To repeat my previous comments by creating off leash at all times all year creates a dog park environment. Dog parks are terrible. People don't pay attention to their dogs. Dogs can be bullies or are bullied. Most owners cannot read dog body language even when they do pay attention. This is not a good idea. |

| | Concepts: How do you feel about... | | Not all dogs are gentle. Owners always say "he's only playing", no dogs should run up and jump at you. Locals are quite obviously conscientious but on weekends and holidays, visitors do not have the same sensitivity. I have been bitten and knocked over, no lasting injuries, but it does make me extremely cautious. I avoid the beach on the weekend. |

| Concepts: How do you feel about... | | Dog owners are very responsible, when they see someone fearful of their dog, if it is off lead they put it on a lead until they have passed that person. What ever the outcome of the survey that some bins and dog bags should be placed at the end of the walkways to the beach (to augment the ones at the top of the road) as some 'out of town dog owners' do not respect the beach and do not pick up their dog poo at all times or put rubbish in the bin, because of laziness. (or disrespect). As a resident I always pick up rubbish and dog poo whether it is from my dog or not. I think having dog exclusive zones is discriminatory against people who are not fully ambulant and cannot walk long distances from where they live. It is impossible to exercise a dog that has to remain on a lead and this can lead to unsociable behaviour. Dogs need to be able to run and frolic in the water. Not all dog owners can access the beach for dogs off leash during daylight saving hours due to work hours. |

| Concepts: How do you feel about... | | I believe owners have a good understanding of their own dog/s and if they have an angry dog or aggressive dog, they will keep it on the lead. Not all dogs are the same so having a blanket rule across the board is not appropriate. I think dogs should be allowed off leads in allocated times like day light savings rules which allows times for dogs and times for people. Especially when it's not day light savings and in the cooler months there is sometimes no one on the beach. Also, early in the morning this can be the case as well in both day light savings times and non-day light savings times. |

| Concepts: How do you feel about... | | I feel strongly that all dog owners who intend to use off leash communal areas have a responsibility to train their dog to be safe off leash. My own dog attended 4 levels of obedience training and we continue to practice recall and good behaviour on and off leash. It is therefore frustrating that there are no year round off leash dog beaches north of west beach for us to enjoy, particularly as I work shift work so need to walk her at varying hours. I can appreciate that many people are fearful of dogs and many dogs are not safe to be off leash, so I support on leash areas and I feel it is reasonable for this to encompass the more densely populated jetty areas. Truthfully my main frustration is owners who do not train their dogs and create unsafe environments for everyone else, but these owners don't tend to abide by on/off leash rules and so are unlikely to be affected by any rule change. |

| | Reasons to Visit (reasons don't visit): With my young family; With my adult friends and family; To walk my dog(s); To exercise; For recreation() | |
| Concepts: How do you feel about... | | Some stakeholders believe that their dogs require time off-leash while in public. I don't agree with this view, and would prefer that dogs on beaches and the surrounding foreshore and grassed areas be leashed at all times. I feel that dogs should be welcomed to the beaches as part of an Australian cultural activity of enjoying time with pets, but that the needs of other users should be included in this decision. I don't agree that the views of one group should prevail - the beach is a public asset that all users should be able to enjoy. |
| Daylight Savings Rules | Can live with them | |
| Off-leash (all times) | Can live with them | |
| On-leash (all times) | Love them | |
| Exclusion (all times) | Love them | |
| Grassed Foreshore | | Option 2 is confusing, will add unnecessary complexity. The current rules are confusing enough. |
| Current Rules | Can live with it | |
| On-leash around jetties | Dislike it | <p>I see many people who are not aware that their dogs must be on leash at all times on the pedestrian path. I walk this path every day and see lots of unleashed dogs. Some simple signage would assist. Charles Sturt Council uses sprayed signage on its paths that says 'dogs on leash'.</p> <p>I have a reactive dog. I walk him on-leash only. Unfortunately he cannot enjoy the beach because he is at high risk of attack from unleashed dogs - he's very small and a natural target. As many people do not leash their dogs along the pedestrian path, he is often also at risk of attack there. I am genuinely frightened of taking him to the grassed area or pedestrian path because of this risk. As a consequence, we mainly walk the nearby streets because there are fewer unleashed dogs. We moved to the beach to be able to use it, but the high number of people with unleashed dogs not under control make this impossible.</p> |
| North Haven | | I suspect that many users will find changes confusing. If any changes are adopted, these should be adopted uniformly along the length of the beach. |
| Current Rules | Can live with it | |
| North On-leash | Can live with it | |
| Semaphore South to Breakwater | | Changes will result in confusion among the community, so the aim of any changes should be to introduce rules that are as clear and consistent as possible. |
| Current Rules | Can live with it | |
| On-leash around jetties | Dislike it | An off leash area is a sensible idea to appease those who believe that their dogs require off-leash time. Option 3 proposes that area should be located in the area of greatest biodiversity along the beach front, which is a difficult compromise. If the choice is between dogs and biodiversity, my view is that biodiversity is more important. An off-leash area could be located away from the beachfront. |
| On-leash around jetties, north off-leash | Can live with it | |
| | | <p>Huge population influx is expected from new housing and AUKUS project in next 10 years. The needs of all users need to be better balanced in these circumstances. Current rules favour dog users. With the Council's focus on inclusive multi-cultural beachside events, continuing current arrangements would be unwise.</p> |

Permanent off-leash areas must be demarcated so that people who don't want to encounter anti-social dogs/owners can do so.

| Concepts: How do you feel about... | | Living in Largs and walking on the beach every day all year, I see how the seasons and days change the types of people here. The people that live here should have the right to walk their dog on the beach off leash all the time in winter when no-one is here and with daylight savings rules that enables families or others who wish to be away from off leash dogs to know when to come to the beach. The current rules are fine. The bigger issue for me and it really only happens on weekends with dogs I don't recognise is people who don't live here, who come here with unsocial dogs that they can't control. As a local beachside resident it feels like you are proposing rules for the 95% of people in PAE council who don't live on the foreshore who only come here twice a year. Surely people who actually live here and use the beach every day should have a bigger say? |
| Daylight Savings Rules | Love them | |

| Current Rules | | |
| North On-leash | | |
| Semaphore South to Breakwater | | One of the reasons we bought in this area was the lifestyle to walk our dogs freely on teh beach all year round in the morning. If you impose these laws this will affect the lifestyle of people who live here and may impact the economy of the area as people choose to then move away to more progressive council areas down the coast. There are more snakes and wildlife that can hurt dogs (and people) I'm not going to jump in my car to go and walk my dog off leash on the beach north of Taperoo. I'd rather move. |

| Concepts: How do you feel about... | | I live walking distance to Semaphore beach and use it daily to walk my dog who is a highly energetic and harmless Jack Russell. He loves to get on the beach every day to have a run and get his sillies out doing zoomies and digging in the sand. I am a frequent user of this beach and on weekends there are lots of dog walkers going between Semaphore and Largs jetties. On hot days on weekends we get lots of tourists through the day. In winter it is deserted. Its common sense that I put my dog on a lead when there are lots of people about or if I need to keep him near me. I can work that out for myself. The daylight savings rules are OK as is. Why change them? In summer time we just do our walkies in the morning and don't bother anyone. Never had a problem in the 5 years I have had my Jacky down there. The beach is empty in the winter so why do we need dog leash rules then? |
| Daylight Savings Rules | Can live with them | |
| Off-leash (all times) | Love them | |
| On-leash (all times) | Loathe them | |

| Grassed Foreshore | | It is fine as is. Need to consider that it is not always busy around the jetty for people that use this area every day. Most of the time it is pretty quiet. Only in summer and on weekends when there are events does it get really busy around this area. I walk my dog in this area frequently and never have had a problem. |
| Current Rules | Love it | |
| On-leash around jetties | Dislike it | |
| North Haven | | Really why? I do not often walk my dog in this area but I have before, probably around 4 times a year for the last 5 years have we gone this far up the beach. It is so deserted and spread out up here, hardly see anyone but the odd dog walker so really why is this needed? |
| Current Rules | Love it | |
| North On-leash | Loathe it | |
| Semaphore South to Breakwater | | Option 1 - Please leave as is. Daylight saving rules are good as is. Option 2 - This doesn't make sense. Up to 500m from jetties? There is only 1.5km between Semaphore and Largs jetty. It's just silly to have these invisible lines and rules on rules. Option 3 - Same as Option 2 but with off leash north of Taperoo. Doesn't really make sense since it is mostly deserted north of Taperoo anyway. |

| | | Reasons to Visit (reasons don't visit): With my young family() | |
| | Concepts: How do you feel about... | | I visit the beaches daily if not twice a day. Sometimes with my dog and sometimes without. The beaches currently are used by everyone in a safe and respectful manner. There are no issues currently so why the need for change? Proposed changes will make little difference anyway. Clearly drawn up by people who do not use the beach every day. Another waste of rate payers money. |

| | | Reasons to Visit (reasons don't visit): For recreation; With my adult friends and family; To exercise() | |
| | Concepts: How do you feel about... | | I don't like the idea of dogs being off leash on grassed foreshore and park areas. I believe that dogs should be on a leash at certain times. We have lovely parks along the beach. These parks are utilised by lots of people for barbecues, picnics, Birthday Parties etc. Often many young children are at these activities and often playing with balls and balloons and eating food, all which are attractive to dogs. We should be able to use these parks without free running dogs. |

| North On-leash | Loathe it | |
| Semaphore South to Breakwater | | Current system is good. As a frequent beach user and shift worker, in WINTER, I only see dog walkers use the beach. Restrictions during this time seem punitive and unnecessary. It is really good now as people & dogs can SPREAD out across the areas, especially if you have nervous dogs/reactive dogs and for people who aren't a big fan of dogs. Whilst I can approve of the jetty based on leash areas, allocating one single dog off lead beach area would crowd people to one single area & reduce opportunities for dogs to go out and do vital sniffing, exploring and enrichment especially those unsuited to dog parks - elderly dogs, young dogs, nervous dogs.. |

| Concepts: How do you feel about... | | Beach rules. As they currently are (on leash during daylight savings) are extremely onerous and unnecessary. You are punishing all dog owners for the behaviour of a minority who don't know how to control their dogs and even then only a few of those pose any real threat to members of the community or other dogs. If I had it my way, the rules would be that you can have your dog off leash at all times if you have it under effective control. At the worst, stick with what you currently have. If you are imposing leash restrictions near the jetty, why on earth you'd need to have that restriction be any more than 50 to 100 metres is beyond me. The suggestion of 500 metres is absurd. |

| Concepts: How do you feel about... | | <p>Inclusion is the issue. Why should a person be excluded from their local beach because they happen to have their dog with them. Accept that the dog might sometimes need to be on a leash but to never be able to walk across the road with your dog despite investing millions in a property and paying huge council rates cannot possibly be fair or legally supported.</p> <p>If dogs can be off leash on the beach then I see it as a reasonable compromise that some areas of the grassed section the could be expected to be on leash. We cannot separate the two. They need to be considered together so everyone can find a spot that suits their needs.</p> <p>As before I don't believe residents should be excluded from their local beach because they have a dog with them. They should not have to get the car out to go else where when they have paid to live walking distance from the beach.</p> |

| Concepts: How do you feel about... | | North haven beach - option 1. Its a small beach and i like to find a spot with less people and dogs to let my dog off its leash. By cutting the beach in half, it will just squish everyone closer together and increase the likelihood of dog/human interaction. Grassed foreshore - option 1 Semaphore beaches - option 3. I think creating a dog friendly part of the beach with no leash requirements all day is a good way to increase tourism and foster a dog friendly area. It will also make dog owners more likely to visit that section of the beach. |

| Concepts: How do you feel about... | | <p>preference is to leave as is - dogs on leash daylight savings from 10am- 8pm</p> <p>this makes the most sense - I walk my dog all year on the beach in the early morning - in winter the beach is basically empty and in summer (early morning) there are very few beachgoers of any description.</p> <p>obviously on warm to hot days in the summer months there will be many visitors of various ages on the beach between 10am and 8pm so it makes sense for dogs to be on a leash during these periods of high beach use.</p> <p>easy to read signage especially for visitors unaware of the daylight savings rules would be an advantage</p> |

| Concepts: How do you feel about... | | I like to walk at Semaphore Beach and I often meet friends for a walk on the beach with the dogs and for coffee. I walk at Semaphore Beach all year round - there is a great community of people who walk with their dogs. In Winter especially, there are very few (if any) people walking at the beach without dogs. The Daylight savings rules seem to work really well. During Daylight Saving, especially during the week, Semaphore Beach after 10am is deserted. I like that I can play ball, swim in the sea and walk with the dogs. If I see areas usually near the jetty where there are small children I will put my dog on the lead, not because I am worried about my dogs behaviour, more because the kids usually come up and want to pat and say hello to my dog. |

| Concepts: How do you feel about... | | <p>The current rules on Semaphore beach and foreshore work really well .</p> <p>I've lived in Semaphore for 36 yrs .</p> <p>I am a ratepayer and a dog owner.</p> <p>My experience over many years are that the majority of dog owners are respectful of others on the beach .</p> <p>There is a very strong community of dog lovers who regularly meet each other on the beach . I have not met one person who states they would like the rules changed.</p> <p>If option 2 or 3 are put in place how will this be monitored and regulated both are very confusing rules.</p> <p>I do not see where on the beach this signage can be displayed for all to see to clearly state the rules if they change to option 2 or 3 .</p> <p>I also strongly object to option 3 . People with a disability or the elderly that have a dog will have to get to Taperoo to exercise their dog off lead at all times. This is very restrictive for them</p> <p>Leave well alone it works so well just how it is. Don't change the rules.</p> <p>I go for option 1</p> |

| Current Rules | Can live with it | The specific distance needs to be clarified as this could be very limiting as a dog owner or a happy balance between the freedom to let your dog roam and other enjoying an area of dog on lead if not comfortable around dogs. The information you're currently providing is too vague. A possible 500m either Side of the jetty is 1km where I must have my dog on lead. This is excessive. | |

| Current Rules | Like it | Option 2. I live opposite this area of the beach. Only when the weather is warm (Nov-Feb) are there consistently people on the beach. Even the lightest breezes keeps people off the beach. I windsurf so monitor the wind and use the beach in 10-20+knots. Most people stay away in these conditions even when warm. Frequently, NorthHaven beach is empty or with 2 or 3 people spread out walking or with dogs between March - Oct. It would be a shame to close one end to dogs off leash when the traffic is minimal. |

| Concepts: How do you feel about... | | <p>Extending the times and areas where dogs need to be on leashes, or are not allowed at all, is unnecessary. North Haven beach is not a busy beach, often only with people walking their dogs. The current rules for daylight saving are acceptable as this allows everyone time to exercise their dogs and others to use the beach too.</p> <p>It should be noted that exercising dogs is an important social activity for many in the area.</p> |

| Concepts: How do you feel about... | | As dogs are a large part of our lives and are integral to many as a balance to mental health and well-being, excluding them from family activities and beaches is not fundamental to an inclusive society that the world now demands. The problem is the minority who do not control their dogs and think about the use of beaches for others. These are people who should not have dogs in the first instance. Unfortunately this is not something that can be properly controlled and managed. I fully support dogs off leash on beaches. |

| | Concepts: How do you feel about... | | The best part about living in Semaphore South is being able to walk along the beach or foreshore with my daughter and doggo George. I have to walk with a pram and it's difficult navigating that as well as a leash for my dog. It's much easier for George to walk alongside of us without a leash. He can sniff either side without getting tangled up. Please don't change the rules, I've never seen any aggressive dogs down there and nobody has ever been scared when my dog approaches | |

| Current Rules | Love it | Really don't like the fact that it has not been specified what the on leash area either side of the jetty would be. There is a huge difference between 150m and 500m. I would support 50m either side of the net and the rest of the rules remaining as is. |

| Concepts: How do you feel about... | | This whole issue has been a dogs' breakfast and a poorly planned and managed total farce. Even this 'survey' has been made as inconvenient and vague as possible. PAE obviously has been 'got at' by a small but influential group with their own agenda to change perfectly satisfactory rules that have been in force for YEARS with only a VERY few problems. The great majority of dog owners are responsible where their dogs are concerned, unlike, some parents who have never taught kids how to approach the OWNER before trying to pat a dog. If you speak to shop owners and especially cafes on Semaphore Rd, they are virtually all in agreement that if the rules are changed, they will lose business. In summer, the majority of time, families with kids only get to the beach near or after 10.00am so dogs are already on leads by then. In winter, the beach is either totally empty of people or just us regulars with dogs. Having to keep dogs on leads then would be totally ridiculous. |

| Current Rules | Can live with it | I have my dog on-leash in the grassed foreshore reserves throughout the year as they are used for picnics, public events and by young families (especially near cafes and playgrounds). As such, I am open to having my dog on-leash at designated areas, and throughout more of the grassed foreshore areas. However, when we're on the beach and in the allotted times I let my dog off-leash and actively call her away from people if she goes near them. The key here is 'under effective control' which is what we practice. |
| On-leash around jetties | Can live with it | |
| North Haven | | Under daylight saving rules, dogs should be allowed access to all of North Haven beach as long they they are 'under effective control'. There can be more focus on this (education, signage) rather than introducing restrictions that would be difficult to enforce. |
| Current Rules | Can live with it | |
| North On-leash | Dislike it | |
| Semaphore South to Breakwater | | Dogs should be allowed access to all of the beach under daylight saving rules as long they they are 'under effective control'. There can be more focus on this (education, signage) rather than bringing in restrictions that would be difficult to enforce. Around jetties and where people gather, dog owners can exercise greater control of their dogs rather than being required put them on-leash for an arbitrary distance. The options for grassed foreshore reserves and beaches would be better considered together in a coordinated response and not separately. It makes good sense to have dogs on-leash along the grassy areas where there are more public facilities, but not to restrict them on the beach; except for a few hot days in Summer, most of our beaches are not widely used before 10am (apart from dogs and owners who generally leave by 10am) or after 8pm. |

| Concepts: How do you feel about... | | I like the current rules. Dogs have off-leash times so we can walk them on the beach or play with them on the grassed areas, but we're gone before the blow-ins come in to take over the beach and leave their garbage everywhere that us dog walkers have to collect as we walk our dogs the next morning. Perhaps police the tossers leaving garbage on our beaches instead of wasting rates money on an issue that isn't needed. |

| Grassed Foreshore | | I'm sure this survey wasted thousands of rates dollars on something that doesn't need changing. Thanks for that... I love my rates increasing every year just so the council can find pointless things to waste that money on. The current dog walking system is great. Why change it? Families love to play with their dogs on the grassed foreshore areas. They don't cause harm, so why are you taking that from them? |
| Current Rules | Love it | |
| On-leash around jetties | Loathe it | |
| North Haven | | People walk their dogs early in the morning, they need off-leash time so the dogs can play together and socialise. There are no day-trippers before 9am so there don't need to be laws for the dogs to be on-leash. |
| Current Rules | Love it | |
| North On-leash | Loathe it | |
| Semaphore South to Breakwater | | Oh this is just complete bullshit. No-one is on the beach before 9am except dog walkers so why do you need the dogs on leash? We're the ones who actually own homes in the area and are paying the damn rates. At least give us something from it. First you destroy the beach with the sand-carting (thanks for the sprained ankle I got from that) and now you want dogs on leads when no-one is there but other dog walkers? This is just stupid. How are we supposed to let our dogs run? Will you be providing more and larger dog parks? The one closest to semaphore is way too tiny to run a dog in. You're pandering to the people who aren't even on the beach when we are. These same people who leave garbage everywhere for us to collect while we walk our dogs. Do something about that. |

| Concepts: How do you feel about... | | I think a blanket rule for dogs is unfairly applied to dogs and owners who are responsible, respectful of other beach goers and most importantly have their dogs under effective control. I do however think the community and state government need to address the ease and accessibility to dogs by humans who have illegal puppy farms and breeding practices that encourage irresponsible animal population growth, cruelty and practices that do not hold dog owners accountable for the care and training needed when a dog becomes a part of their lives. |

| Concepts: How do you feel about... | | <p>Each morning, I wander down the street to walk my dog on the beach, with other locals who do the same. The dogs know each other better than the owners! In 14 yrs of doing so, I have had only two questionable experiences with a local and their unruly dog -- once at the beach (off lead) and once on Semaphore Rd (on lead)...so I'm not convinced that leads matter as much as responsible owners. I avoid taking my small dog out on evenings and weekends due to the volume of non-locals and their dogs, generally having driven there, and generally oblivious to rules and rapport.</p> <p>The pet-friendliness of the area is a HUGE part of my moving here, and staying here. It would be very upsetting to see dogs restricted from their beach mornings, especially when there is virtually no one else on the beach at that time! Essentially, why try and "fix" what isn't broken?! I have trained, care for, maintained and paid registrations for my dog...he deserves to enjoy the area to its fullest, as much as I do.</p> |

| Dog ownership: No | Relationship with dogs: I am scared of dogs | |
| | Reasons to Visit (reasons don't visit): With my young family() | |
| Concepts: How do you feel about... | | <p>I'm happy with option 3 which states Dogs can be off leash at North Haven Beach. As someone who has childhood trauma from a dog bite as a young child I want dogs to be on leash at all times on grassed areas & beach sand areas as we all know owners can't always have full control of their dogs off leash. It just takes that 1st time for a dog to bite another dog or small child. I've heard way too many times the story of a dog never having bitten anyone and then turning on their owner or someone else.</p> <p>I think it's completely reasonable that if dog owners wish to allow their dogs to run off leash then they can drive the small distance to North Haven or go to an enclosed Pooch park. I should be able to enjoy my time at the beach without living in fear of being attacked by a dog or even just having dogs running up to our picnic trying to steal our food or weeing on our esky.</p> |

| Current Rules | Dislike it | |
| North On-leash | Can live with it | |
| Semaphore South to Breakwater | | <p>As someone who still suffers from childhood dog attack trauma I would like to see dogs on leash at all times everywhere apart from North Haven Beach. I grew up there and hardly anyone swam there due to the large amounts of seaweed.</p> <p>As we all know no one knows when a dog will attack someone for the 1st time and many dog owners do not always have full control of their dog 100% of the time. I think it's completely reasonable for dog owners to drive the short distance to North Haven or an enclosed pooch park if their dog needs to run free.</p> <p>I believe I and my family have every right to sit in peace without fear of being attacked by a dog in a public place. Even having dogs coming up trying to pinch food or wee on an esky is really not okay.</p> |

| North Haven | | |
| Current Rules | Love it | <p>North Haven is a small beach that can be completely empty during winter. Often we are the only people walking our dogs during winter and the surf lifesaving does not set up in winter. Local dogs all know each other and I have not even seen any problems with local dogs mixing off lead on the beach. I have lived at North Haven for 8 years now.</p> <p>The problems occur when other people bring their unsocialised dogs to the beach during summer and let them loose. Often this is during daylight savings time too but we very rarely see council inspectors and if we do they only come out during work times. Keep the current rules and actually send council inspectors out to check the beaches and fine (not just warn) the owners of off lead dogs during daylight savings time during summer. These people should be working on weekends and especially public holidays. Don't punish the local residents and their dogs because of others. Keep a record of off lead dogs during on lead times and where the owners live.</p> |

| Concepts: How do you feel about... | | Option 1. Dogs should be on leash on grassed reserves by beach all year, this is actually where families with children do picnic and due to the nature of that space dogs should not be allowed to roam even if under good control. As for the beach daylight savings rules are great, please don't change them. No one but dog owners and walkers really use the beach in winter other than brave teens swimming for a lark. I have been a regular user of Semaphore beach and grassed reserves for 20 years both with and without small children and as dog owner and have a good understanding of how these spaces are used at different times of the day. |

| Concepts: How do you feel about... | | <p>Keep it simple and consistent. It will be confusing for many, if there are changes in rules depending on where you are.</p> <p>I have been on the beach, with my young children before, where a dog was off lead and not under effective control. This brought much distress to my children.</p> <p>Everyone should feel safe, and everyone should have a time of day to enjoy the beaches and grass appropriately. By keeping on-leash times between 10am-8pm, this allows ample time for people to enjoy the beach without dogs bothering them. Off lead before 10 and after 8, provides ample time for dogs to enjoy the same.</p> <p>Disappointingly, its some dog owners that simply dont train their dogs appropriately.</p> |

| Concepts: How do you feel about... | | <p>Semaphore South to North haven beach: I prefer dogs off-leash in all areas at all times. On my daily beach dog-walks between Semaphore and Largs jetties the beach is almost entirely vacant. Around midday Wed 4/10/2023, I walked back and forth between jetties (3.2km) and saw only one other person walking their dog. IT DOESN'T MAKE SENSE FORCING DOGS ON-LEAD IF THERE'S ONLY ONE OTHER PERSON ON THE BEACH FOR 3.2KM FOR AN HOUR'S WALK - DAYLIGHT SAVINGS OR NOT!!!</p> <p>Grassed Reserves: In summer of 2022 I received contradictory advice from council and the female dog inspector driving the Charles Sturt small 4WD on the beach advising I was not permitted to walk my dog off-lead on the grassed foreshore areas - which is clearly incorrect. PLEASE RETAIN ALL GRASSED RESERVES AS DOG OFF-LEAD AREAS!!! DO NOT INTRODUCE ANY DOG EXCLUSION ZONES AROUND JETTIES!!! CAN PAE POSSIBLY INTRODUCE EXCLUSION ZONES FOR CHILDREN AND NORTHERN SUBURBS VISITORS TO KEEP THEM OFF OUR BEACHES TOO?? THAT'D BE AWESOME!!</p> |

| Daylight Savings Rules | Love them | |
| Off-leash (all times) | Love them | |
| On-leash (all times) | Dislike them | |
| Exclusion (all times) | Loathe them | |
| Grassed Foreshore | | I'd like to see it stay how it is currently. |
| Current Rules | Love it | |
| On-leash around jetties | Loathe it | |
| North Haven | | No need to change from current approach, and that keeps it the same as other Adelaide beaches which is a good thing. |
| Current Rules | Love it | |
| North On-leash | Loathe it | |
| Semaphore South to Breakwater | | Option 1 is best as I would like to see it kept how it is as it works well, and it encourages the most number of people to exercise themselves and to exercise their dogs off-leash which is a good thing. We need people exercising, being outdoors, and letting their dogs run off-leash for healthy socialising and fitness. I don't really support Option 3 even though it could be seen as a compromise because I think it will be a shame to have more signage on the beach, more rules, more confusion, and less happiness of the very many good dog owner local residents who are those who are in reality probably the most regular users of the beaches, especially from jetty to jetty where they walk daily and bring a wonderful sense of community to our beaches. |

| | Reasons to Visit (reasons don't visit): To walk my dog(s); With my adult friends and family; For recreation() | |
| Concepts: How do you feel about... | | <p>I love the idea of the dog off leash areas open at all times, as I have a reactive dog that I would like to be able to take these areas for off leash areas for exercise, after seeing if its quiet first, as shes has been attacked before by other dogs, however she is also equally capable of attacking others as shes reactive, and shes aggressive towards small fluffy dogs. And I respect the need for exclusion zones, and on leash areas only, as I know there are people that are afraid of dogs etc, and families that want to be safe.</p> <p>There needs to be more enforcement though in regards to on leash times and zones, as the amount of off leash dogs that approach my dog when mine is on leash is ridiculous, and its always during on leash only times or in on leash only areas, and the other owners take offence to me questioning them, and they blame me for any incident that happens as my dog will defend herself if she feels threatened, and theyre the ones breaking the rules in the first place</p> |
| Daylight Savings Rules | Can live with them | |
| Off-leash (all times) | Can live with them | |
| On-leash (all times) | Can live with them | |
| Exclusion (all times) | Dislike them | |
| Grassed Foreshore | | <p>I think they should be on leash in grassed areas, as people use these areas for picnic gatherings etc. Or at least provide off leash areas in the grassed areas during certain times as this would be useful for people training dogs etc, but I dont agree there should be off leash areas in grassed zones at all times unless there is significant signage, and proper enforcement carried out to ensure dogs are under effective control, and there should be rules made that if an incident occurs between dogs, or a dog and human, even a near miss, that details are exchanged and passed onto the council to follow up on, as there is too many times that incidents occur, and the offending dog goes on to exhibit dangerous behaviour and may end up hurting a child or another dog in the future. Also, the victim dog or human gets terrorised, and with a dog, getting attacked is extremely traumatic and puts back the dogs trust and training back months, years or even permanently</p> |
| Current Rules | Dislike it | |
| On-leash around jetties | Like it | |
| North Haven | | <p>I agree with these rules. However, as stated in previous feedback, there need to be more significant signage to alert people, and more enforcement. I hope that if and when any changes to the rules of on leash/off leash areas are carried out, that perhaps there can be patrols, info booths set up at beaches, perhaps educate people that regularly visit the areas to volunteer to wear an identifying volunteer emblem such as a badge or shirt or lanyard or hat, that can upon asked, also help spread the word and educate visitors to the beach in a tactful manner, the new rules etc. Not everyone comes across a booth in a shopping centre like I did that led me to this survey. Education is paramount.</p> |

| Concepts: How do you feel about... | | <p>I love being able to take my dogs places but I am not supportive of dogs off leash in public areas as too many dog owners fail to understand the concept of 'effective control'.</p> <p>On two occasions earlier this year my husband and I took our dogs to Semaphore during daylight savings. Our dogs were approached by numerous dogs who were off lead (when meant to be leashed) on our beach walk. On all these occasions these dogs had zero recall - therefore the owners had no effective control. This was incredibly stressful for us as our dogs, who were on lead, felt threatened and become aggressive trying to protect themselves. We will no longer take our dogs to Semaphore as there is no enforcing the requirement for leash during mandate on-leash periods as it is and I don't want my dogs injured due to irresponsible dog owners. As a result, I am not supportive of dogs being off leash at any time in any public areas due to dog owner's inability to appropriately control them.</p> |

| Concepts: How do you feel about... | | <p>I thank you for the opportunity to provide my opinion. On so many occasions I have been interrupted in my time at the beach and foreshore by unleashed and uncontrolled dogs. Dogs that run up to my small grandchild who are sometimes less in height than the dog who are away from their owners in a fast and alarming manner are too often. Communications with the dog owners to control their dogs often results in insults and raised voices given my continued dismay at the disregard and disrespect from said dog owners to my young grandchildren and myself. The grassed areas are wonderful places for picnics and there is nothing worse than uncontrolled dogs intruding. Whatever the community decides I will have to manage however I want to see any regulations enforced by council. Increase my rates if you have to but make sure there is a presence of council officers prepared to intervene with fines if bylaws are regularly floated.</p> <p>Thanks Greg</p> |

| Concepts: How do you feel about... | | <p>Off-leash areas and/or rules really allow dogs to get the exercise and speed when running that they cannot get on a lead, even a long leash.</p> <p>I think there needs to be more of an educational campaign for dog etiquette, I have some friends who let their dogs off leash, but don't really take responsibility for the dog.</p> <p>People need to be aware that sometimes it's not that their dog is 'bad' or reactive, but perhaps the other person's on-leash dog.</p> <p>There is some signage at the Semaphore Park Dog Park that explains dog behaviour, but you don't really see that elsewhere and, even then, it would be good to have a stronger education campaign.</p> <p>I think when everyone is aware of and educated in the etiquette of dog ownership and behaviour, it will improve dog-dog, dog-human, and human-human relationships.</p> |

| Grassed Foreshore | | It is nice to have my dog off of its leash. Inbetween certain times is understandable for animals to be on a leash. Through high traffic areas like the semaphore jetty it is certainly reasonable to have them on a leash. To not to be able to have areas where a dog can be let off for a run isn't reasonable.. |

| Concepts: How do you feel about... | | <p>Daylight Savings - would like to see the rules finish at 7pm and only be 8pm during mid-Dec to the end of Jan</p> <p>Off leash areas - these are excellent areas to let your dogs socialise and run off some energy</p> <p>Dog on leash areas - these areas could do with much better policing. there are many people who let their dogs off leash which makes it hard for those of us who are walking dogs on leash and obeying the rules</p> <p>Dog exclusion areas - responsible dog owners should be able to have their dogs in these areas on leash and well behaved</p> <p>The problem with the current rules is the huge number of dog owners who have a very poor understanding and appreciation of 'under effective control'. Many dogs are roaming around making a nuisance of themselves but it's not their fault, it's their owners.</p> |

| Concepts: How do you feel about... | | <p>Promote people walking to the beach and then socialising at local shops and cafes. We regularly walk on Charles Sturt Council and Brighton Beaches in the morning. The beaches are busy with people and dogs off leads. Needing dogs on leads before 8 will mean very few people early on the beaches to enjoy them, and less people to clean up after less socially conscious revellers from the night before.</p> <p>Consider if it is easier to police dog owners 24/7 or just on off lead hours to ensure dogs under effective control.</p> <p>Regular beach patrols can run in the summer only not all year round with current rules.</p> <p>The current rules have worked and we have not been presented with any information otherwise and how new rules will improve life for anyone. Current rules align with other councils.</p> <p>Don't let people who never frequent the beach in the morning or late at night determine rules for those who pay rates and live their lives on the beach.</p> |

| Concepts: How do you feel about... | | <p>We have used the beach from North Haven breakwater to Semaphore on a nearly daily basis for the past 29 years. We have previously owned a dog and from our personal experience we would say the best solution for everyone is to keep the current rules plus the inclusion of dogs on leads around the jetties. The proposal to have the section between Strathfield Terrace and the breakwater as permanently leash free for dogs is unfair to residents between those areas who do not own (or like) dogs. Also there is a lot of seaweed in this section and many people do not pick up their dog's waste if they defecate in this area - leading to an increase in people/children coming into contact with this waste. This area is also becoming more frequented, particularly during the summer, with families with young children.</p> |

| Concepts: How do you feel about... | | The day light saving on leash times are good but there needs to be something in place all year round. It is unsettling to take toddlers to the beach to play during the day in non day light saving times. Large dogs run up to young children and frighten them. Exclusion zones around jetties and grassed areas are good idea but need to be extended. Off leash on grassed areas but dogs must be on leads on the path often doesn't work. Dogs run across in front of you when riding bikes. |

| Concepts: How do you feel about... | | While I understand concerns regarding dogs off lead especially during summer, I am yet to experience or observe aggressive dog behaviour toward beach goers. There will always be exceptions, but on the whole owners who take their dogs to the beach are those that care for and love their animals. I struggle to understand why every dog owner who shares the freedom afforded for dogs currently should have this opportunity limited or taken away. Even more so during the cooler months when there are few beach goers. Would it not be more appropriate that there are more stringent penalties for owners who are not responsible and are not able to control their dogs? |

| Concepts: How do you feel about... | | <p>I would really like to see a balanced outcome whereby both dog owners and other users of the beaches and foreshores give a little and take a little. I consider the current arrangement of on leash 10am-8pm during daylight savings adequately provides a balanced outcome. Dog owners know they can go to the beach before 10am and after 8pm and have their dog off leash; other visitors know they can go to the beach between 10am and 8pm and not have to worry about off leash dogs hassling them.</p> <p>No matter what outcome is decided on, you will never prevent some people doing whatever they want regardless of the rules. I would hate to see a draconian response, whereby dogs are required to be on leash at all times 365 days per year, just to try and prevent an incident that is never likely to happen. Most dog owners are responsible and most do the right thing.</p> |

| North Haven | | |
| Current Rules | Love it | |
| North On-leash | Loathe it | <p>Keep the rules as they are, on leash during daylight savings 10am-8pm, off leash all the rest of the time. No need for any changes to the rules. Let's assume most dog owners will do the right thing, keep their dog under control and keep them away from other dogs and people. Dog owners who don't do the right thing will continue to do that regardless of the rules. Don't ruin the amenity of the majority because of the bad behaviour of a small minority.</p> |

| Concepts: How do you feel about... | | Works fine and weighting to replies should be given to those who live and use the beaches every day. Dogs bring joy to people's lives, in 7 years since we got our dog never had any incident. Current rules work fine, align with other councils, and allow us to maintain regular exercise dogs require close to home. Specific areas you need to drive to are not welcome, indeed bad for the environment, my vote is to keep the rules as is, works fine. |

| Grassed Foreshore | | On the grassed areas and on walkways I am happy and comfortable with dogs being on lead. There's a lot more traffic, foot, bike etc and it would be fine for dogs to be kept on lead. The beach is where I think they need to have a run and swim. |
| Current Rules | Can live with it | |
| On-leash around jetties | Like it | |
| North Haven | | This option is ridiculous |
| Current Rules | Can live with it | |
| North On-leash | Loathe it | |
| Semaphore South to Breakwater | | Option 3 to me is the best solution. You keep the area around the jetty's on lead and have a designated area for dogs to be off lead at all times. 150m on either side would be enough seeing that it would make up enough space in total. 500m seems a lot and doesn't leave much space. This option seems the best compromise for every type of person and encourages this community of PAE to be more inclusive and accepting to all. We wouldn't want to be the worst council in Adelaide would we? So many beaches down south are a lot more tolerant to dogs. I'm from Europe and am quite shocked as to how dog loathing this community can be. We take our dogs everywhere in Europe and don't have these type of issues. Because we take our dogs with us they are exposed to many situations and therefore don't react. Keeping them away from every scenario will only make them worse. Exposure and training makes for good dogs, forbidding them from going anywhere will only create more problems. |

| Concepts: How do you feel about... | | <p>as I have spent quite a lot of time in WA, their system of designated beaches (dog friendly, dog free) works very well. This allows people who do not like dogs for whatever reason to enjoy their space. The dog friendly beaches work well as everyone respects the rules. Most people walked freely with their animals, without leashes. Those dogs that ran and greeted others and humans were friendly and well behaved. If there was an aggressive or not socialised dog then parts of WA also have a system where their collars were either blue or green, representing caution to approach or friendly. If you saw a dog with blue collar on and a lead then you knew it had issues and kept your distance. Everyone should have access to the beach. We have enough coastline to share with our furry friends.</p> |

| Concepts: How do you feel about... | | <p>The rules about where dogs can and cannot be off leash do not always seem appropriate to me.</p> <p>My objection to the Daylight Savings Rules (on leash 10am - 8pm) is for a couple of reasons:</p> <p>If the day is not too hot, I prefer to walk my dog during the day as there are less people and dogs on the beach and it better fits into my routine (For example, I am almost 65 and go to bed early so I don't want to be dog walking after 8pm). I don't think it is a good idea to force dog owners to all walk their dogs at the same time; it makes more sense to have less dogs on the beach for longer periods of time.</p> |
| Daylight Savings Rules | Dislike them | |
| Off-leash (all times) | Love them | |
| On-leash (all times) | Dislike them | |
| Exclusion (all times) | Loathe them | |
| Grassed Foreshore | | <p>I regularly walk my dog between the Largs Bay and Semaphore jetties. My current dog is very placid but large so, I walk her on the lead in these areas as I now that people can be nervous of large dogs. However, I always walked my previous dogs, Cavalier King Charles Spaniels, off the lead in these areas and they brought a lot of joy to people. Dogs usually use more energy when off the lead and they have more sensory stimulation as they are free to sniff.</p> |
| Current Rules | Love it | |
| On-leash around jetties | Loathe it | <p>This is a good off leash beach for dogs (the dunes prevent dogs leaving the beach). I think it is just confusing and unnecessary to have two different rules for the beach. Most owners already attach the leash as their dogs approach the exit to the beach without this rule (due to snaes in the dunes, dogs and people entering the beach through the dunes and the car park)</p> |
| North Haven | | |
| Current Rules | Love it | |
| North On-leash | Loathe it | <p>This is rules for rules sae and not necessary, just confusing for dog owners.</p> <p>As jetties are at exits to the beach, dog owners already re-leash their dogs or ensure control at these points.</p> <p>Instead of making life harder for dog owners, dog owners should be supported as dogs bring huge mental health and exercise benefits. In many countries in Europe, dogs are allowed 'everywhere' (trains, buses, underground trains, hotels, town centre, public right-of-way footpaths in the countryside). If anything, Australia should be relaxing it's rules regarding dogs.</p> |

| Concepts: How do you feel about... | | There should be both dogs off leash areas and daylight savings rules. Responsible dog owners will ensure there won't be any problems, but there will sometimes be issues with irresponsible dog owners. Unfortunately this will always be the case but that's no reason to punish all dog owners and their dogs. Perhaps the council could increase patrols when the beaches and grassed areas are particularly busy to create a presence which will deter bad behaviour. Let's keep the PAE area dog friendly please! |

| <p>Very difficult to provide general feedback about this entire thing. For example how difficult it would be for MANY residents to easily provide feedback.</p> <p>If this is all about dealing with problem dogs, perhaps creating a policy around that would be more effective than potential bans on off leash dogs that are to the most part extremely well behaved. Having lived in semaphore for 45 years we have never been attacked or harassed by dogs on the beach, so quite a good record to date. I would indeed be very sad to see semaphore become less dog friendly</p> | | |

| <p>Option 1. I have lived and frequently use the the coast for over 40 years and have not encountered an issue with the current rules and dogs on leashes. It seems to be one that works and allows dog owners time to walk their pets during reasonable times.</p> <p>This is not only my opinion but maybe a list of breeds that should be muzzled on the beach during unleashed hours as there are a lot of new and different breeds which have lock-jaw which is something to consider if there is an incident.</p> | | |

| | Reasons to Visit (reasons don't visit): With my adult friends and family; To walk my dog(s); To exercise() | |
| Concepts: How do you feel about... | | My family walks our 2 dogs at least once a day on the beach. It is a time when our dogs can explore and get much-needed exercise. Being confined to a leash would mean they get next to no exercise at all. It's also a time they can make new friends. In the thousands of beach walks, we have never witnessed a single incident with any dog, and especially in the warmer weather there are always lots of dogs on Largs Bay Beach (and previously Semaphore South where we used to live). As much as I would love to walk our dogs at any time off-leash, I am happy to compromise by abiding by the current daylight saving hours. There are hardly ever any people without dogs on the beach before 10am, so to ban the thousands of dogs from being able to run, chase a ball and swim is completely at odds with what is actually happening on our beaches. It is one of life's great joys to watch dogs run freely. To take this away would be madness. |

| Semaphore South to Breakwater | | |
| Current Rules | Like it | As I like to go for long walks along beach with my dogs,it would be very inconvenient to put on leash at certain areas, especially during winter when beach use is dramatically used less than in summer.More consistent when all beach line has the same rules. I strongly believe dog owners are very good at following current rules (anybody can see that by visiting the beach before 10am during summer with all the dogs running about,and at 10 the dogs mostly disappear). It seems silly to change something that works |

| Concepts: How do you feel about... | | <p>My comment only relates to North Haven Beach.</p> <p>I live on North beach and have both large and small dogs and I walk them twice daily. I agree that all dogs must be under effective recall and control at all times from both other dogs and humans. I have lived with Option 1 for over a decade and it works as there is a dog walkers community here. After 10am, during Daylight saving, it is generally too hot for dogs anyway.</p> <p>I am also ok with Option 2 as this proposed on leashed area is where the Surf Club has flags over summer and where people view Ships and fish off the rocks. But I do think that this proposed onleashed area should only apply to the Daylight saving months but this isn't an option.</p> <p>To conclude, Option 2 is a great compromise for all. Dogs then have a large open area to run free, and the onleash area, where most visitors to this beach swim and picnic gives non dog lovers, families, rock fisherpersons and ship viewers a dog free safe area are to relax in.</p> |

| Semaphore South to Breakwater | | I feel strongly about this issue ... I understand a small portion of the community does not like dogs, and although I am not a fan, I understand why we have the current 'dogs on leads' during the warmer weather. However, in winter and on cooler days (incl last week and the week before) there are no families, group gatherings, picnics ... there are only dog walkers!!! The most obvious answer to all of this is ban dogs off lead all year round between Semaphore South and Semaphore Jetty, stick with the current rules from Semaphore Jetty towards Largs Jetty and allow dogs off lead and properly controlled all year round from Semaphore South heading towards Semaphore Park to Marani Court Reserve. That provides a solution for all beach users, without discriminating against any part of the community |

| Concepts: How do you feel about... | | <p>if people are aware that a certain beach allows dogs off lead, but under effective control, then it is their choice as to whether or not to use said beach for recreation. Making all beaches 'dogs on leash at all times' removes the enjoyment for the owners & the dogs. Dogs love to run free & most of them enjoy a paddle or swim in the ocean to cool off or just for fun. Dog parks are great but don't have the space for people to walk & get exercise as well as their dog. Daylight savings off /on lead times are acceptable, but would be preferable to have a beach in that area where dogs can run free (under effective control) at all times. 8 pm is a little later than i would like as I get up to go to work at 6 am.</p> |

| Daylight Savings Rules | Can live with them | The flexibility of being able to walk/exercise my self and my dog is important because I work during business hours. My preference would be to be able to have my dog off leash at anytime time but realise that not every dog owner is responsible. The best outcome would be to keep the rules as they have been in the past and this would accommodate the majority. |

| | | Reasons to Visit (reasons don't visit): With my young family; To walk my dog(s); To exercise() | |
| | Concepts: How do you feel about... | | It would be great to have an area that is leash free all year round up in this part of the foreshore. There is a section down in west beach and it works really well, but it is a bit far to drive with a young family and a dog when there is a perfectly good pretty quite bit of beach up in Taperoo that would be perfect for the same situation. |

| | Current Rules | Love it | Option 1 is a massive reason we love this area and choose to stay in the area. We have friends from other regions come down to visit to walk their dogs with us off leash! Option 2 is very restrictive - especially during the winter months when it is very rare we see other people without dogs on the beach. We walk our dogs down the beach 2-4 time a week as we live in a house with a small back yard and they enjoy the freedom of running around sniffing not being restricted by their lead. (We have two Dachshunds) |

| | Concepts: How do you feel about... | | The main people enjoying the semaphore beach in the mornings (before 9am) are dog walkers who want to exercise their dogs off lead. A change to the rules where dogs cannot use this stretch of beach off lead at all will not benefit anyone and will impact many local residents who use the beach every morning and have always diligently abided by the rules. | |

| <p>I think it important for dogs that are not friendly with others to be able to be identified. Unfortunately people take their dogs out, do not have command over them, some owner =s can barely maintain their dog on a leash, yet choose to have a large dog that does not mix well with other dogs. I think it is important to educate owners that if they are using dog off leash areas they still need to be in control of their dog and it doesn't they can be on their phone, running and completely unaware of their dogs location. I own a dog who is friendly with other dogs but I will still ensure they are under my command and in my sight however I have had difficulty trying to get others dogs away from my dog and owners who are difficult to locate to collect their dog. This education is important because it in unfair to tar all dogs with the same brush, its irresponsible owners that make it difficult for everyone.</p> | | |

| <p>Allowing a family to only walk the dog off leash, where they can get the most exercise, only after 8pm or before 10am isn't practical for families who work and have children. I feel it not only accomodates retirees or the non working population. I think it is more important to educate families about being a responsible dog owner by picking up after them and ensuring birdlife remains protected. There is insufficient light after 8pm not only for walking the dog for some of the year but also it endangers our birdlife as you cannot ensure you are able to have light to identify any hatchlings or small birds that must be avoided</p> | | |

| Concepts: How do you feel about... | | <p>There is almost nowhere where I can play with my dogs off leash, please let me play with my family without being tied. I can't have kids, dogs are my only family. Human families have so many places to play. I want to be able to be with my family on the beach too. Please allow us that freedom. A single all year offleash dog beach is all I ask.</p> <p>Don't punish well behaved dogs because some humans don't like dogs. Let us share our home. Off leash dogs doesn't mean danger. It just means dogs are happy too</p> <p>Please let off leash all year round. It's the only beach that hardly anyone goes to unless they have dogs anyway, the dogs can't run away to different beaches it's the perfect place for a all year off leash beach. Let dog families have a play space at the beach!!!</p> <p>Stop excluding dogs. They are family too.</p> |

| | Concepts: How do you feel about... | | I feel there is currently a good balance with the dog on leash laws currently in place. The hours for dog owners to use the beach is fair and doesn't overlap with other beach users without dogs. I am also open to the idea of an off leash area at all times, especially in winter where beach use for swimming is minimal. I think a good off leash area would be near the break water at Taperoo. The beach is extremely smelly and not good for swimming. It is more suited for dogs to run around and play. |

| Concepts: How do you feel about... | | The current system of dogs on leash between 10 and 8pm during daylight saving time has worked well for the decades it has been in use. So this is the main strategy I would support. However as a person who mainly walks the dogs in the evening, the weeks at the beginning of and end of daylight saving are dark at that time (ie 8pm) so i would favour the time limit going to 7pm, not 8pm. Or link it to sunset eg an hour before sunset. |
| Daylight Savings Rules | Love them | |
| Off-leash (all times) | | |
| On-leash (all times) | Loathe them | |
| Exclusion (all times) | Loathe them | |
| Grassed Foreshore | | Prefer option 1, it gives dog owners who live close to the jetties the option to be off lead at the designated times. There are usually only a lot of people around those areas on very hot days, and around Semaphore jetty in particular. |
| Current Rules | Love it | |
| On-leash around jetties | Dislike it | |
| North Haven | | This is about education. Both dog owners and beach users without dogs need to be educated about behavior around each other. If it is busy with families with children at the north end, I would usually keep my dog under close effective control or on lead. But that is usually a much smaller area than option 2 is indicating. |
| Current Rules | Love it | |
| North On-leash | Loathe it | |
| Semaphore South to Breakwater | | In favour of an off lead at all times north of Straithfield Terrace to accommodate people who are unable to walk their dogs in daylight savings times. The exclusion zones around the jetties seem a too wide at 500m. How will these zones be managed? Therefore still prefer to have the daylight saving rules Option 1 current rules |

| Concepts: How do you feel about... | | Unfortunately even with current rules about dogs on leashes, many people ignore this and their dogs, often large dogs, are off leashes and not controlled. Young children and others are vulnerable. Some dog owners are not doing the right thing and do not pick up their dog's poos and others pick it up and throw their bag onto the ground or beach. |

Whilst I understand the concern ref dogs off leash on the beach as far as I am aware there have been no attacks by dogs on these metro beaches. In winter and during inclement weather the only people on the beach are dog walkers, who often help keep beach clean picking up litter. To have dogs on leash the whole time would severely limit the exercise of both dogs and owners. The current rules work well but a dedicated beach or area for dogs off lead all the time would be fantastic for everyone and allow those who have concerns about dogs to stay away from these areas.

This beach is not used by many people and to have dogs on lead at all time sin certain areas is ridiculous, no one else is there most of the time.

| Current Rules | Love it | Personally believe kept the way it is best. As a young family with no backyard we visit the beach multiple times a week during the warmer months. Even with the current on leash rules we have had multiple incidents with dogs who were meant to be on leashes (one dog jumped up on my toddler and knocked her to the ground, another came running into our beach tent again freaking out the kids). We have also witnessed numerous dog fights and seen some serious lack of dog control. We have friends who will only walk their dogs when other dogs are meant to be on leash due to issues they have had as well. I have absolutely no issues with dogs, and would love a dog if we had a suitable house other there is some terrible owners out there who think everyone loves their dog and happy to let them roam around with little to no control and ruin the beach experience for everyone. |

| Concepts: How do you feel about... | | <p>Nearly every day time I visit the beach with my young daughter I don't feel safe with the dogs off lead and far from their owners. When I had a dog for 12 years dogs would often be off lead when they are meant to be and I come up to my dog and I don't know if that dog is safe. My little cavalier dog (that passed last year) was attacked by a Doberman at the dog park behind the otr. Couldn't get him out of the dogs jaws for what felt like forever, luckily he was ok. The dog was unregistered. I don't trust dog owners to do the right thing because I have witnessed too many owners not following the rules. Too many dog attacks. Look at the ads now running on TV. Beaches belong to everyone and they have a right to feel safe, including dogs feeling safe. There is no need for a dog to be off a lead on beaches. There are long leads or dog parks. Please do not section off whole sections of beach for off leash 24/7 as it will create anti social behavior of dog owners thinking they own the beach.</p> |

| North Haven | | <p>This question does not have the option to express your dislike of day light savings on leash times - for the reason that you believe they should be onleash all the time or the hours should be a earlier and later (9am-10pm). Lots of young children are on the beach in summer before 10am because it is so hot, not so many young kids after 10pm! That time needs to change to earlier if you are going to propose certain off leash times. Young children are a group that are most at risk to dog attacks.</p> |

| Concepts: How do you feel about... | | <p>I am very concerned about PAE council plans to make dogs be on a leash at the beach at all times. I believe the current rules work well and provide a nice balance allowing times for dogs off lease and family time at the beach. I bring my dog from outside the council area 3 times a week at least to Semaphore beach as it is such a lovely area and community. I will also get a coffee and buy local produce in the shops there.</p> <p>If the rules were to change to have dogs on a leash at all times I will have to go elsewhere. I think you also need to consider the impact on local businesses. Semaphore is a thriving community with lots of dogs and I fear you will loose some of that if you change the rules.</p> <p>I respect the requirement for families to have time on the beach with small children who don't have to worry about dogs off lead. That is why I think the rules work well as is.</p> <p>I don't see the need to change them.</p> <p>Please leave the restriction rules as is.</p> <p>Thanks Wendy</p> |

| Concepts: How do you feel about... | | Understand not everyone likes dogs, however in a public community outside space owners should be able to take their dogs to any beach on leash. As a dog owner it is important to me when there are times for off leash for dogs and community to interact. Not all individuals have access to transport to be able to access alternative beaches where different regulations apply. Thanks for your consideration. |

| Concepts: How do you feel about... | | Dogs off leash under effective control, how do you define that? My concern is that effective control could rapidly become uncontrolled. We've had to deal angry dogs off leash and it's not fun. We have 2 young kids (5 and 1yo) and a small dog, and to be frank the idea of a large dog off leash on these public areas is scary |

| Concepts: How do you feel about... | | Hi, I walk and run my dog at North Haven Beach. I like the current situation referring to dogs on leash for daylight saving hours. It gives us dog walkers enough time to run our dogs on the beach before 10am. I have 3 year old dog that I have been taking to North Haven Beach about 3 to 4 times a week, mid week between 9 and 10am and most people on the beach at that time are other dog walkers. Leave the conditions for dogs off leash for the whole beach as the current conditions. It gives us plenty of time to walk/run our dogs and have them off the beach by 10am. Regards, Neil. |

| Concepts: How do you feel about... | | I like the idea of dogs being allowed everywhere on leads, however near build up areas they should remain on leads (near Jetty's) North Haven beach should be, dogs off lead allows always Mon-Fri - dogs should be allowed off lead during the day in zoned areas between semaphore and largs and surrounding non build up areas on beach. Weekends to remain as the current daylight savings hours on lead (except for North Haven) |

| Concepts: How do you feel about... | | I believe that allowing dogs to be off-leash at all times will help spread out the times people take their dogs on the beach. A lot of people with young kids like to go early in the morning and dog walkers are also allocated this time as their only option. If dog walkers can have their dogs off leash any time they wish this will stop the beaches from becoming over crowded with people and dogs at the same times. |

| Concepts: How do you feel about... | | Dogs should be able to run free under control in all areas when it is not busy. Daylight saving rules work at the moment but I have never seen a compliance officer enforcing them, especially during busy times. Most days it feels like a private beach as there are no other users. Don't penalise the responsible dog owners. Irresponsible dog owners will ignore any rule you have in place. |

| Grassed Foreshore | | Once again, there are times when there are no other users with the current rules. Don't break what doesn't need to be fixed. I would like to see the statistics of usage as opposed to the perception of usage. We often throw a ball on the grassed areas for the dogs to retrieve and only do this when there are no other users - and this occurs a lot. I have never seen a council compliance officer when I have used the spaces. Dogs on lead on the shared walkways/bikepaths is just common sense. In my 40plus years of living in the area and walking my dogs at least every second day along the foreshore and beach areas I have only been bothered once by a dog. Very very very low statistics when working this one out... But I am a responsible dog owner. Once again, don't penalise those that do the right thing. Send compliance officers out in the busy times to enforce the law/educate irresponsible dogs owners instead. |
| Current Rules | Love it | |
| On-leash around jetties | Loathe it | |
| North Haven | | North Haven beach even more so is a private beach in winter and even in most of summer. No-one about at all. Don't penalise responsible dog owners for the irresponsible dogs owners that will ignore your new rules if implemented anyway. |
| Current Rules | Love it | |
| North On-leash | Loathe it | |
| Semaphore South to Breakwater | | Same as other responses. Winter, working days, cold summer days it feels like a private beach as there are no other uses. Let the responsible dog owners let their dogs off lead during the less busy times. Keep the rules as is but send compliance officers to patrol the beach during busy times to educate/enforce the laws with the irresponsible dog owners. Never seen a council Compliance officer in my 40 plus years of using the beach. 500m either side of Semaphore and Largs Jetty as an on lead area is a joke as it effectively means there are no off lead areas in this strip of beach, which is where we live and walk the dogs. Please contact me to see ample photographic and video evidence of us and the dogs being the only beach users on very beautiful days where one would expect there to be other users. |

| Concepts: How do you feel about... | | <p>Dogs should be allowed on beaches at all times. These are important areas to walk dogs freely off leash. I've not seen one dog run through dunes or protected areas unsupervised. They just want to play and swim. Bins on the beaches like the ones at west lakes shore and Tennyson encourage dog owners to pick up after dogs, and human rubbish too.</p> <p>Would prefer all grassed areas to be off leash however option 2 is sensible due to the increased pedestrian and cycle traffic around jetties.</p> <p>Option 2 is the sensible one for all.</p> |

| | Reasons to Visit (reasons don't visit): With my adult friends and family; To exercise; For recreation() | |
| Concepts: How do you feel about... | | I believe that dog owners in our area are responsible and their dogs are well behaved. I'm at the beach almost daily and from what I've seen, a vast majority of people have trained their dogs and pick up after their dogs. I don't have a dog at the moment, but I love them and it makes me happy to see them running and playing at the beach. I do believe that a responsible owner would never keep the dog off leash anywhere if they knew the dog has behavioral issues or isn't trained. Allowing off leash dogs in all areas doesn't mean everyone will have the dogs roaming around regardless. If there were some irresponsible owners, they should be fined just like in any other case. This Earth is meant for all living beings to live freely on. And learn to coexist. I would like to hope. |

| Concepts: How do you feel about... | | I agree with the daylight savings rules, however they are not policed enough so are therefore ignored by a vast group of dog owners. The shared paths may be on lead areas - however since the rule change there has been no signage put up so from Largs to North Haven people are still walking their dogs off lead & I have been abused multiple times for asking people to put their off lead uncontrolled dog on lead. |

| Concepts: How do you feel about... | | I think it's sensible to have areas where dogs have to be under control - on leash during high use times, alongside areas where people can choose to go with their dog off leash if they feel confident in keeping their dog, other dogs and people safe. I support the current day light saving rules so families and people can enjoy the beaches during summer days and dog owners still have the option to walk their dog off leash early morning and late arv/evening and all the time during winter. |

| Grassed Foreshore | | The grassed areas on the foreshore are places for picnics, kids playing, people sitting and gathering. I think it's fair enough that dogs can be there also but on leads so people can relax and enjoy themselves without worrying about dogs. So long as dog owners have other options reasonably close by (ie enough places) and enough times during the day to have off lead time with their dog on the beaches and swimming etc, it's fair enough to have dogs on leash at all times on the grassy reserves on the foreshore. Perhaps in winter the dogs off leash daylight saving rules/times could apply to the grassy reserves areas, when those areas are not being used as much by people. |

| Semaphore South to Breakwater | | Unfortunately, some dog owners do not manage their dogs effectively to allow off leash at all times. Over 20 years I have observed increasing number of negative interactions of dogs and their owners with people, other dogs, wildlife (incl seals and endangered birds). There is a significant coastal dune environment north of Taperoo which should be protected. Furthermore I have seen how off leash rules can ruin a beach for other users. My Victorian family live near a beach which used to be much loved by families, caravan park users and residents. It got turned into an-off leash beach and made it unsafe, unpleasant, littered with dog faeces due to some poor dog/owner behaviours. There are many responsible dog owners, clubs and friends who share the beach safely with other users. Unfortunately, its the bad ones who ruin it. Continuation of current daylight savings rules and on-leash around high use areas (including if there's sand carting and sailing competitions) is best. |

| Dog ownership: Yes | Relationship with dogs: I love dogs | |
| | Reasons to Visit (reasons don't visit): With my adult friends and family; To walk my dog(s); To exercise; For recreation() | |
| Concepts: How do you feel about... | | Daylight savings rules: I walk on the Semaphore to Largs beach every day and have done so for many years. I have not at any time encountered any issue or reason for changing the current rules which balance the interests of the overwhelming majority of beachgoers. |
| Daylight Savings Rules | Love them | |
| Off-leash (all times) | Like them | |
| On-leash (all times) | Loathe them | |
| Exclusion (all times) | Can live with them | |
| Grassed Foreshore | | Off-leash all areas: Dog-owners unable to access the beach need suitable accessible areas to exercise their pets. Ideally people with mobility and accessibility issues should not be faced with restrictions that make it more difficult or potentially impossible to exercise their dogs. |
| Current Rules | Love it | |
| On-leash around jetties | Can live with it | |
| North Haven | | North on-leash area: to be effective this option will require additional council expenditure on signage and policing which is an imposition on ratepayers that appears completely unwarranted and unjustified. |
| Current Rules | Love it | |
| North On-leash | Loathe it | |
| Semaphore South to Breakwater | | On-leash around jetties: use of beaches outside daylight savings months is predominantly by dog walkers. I have never witnessed or been made aware of an issue that would warrant this inconvenient restriction during this part of the year. When daylight savings rules apply, all beach areas are on-leash from 10am. From personal observation, beach use by people other than dog walkers before 10am is minimal. Current arrangements are effective, but if a compromise is unavoidable it should not go beyond an extension of hours by no more than 2 hours morning and evening to preserve continuing access to an off-leash window that does not impact the overwhelming majority of other beachgoers. An unrestricted off-leash area north of Taperoo may be beneficial to people unable to access other restricted off-leash areas if they have the mobility / transport to do so (which many do not), but this must not be at the expense of reasonable off-leash access to jetty areas. |

| | Concepts: How do you feel about... | | Dogs should be on leash at all times in areas where there is also a shared path with people and bicycles. At the beach: daylight saving rules should consider days with very hot temperatures, when lots of people are still at the beach till late so - during these days - dogs should be allowed just till 10am (no after 8pm). |

| Dog ownership: Yes | Relationship with dogs: I love dogs | |
| | Reasons to Visit (reasons don't visit): To walk my dog(s) | |
| Concepts: How do you feel about... | | <p>Agree with Dog on Lead around Jetty areas as people deserve the ability to visit the beach without dogs running around. Happy with the daylight savings rule however sometimes 8pm is too late in early and late summer as the sun has set before then. The Off Lead PM timing would be best on a sliding time scale to ensure dog owners have at least 30 minutes before sunset. In early summer and late summer, I find that the sun has set before 8pm rendering the beach walk not achievable. A designated off lead at all times area of the beach is a great proposal like West Beach. In summer I tend to travel from Birkenhead to West Beach just to avoid awkward confrontations from no-dog people. At West Beach there are no such confrontations. A dog off lease portion of a beach (that is sign posted) resolves this conversation. Sign posting is essential as it resolves all awkward conversations. If the rules were to change to on leash at all times on the beaches I would definitely move to a new area</p> |

| Grassed Foreshore | | <p>Happy with on lease at designated areas. Very logical and resolves the issue between dog owners and non dog owners. The majority of people tend to visit the Jetty areas and deserve the ability to use the area without free roaming dogs</p> |
| Current Rules | Love it | |
| On-leash around jetties | Love it | |
| North Haven | | <p>Agree that the main area where people congregate should be dogs on leash. The area to the south can be off leash and happy with daylight savings rules except that it could be modified to 30 minutes before sunset for early summer and late summer</p> |
| Current Rules | Love it | |
| North On-leash | Love it | |
| Semaphore South to Breakwater | | <p>Happy with Option 1 and 2. I think that leashing around Jetties works and allows people to visit the beach in peace. Option 3 is not clear to me therefore I have selected Loath it. I am very happy with on leash around jetties, however you need the southern beaches to also be off lease during the less busy times as I am very aware of people living near the southern beaches walk to the beach. If off leash was only available north of Taperoo this would cause more people to have to travel to the beach in their cars. My interpretation of Option 3 might be wrong. I think the timing before 10am off leash works, however during early and late summer the 8pm rule doesn't always work when the sun sets before 8pm. Better option would be 30 minutes before published sunset times. If Off Leash was not available on City of PAE beaches I would definitely move to another area. West Beach as an off-leash beach at all times works well. A West Beach like option would reduce the issues dramatically.</p> |

| Concepts: How do you feel about... | | It is disappointing to see my tax dollars wasted on this effort. There is no problem to solve. Anyone who spends time on the beaches or foreshore, as I do, can plainly see that. This is the kind of government meddling that has lead to widespread mistrust (and worse) of government. If the Council actually cares about their reputation and wishes to protect their ability to be respected on issues which truly matter, they would be wise to leave non-issues like this alone. |

| Current Rules | Dislike it | Hilariously stupid idea. This section of the beach is, by far, the least used area of the beach. Enforcement of any rules in this area in this area is extremely difficult and serious efforts to do so would be an epic waste of public money and resources. Anyone who spends time in this area will observe that the existing rules are largely ignored and any new rules will be as well. |

| Concepts: How do you feel about... | | <p>The beach and environs is for everyone. I have lived in the area for 36 years and had a dog for 16 years who died just before covid hit. We were down on the beach virtually every day of her life but I still swim in summer and walk every week.</p> <p>The local community know each other and chat smile, it is a very special space as our beach is so vast and family friendly. To make laws above the current daylight saving laws is so small minded. I believe that most of this is new look at changes is based on absolute minimal negative interactions, albeit some no doubt very sad outcomes. Perhaps 0.1% of dogs down at the beaches of Semaphore and Largs who are there regularly involved?? My border collie dog was there for her exercise and no way would she have been able to live her life out if she was on a lead. She ran and swam and the only bad gigs we came across in all that time was three fights bought on by other dogs, quickly ended before any injury.</p> |

| | | Reasons to Visit (reasons don't visit): With my adult friends and family; To walk my dog(s)() | |
| | Concepts: How do you feel about... | | There wasn't an option for no preference. I own well behaved dogs but believe many owners don't do the right thing, can't control their dogs and don't read their behaviour well. I like leash laws but I'd also like to be able to use long leashes for more room for play and swimming. I've seen an increase in owners walking their cats. I believe leash laws will allow this to be further enabled which is a good thing. I also believe there should be some flexibility and some off lead areas, as some dogs can become more reactive when they are on a lead so some owners may prefer off lead locations as a more suitable option for their pets. I'd honestly recommend dog leash areas for the majority of the time with some areas being off leash or areas being off leash during certain times. I'd also discourage the limitation of non dog areas as generationally research is starting to show the younger generations are not having families and are prioritising pet friendly locations and options. |

| Concepts: How do you feel about... | | I think it's totally within reason for people to be able to have allocated time to have their dogs off lead, but not at times. We frequent the beach around semaphore and largs and often have trouble with dogs off lead trying to take our food and scaring our young children. I love dogs, and believe their should be times for them to roam free on the beach, but not at the risk of babies and young children's wellbeing |

| | Concepts: How do you feel about... | | I will be emailing a detailed submission on behalf of BirdLife Australia. Our preferred options are North Haven - Option 2 - North on leash area and Semaphore - Option 2 On-leash around jetties. Unfortunately the options do not go far enough to protect wildlife on all PAE beaches as is required by land managers under the Environment Protection and Biodiversity Conservation Act 1999. This is explained in detail with recommendations in our submission. Kind regards, Deborah Furbank |

| Concepts: How do you feel about... | | <p>Unfortunately dog many dog owners think everyone else loves their pets as much as they do. Ive experienced several instances where dogs off leads have come up to me, and my children, intimidated me, and been told "he wont bite". We cant be certain any dog owner is responsible and the outcome of a dog turning on anyone, especially a child can be catastrophic. There is no reason people cant walk their dogs on a lead and if their dog requires large areas to run free then it is not suitable for suburban areas.</p> |

Hi I love seeing dogs on the beach and I feel they have their times to be off the leash already. I often feel unsafe if a big dog can just run up to me when I am on the beach and also when riding my bike I am afraid of crashing into them as they often are not sensible in regards to bikes. Please keep the dogs on the leash between 10am and 8pm and I will feel that we all have our times then. Why do they need to extend this in anyway. Dogs love being out early or late as the path and the sand gets hot too. I do like dogs and feel that they need to be allowed on beaches off the leash for fun and exercise, but I don't see why we should feel restricted by opening up the times any further.

I feel the grassy areas are also for the children not just dogs. Families often have picnics and play in the sandhills. We don't need dogs off the leash where family have food etc. This could be a disaster and also the dog poo is everywhere. They should not be allowed off the leash between 10am and 8pm anywhere

I feel that dogs should never be off the leash after 10am and before 8pm at all times of the year. Why would we allow an area of the beach where some people may fear to go...no! Dogs don't need any further changes, they can go in the designated times...before 10am and after 8pm

| Concepts: How do you feel about... | | <p>I believe the current rules work well and are in line with other metropolitan councils. Most of our local community walk their dogs before 10am, plenty of time to be off the beach before other users. It's generally too hot and too busy after 8pm and most locals wouldn't let their dogs off the lead in this situation.</p> <p>The proposed off leash area is too far to walk to. I don't like these areas and dog parks as people tend to let their dogs run unattended.</p> <p>I don't agree with on leash all times and dog exclusion areas all year as the beach is virtually empty during winter. We use the beach all year round no matter the weather to exercise ourselves and our dogs. A lot of people walk their dogs before they go to work even when it's dark and inclement weather.</p> |
| Daylight Savings Rules | Love them | |
| Off-leash (all times) | Dislike them | |
| On-leash (all times) | Dislike them | |
| Exclusion (all times) | Dislike them | |
| Grassed Foreshore | | <p>I know that the grassed foreshore reserves are very busy in summer and understand the need for dogs to be restricted at these times. However in winter the beach is sometimes hard to access for elderly people and those with mobility issues. There aren't many people around in winter except for dog and solo walkers so I don't agree on restrictions during these times.</p> |
| Current Rules | Like it | |

| North Haven | | |
| Current Rules | | |
| North On-leash | | |
| Semaphore South to Breakwater | | <p>I agree with Option 1 as I believe the current rules are working well. Other beach users have the majority of daylight hours and most people walk their dogs before 10am.</p> <p>It works well as there is plenty of time and space for everyone to enjoy.</p> <p>Option 2 has some merit but I can't agree to it because it is all year round. The beach is virtually empty in winter. Also I can't agree when the distances around the jetties haven't been decided upon. If it was daylight savings only and the distance around the jetties was reasonable I could give it more support.</p> <p>The proposed off leash area is too far to walk to and then back again and driving isn't a feasible option. Also the facilities are limited with no public toilets, bins etc. Dog parks and restricted areas can be quite intimidating for some dogs, especially with inattentive dog owners.</p> |

| | Concepts: How do you feel about... | | I can't see how you will enforce the proposed on-leash rule near jetties? How will dog owners know where the "line in the sand" is? I see young families heading to the beach at 8am on hot days, dogs are off leash then. As a rate payer (of 32 yrs) I don't understand the Councils willingness to risk litigation by allowing this. A better solution is all dogs on leash on the grassed areas and beach around Semaphore and Largs Bay. I see you state dogs must be on a leash on the bike/ walk path but I see dogs off leash everyday, the regulation is not monitored or enforced(how many warnings/ fines have you issued?{. |

| | | I see this as a compromise. It gives dog owners a beach to have dogs off leash but I would like to see all other beach areas on leash at all times. Possible dog attacks are a liability the Council should not ignore. I can't see how the Council will enforce the boundaries suggested near jetties, especially when the regulation on the shared path has not been enforced during the 32yrs I've lived in Semaphore. | |

| | | Reasons to Visit (reasons don't visit): With my young family; To walk my dog(s); To exercise; For recreation() | |
| | Concepts: How do you feel about... | | The rules above are adequate. The issue I have is that some owners haven't properly trained their dogs or adequately socialised them from an early age. Owners, like myself, have put time and effort into doing so in order to have our dogs enjoy our local area but are well trained and friendly. Some dogs scare me and my young children when they are off leash. It is also becoming more apparent that some owners are not picking up after their pets. |

| Concepts: How do you feel about... | | I love dogs, I don't trust them around small children and we have had a couple of horrible experiences with dogs off leash coming up to my children and eating their food, chasing the kids when they get excited and weeing on our things. The owners ALWAYS say 'they're harmless' and 'oh well' when clearly don't have adequate control of their off leash dog that they have enabled to come over to us. I love the beach and shouldn't have to be worried about my children being injured by dogs with irresponsible owners so the more on leash areas on beaches the better. |

| Concepts: How do you feel about... | | I am a dog trainer and own a human and dog reactive dog. When I walk my dog on the beach he is always on lead and muzzled for the communities safety. He has been rushed by uncontrolled off leash dogs on numerous occasions. If it weren't for his muzzle and effective control I have with him he would almost certainly injure the off lead dogs who rudely rushed up to him. As a result, we do t visit the beach as often as we'd like to, which is a shame because he loves the beach. It seems unfair that our movements are restricted despite abiding by all laws and regulations for dog ownership on public property while other people can take their unsocialised untrained dog to the beach and let them off lead. More education needs to be done around what "effective control" means. I am tired of hearing "Don't worry, he's friendly" while an overaroused golden retriever barrels towards my fear-reactive dog on the beach...yet if my dog defends himself, he's the bad guy. Doesn't seem fair does it. |

| Concepts: How do you feel about... | | I live on the beach but unfortunately, I can no longer go for a run on my local beach due to dogs that are not on leashes and run up to me barking. I've asked several owners at different times, to put their dogs on a leash but they will not. They have said their dogs don't like me running, or told to just get over it. Even when I walk on my local beach, dogs off leashes come running up, jump on me and scratch me, or bark at me and scare me. I love dogs, but I don't like owners that do not control their dogs. Therefore I would like to see dogs on leashes so people can enjoy the beaches. |

| Grassed Foreshore | | Unfortunately, people do not have control of their dogs. People allow their dogs to run around and jump on people, scare people by barking at them, and knock small children over. I have had dogs growl and snap at me, scratch me, jump on me and almost fell over. I asked the owner to put their dog on a leash but they say their dog is just playing and to get over it. The next door neighbour has a small dog and a big dog off its leash attacked it and it had to be rushed to the vet to have stitches. Dogs off leashes is not a good idea. |
| Current Rules | Loathe it | |
| On-leash around jetties | Love it | |
| North Haven | | Dogs on leashes is preferred as people generally do not have control over their dogs. They run around jumping on people, knocking kids over. The dogs on north haven beaches is out of control. |
| Current Rules | Love it | |
| North On-leash | Love it | |
| Semaphore South to Breakwater | | I think dogs should be on leash all times to be honest because unfortunately people do not control their dogs. It is only a matter of time before someone is injured badly or a small child is bitten due to unruly dogs on beaches and their owners cannot control them. |

| Concepts: How do you feel about... | | I have regularly run with a group along the beach from north haven to Largs for many years. There are too many dogs in this location that are uncontrolled and often run towards our group of runners as though we are something to hunt or a target. There needs to be more dog parks and more leashed mandates so the many kids and families e.g. stay at home mums trying to occupy their kids by taking them to the beach can come down and sun bath without a dog coming up and licking their face while their owner is kms away (frequent in this location). Also kids should be able to safely play without coming face to face with uncontrolled dogs while simply playing in the sand. Dog owners in this area effectively take control of the whole beach with only one dog as they regularly have no control over it once it is off and running without leash. |

| Concepts: How do you feel about... | | I believe that the current rules/restrictions work well, dogs currently get less than 30% of daylight hours off-leash on the beach area during daylight saving restrictions. We have worked with this for years, as someone that walks their dog every day, all year round, on the beach from north of the Largs Sailing Club to Tennyson, I don't believe changing the rules will help the wider community. The mental health of some people will be adversely affected, as will the behaviour of dogs. Again, as someone who walks on the beach daily I am yet to see any serious incidents involving dogs, whether it be with humans or other dogs. The grassed areas need to be left alone for those who have mobility issues and can't go on the sand, especially when the blue mat is removed during the cooler months. They allow their dogs to chase a ball, or similar, on the grassed areas, you can't take this away from them because sometimes it's the only time they get to interact with other like minded people. |
| Daylight Savings Rules | Love them | |
| Off-leash (all times) | Loathe them | |
| On-leash (all times) | Loathe them | |
| Exclusion (all times) | Loathe them | |
| Grassed Foreshore | | I do not see the need for restriction to be in place during the "non daylight savings" period. The only people out walking in these areas are dog walkers. I believe that the rules on the grassed areas should reflect the same rules as the beach areas so there is no confusion. We need to adhere to the KISS strategy, with decent signage, pictures that cater to our multi cultural society. |
| Current Rules | Love it | |
| On-leash around jetties | Dislike it | |
| North Haven | | My preference is option 1, option 2 could be considered but not during the cooler months, option 2 is only viable during the daylight savings periods. We need to keep things as uniform as possible without penalising people, and their dogs, during times when they are the only people on the beach. |
| Current Rules | Love it | |
| North On-leash | Loathe it | |
| Semaphore South to Breakwater | | I represent over 520 members of Beach Dogs Of Lefevre Peninsula, we have taken a poll amongst the group and our preference is for option 1, option 2 needs clarification on distances before it can be considered, option 3 is not acceptable because it has the potential to have way too many dogs in a restricted area. We need consistency across the board. |

| Concepts: How do you feel about... | | <p>I find the experience of going to the beach very unpredictable with or without my own dogs. I often see dogs with major behaviour problems (aggressive, barking at children, running away from owners) and actually don't take my dogs down to the beach at all any more out of fear of something going wrong. It seems like a matter of time before it gets out of hand.</p> <p>The beach and foreshore areas should be peaceful, relaxing places. With off leash dogs everywhere it really isn't! There seems to more dogs around than ever before. It'll be great to put some stronger rules in place.</p> <p>I love a good walk every day with my dogs, but I don't want trouble with off leash dogs on every walk! If we do go to the beach, and I keep mine on a leash, I'd love to not be approached by other dogs. It isn't fair for everyone to not be able to go because a few are so naughty.</p> |

| | Reasons to Visit (reasons don't visit): With my adult friends and family; To walk my dog(s); To exercise() | |
| Concepts: How do you feel about... | | Dog off leash areas, not a fan. just because I love my dogs, it doesn't mean everyone else loves them. we have a rescue that was badly injured pre rescue. at a dog park were owners didn't have good recall of their dogs, our pooch had their healing leg re damaged and has since become nervous when dogs run at her. I have owned all my life and the first rule of dog owning is when meeting other dogs they should be introduced on leads not charged at with owners saying its ok their friendly. just like people not all dogs like other dogs and their response can be unpredictable. Many families with young children dont have dogs and can be nervous. My thoughts are dogs in public places should be on leads for the safety of both humans and dogs. |
| Daylight Savings Rules | Love them | |
| Off-leash (all times) | Dislike them | |
| On-leash (all times) | Love them | |
| Exclusion (all times) | Dislike them | |
| Grassed Foreshore | | The grasses areas are also places for families to enjoy the space - therefore dogs should be on leash in all public areas. Keep the dog on a lead and walk with them, both owner and dog have a healthier outcome. eliminates all risk of injury. Cleaning up after your dog is easier when on leash, its harder to pretend it wasn't my dog. have seen so many owners walk away when dogs off lead. |
| Current Rules | Dislike it | |
| On-leash around jetties | Dislike it | |
| North Haven | | option 3 is a solution that would fit for all to enjoy the beach - those who want to run dogs off leash have a designated area and families/ dog owners can also enjoy a pleasant time at the beach with out the concerns of dogs that owners don't have effective control over. |

| Concepts: How do you feel about... | | My wife and I had two dogs for over a decade and one or both of us walked them on the Semaphore-Largs beach daily. Both dogs died in recent years. Also for 20 years I ran several kilometres on the beach before work, a few days a week. In my experience, most dogs on the beach are reasonably well behaved, but there are unpleasant exceptions, especially for runners and on warm weekends when the beach is busier and there are many dogs. I have always favoured (1) an on-leash rule at selected times, and (2) total exclusion of dogs at all times from a stretch of beach, say half or one kilometre long, for the sake of residents and visitors who are fearful of dogs, have small children, or don't enjoy being jumped on -- or threatened -- by a dog, or having wet sand shaken on their belongings, or their clothing urinated on by a dog (quite common!). Thanks for your thorough process with this sensitive issue and the opportunity to comment. |

| Concepts: How do you feel about... | | I love being able to take my dogs on an outing, both on and off leash but also understand that some people may not like dogs being around for various reasons. I think that having balance on dog related matters is critical because it is important to enable dog owners to properly exercise their dogs (particularly noting that houses/yards are getting smaller). Dedicated dog parks are also not suitable for all of dogs and so i do not consider them to be a solution. Having the ability to run a dog in a large open area (like a beach) is essential. I have always considered that the "on leash" rule between 10am and 8pm during the summer months is appropriate, and enables dog owners to then bring their dog to the beach either before 10am or after 8pm (this is a reasonable level of balance to suit everybody in the busy summer months). |
| Daylight Savings Rules | Love them | |
| Off-leash (all times) | Love them | |
| On-leash (all times) | Dislike them | |
| Exclusion (all times) | Dislike them | |
| Grassed Foreshore | | Option 1 is my preferred option. Referring to my responses on the first question, I consider that the "on leash" "of leash" rules of Option 1 create the necessary balance to protect all interests, particularly given that summer is when the beach is most populated. In winter, there is far less traffic and it is appropriate for dogs to be able to be let off leash to ensure proper exercise and socialization. |
| Current Rules | Love it | |
| On-leash around jetties | Like it | |
| North Haven | | As with my answer in relation to North Haven beach, Option 1 is my preferred option. I consider that the "on leash", "of leash" rules of Option 1 create the necessary balance to protect all interests, particularly given that summer is when the beach is most populated. In winter, there is far less traffic and it is appropriate for dogs to be able to be let off leash to ensure proper exercise and socialization. Further, having a leashed zone around certain areas of the beach may create confusion as to the parameters of the rules. |

| Concepts: How do you feel about... | | I believe the current day light savings rules work very well. They provide people who want dogs on leash all times 10 hours of day light, 7 days a week, 6 months of the year for people who like to visit the beach during the more popular months of the year. This is a great restriction which currently works for most beach users in the PAE council area. The other 6 months of the year from April to end September are the quieter months of the year when there are far less people on the beach providing plenty of space between people and dogs that are off-leash and under effective control. |

| Grassed Foreshore | | The current rules of off-leash under effective control areas works well. I dont have a problem with the designated areas for on-leash, however this will need to be enforced by the council and I am not sure that council has the capacity to do this. |

| Semaphore South to Breakwater | | The current day light savings rules work very well. They provide people who want dogs on leash all times 10 hours a day, 7 days a week, 6 months of the year for them to visit the beach during the more popular months of the year. The other 6 months of the year from April to end September are the quieter months of the year when there are far less people on the beach providing plenty of space between people and dogs that are off-leash and under effective control. This provides a good balance for the whole community. The red on-leash zone has too large a distance gap yet to be decided in options 2 & 3 of 150-500m at each jetty. If it is later determined to be 500m at each jetty, this is 1km of a total beach area that is too long, 300m at each jetty would be sufficient. I think the green zone in option 3 will be problematic with off leash dogs being restricted to one smaller zone causing more incidents and people living locally not being happy about having all the off leash dogs |

| | Concepts: How do you feel about... | | I like the off-leash daylight savings, but the times are not always good. At the start and end of daylight savings there is no daylight after 8pm to walk my dog. A better option would be "1 hr before sunset" but I presume that many people around struggle with this variability. Ultimately, this option 3 return an all year dog area is a great solution! Thank you |

| Concepts: How do you feel about... | | <p>Most visitors to the beach and foreshore reserves come during Daylight Savings, between 10am to 8pm, and dogs are currently required to be on-leash during those times. I strongly support this, especially as our beaches are not busy outside of those times.</p> <p>Families who have a fear of dogs can already feel completely confident that if they go to the beach or foreshore reserves between 10m-8pm in Daylight Saving, that all dogs will be on-leash, so I don't see an issue there.</p> <p>However I actually don't mind if dogs were required to be on-leash throughout the year between the hours of 10am-8pm on beaches and foreshore reserves.</p> |

| Grassed Foreshore | | <p>I tend to practice dog training techniques (such as come, etc) on foreshore reserves, but definitely not during the hours of 10m - 8pm in Daylight Savings, and I would still like to be able to practice dog training in those areas. I never let my dog off the leash in those areas to practice training, unless I am confident in the training, which I guess you could say I only do it, if my dog is under 'effective control'. I need to practice this training with my dog, where there are distractions, and the reserves are great for this, especially near the jetties.</p> <p>In summary, I agree that all reserves and beaches should be designated off-leash, but only outside of 10am-8pm in Daylight Savings. I think it is too risky outside those hours of Daylight Savings to allow dogs off-leash as not all owners have their dogs under 'effective control' - and most visitors go to foreshore reserves during 10am-8pm in Daylight Savings.</p> |

| Concepts: How do you feel about... | | <p>With regards if dogs should be on a leash or off a leash at certain times, I would say it depends on what risk there is to the public or the environment. Naturally summer months and high pedestrian/bicycle traffic areas this risk is much higher. So my conclusion is for the beaches during the summer months where there is more people about I am in favour of the current daylight savings rules. For the grass and designated areas where there are people throughout the year, I am in favour of dogs being placed on a leash at all times. This includes Jetties, playgrounds, and cafes and other amenities located on the foreshore. I am not in favour declaring different parts of the beach with different rulings.</p> |

| Concepts: How do you feel about... | | <p>Firstly, I see no logic in dogs being on leash from 10am-8pm in daylight saving periods, outside of weekends, public holidays, and school holidays. There are very few people on beaches outside those times. I have never seen any rationale to this sweeping calendar based rule.</p> <p>Secondly, I believe most of the beach can be off-leash at all times, certainly in winter, and for parts of summer.</p> <p>Thirdly, I believe some areas should require dogs to be on the leash always, such as roads, bikepaths, footpaths, and jetties.</p> <p>Finally, I also agree with some areas, such as food areas, being dog free always, unless the animal is to assist with a genuine disability.</p> |

| Grassed Foreshore | | <p>I think the grassed areas are more likely to have people with families picnicking. I think it is better for dogs to be on leashes, especially in summer holidays, weekends, and public holidays. I have trained my dog and seen others train their dogs, and I have not seen very many dogs which can ever be said to be under effective control in all circumstances when not on a leash.</p> |

| North On-leash | | |
| Semaphore South to Breakwater | | <p>I am baffled by this process. Before anyone changes rules, or asks the public to vote on change, surely there should be a rationale as to why any change is necessary.</p> <p>Is there evidence of problems? If so, what are they?</p> <p>I have no objection to dogs being required to be on leash around the jetties at busy times, ie summer school holidays, weekends, public holidays. But given that dogs are required to be on leash on beaches from 10am to 8pm already in daylight saving periods, what is the point of the new rules? Aren't dogs already required to be on the leash during the peak times for beach use?</p> <p>But I see no reason for such jetty zones outside holidays and weekends in daylight saving times. It is ridiculous to have zones in winter.</p> <p>And if "leash" zones were introduced around jetties, the rest of the beach should allow dogs to be off-leash, since anyone objecting to dogs could go to the jetty zones.</p> <p>As for distances, surely 100m each side of the jetty would be enough - but unnecessary.</p> |

| | Concepts: How do you feel about... | | In my experience dogs of leashes on the beach have not been a problem. What you will find is there are some people who are unable to get to the beach with their dogs prior to 10am and after 8.00pm can be a safety issue. Monday to Friday I have walked my dogs during the day and the amount of people in both summer and winter is minimal and the dogs are not an issue. Walking the dogs on the beach for the last 10 years has provided interaction for both human and dogs. I have made many long term friendships and even had mental health support when my husband died 5 years ago through my dog walking. Off leash provides happier healthier and less vicious dogs that can interact with both their dog friends and humans. |

| Dog ownership: No | Relationship with dogs: I like dogs; I am scared of dogs | |
| | Reasons to Visit (reasons don't visit): To exercise; For recreation() | |
| Concepts: How do you feel about... | | <p>On Monday a 6 year old student told me how scared he, and his little brother, were of all the big dogs on the beach at Semaphore Beach. I have been cornered by dogs, two German Shepards jumped on me at the same time and I've been circled by a barking angry dog who would not respond to the owner. I watched a teenage boy have his boardies ripped by a dog at North Haven. Met an old man taking his great-granddaughter and his dog for a walk, at Taperoo, who was circled by a raging barking dog. I told him contact the council. Council has done nothing. It doesn't matter whether there are dogs on leashes rules, as many people ignore them anyway. Dogs should always been on leashes as there are too many now. I have had dogs, I have been here since 89 and walked the beach with them. Now we have dog parks, use them for off leashes. How come dogs get the best time of day? Before 10 am. Children should have those time. I know parents complain about their small children having dogs run up to them.</p> |

| North Haven | | North Haven Beach dogs should always be on leashes and how about having some time with no dogs allowed at all. |
| Current Rules | Loathe it | |
| North On-leash | Love it | |
| Semaphore South to Breakwater | | <p>Why should Taperoo have off-leash? What to suit the residents at Semaphore. NO. Dogs should always be on leashes. How dare you make our Taperoo beach for people not to have on leashes. What about us who live here? There are dog parks which my rates pay for. Oh and what about the plovers which have disappeared at Taperoo because of dogs? And I have been here long enough to see pelicans land on the beach and dry their wings. Gone. Why dogs. And I was just talking to a neighbour about how the plovers have gone.</p> |

| Concepts: How do you feel about... | | <p>Many dog owners lack of effective control. Most owners let their dogs run free without foresight of what their dog might encounter over the dune when entering the beach or with their dog leading 50m ahead of them.</p> <p>Be that a dog weary child, an unfriendly dog or a dog on lead that doesn't like being approached by another dog. Daylight saving curfews give an excuse to owners to not put their dog on a lead when common sense would suggest. For example at 9.55am when my 3 and 5 year old kids were doing Vac swim at semaphore south they were circled while in class by 2 very large dogs, I challenged the owner and his response was that it was within curfew, I kindly asked him to use his brain and go elsewhere..</p> <p>I have many other examples of unsociable dog owners / dogs however poor practice from dog owners is at the root of it. Basically a lot of dog owners don't use their brains when it comes to controlling their dogs.</p> <p>A bit of presence or even enforcement by council might help 🐕</p> |

| | Concepts: How do you feel about... | | With the increase in dog numbers post covid any increase in restrictions to dog on-leash areas are an extremely bad idea as exercise and social activities for dogs is crucial for their health and well being. Dog on-leash areas are not the answer, education to both dog and non-dog owners is the way to allow both to interact safely. More infrastructure such as doggie bag boxes and water fountains should be prioritised to aid with the increase in numbers. Dogs are a vital part of local members mental health and I have not seen a dog in my many years of living here impact my want or need to visit the area. If anything, restricting dog activities in the area would only detract from my love of the area. |

| Concepts: How do you feel about... | | <p>There are dogs that I love, dogs that I like, there are other dogs I feel indifferent about and dogs I'm not comfortable with. I think the rules of reasonable control of a dog need to be considered. I can't stand dogs with no recall or boundaries.</p> <p>I find the dog rules real challenging within this council area; there are minimal places where one can go and let their dogs run free. My dogs like to go out for a swim and I don't necessarily want to go into the water myself. The beach is one place near home where I can let my dogs run.</p> <p>I dislike dog parks; they are too small and stress my dogs out and are not a healthy environment for dogs.</p> <p>We need a council area that is available to all. My proposal would be to make the area north of the Largs Bay Jetty to North Haven, off-lead, all times for dogs. The rules south of Largs Bay Jetty apply as they are now.</p> |

| | Concepts: How do you feel about... | | I like dogs and although I can understand the concerns/fears some people may have about dogs being off leash, it's a shame all dog owners have to follow restrictions during most of the day for daylight savings already even if their dog is well behaved/under effective control. I think individuals need to take more responsibility for their dogs and ensuring they are under effective control at all times. I wonder if there's a better way dogs/individuals could be reported if individuals do keep taking their dog to a public spaces that is being a public nuisance? Like a photo of the dog to send to the council through an app or something? Just an idea to try and meet further in the middle so not all dog owners are restricted further for the behaviour of some owners/dogs. |

| Daylight Savings Rules | Can live with them | People chose to live in beach areas for the lifestyle it offers. There are no issues with the current rules for dogs during daylight and non daylight savings in PAE. If the council were to make the requirements for dogs to be on lead more restrictive, it would negate the reason people look to live in these areas. Especially when there is no cause to create change. Council has no legitimate reason to make these changes and they are well aware that the people living in PAE have not received information about the potential to change dog laws - they've done this on purpose to be manipulative. Very disappointed in such behaviour. |

| Concepts: How do you feel about... | | I appreciate that dog owners would love to allow their pets to roam off the leash on beaches at all times. However points for consideration include: if off the leash can the owner always see where excrement has been deposited by their dog in order to pick it up? particularly during school holidays and weekends, young children are likely to be on the beach before 10am during daylight saving. Unleashed dogs pose a potential threat to small children. |

| Concepts: How do you feel about... | | The 'on leash' scenarios make owners much for responsible for their dog. Owners allowing dogs to wonder freely off leash are often the same owners who do not pick up dog poo along the paths, grass areas and beaches. This is my biggest issue with dogs along the foreshore. Whether it's signage, council presence or more bag stations, dog owners need to be accountable for their dog. Perhaps the more 'on leash' areas we have the more responsible they will be. |

| Concepts: How do you feel about... | | Option 2 is a good option. Dogs on leads in busy areas is sensible and should be accommodated by dog owners. Dogs on leads on pathways and walkways is also sensible as so many bike riders ride way too fast along the pathway and I am often worried a dog or a child would be injured if not appropriately monitored. I think maybe longer times available during day light savings for off lead could be an option say rather from 1000hrs am maybe from 1400hrs as this would allow shift workers a longer period to walk their dogs. |

| Concepts: How do you feel about... | | I am in favour of the current daylight savings rules as it allows all beach users to share the beach In summer there is a long stretch of hours (10am and 8pm) when all dogs must be on lead and no one is 'bothered' by them. My experience in the last 30 years is that people with young families actually want to interact with my dog, asking if their children can pat her or throw a ball. |

| Current Rules | Like it | |
| On-leash around jetties | Dislike it | |
| North Haven | | |
| Current Rules | Love it | |
| North On-leash | Loathe it | |
| Semaphore South to Breakwater | | Red Zones: I cannot support the on leash designated areas as the council has not specified the exact area prior to consultation and the fact that it will be 365 days of the year. The beach is empty in winter (other than dog walkers). In reviewing your maps the areas you have as red zones are 450 metres for Semaphore and 400 for Largs Jetty. So of my usual return trip of 5km that takes in both Jetties, of that walk 1.7km would be on leash even in the middle of winter. Green Zone: I have spoken to people who have just bought in to Fort Largs and they are very angry that you would be turning a beach into a 24 off-leash area. What resident would want this? You would encourage 'dog park behaviour', owners that don't watch their dogs, and a concentration of dogs that are not under effective control could lead to more dog incidents. What facilities are here to support the increased influx of cars? This is a very bad idea PAE just keep the current rules that have worked for years. |

| | Current Rules | | I am totally against the new rules for North Haven Beach as I specifically chose to live on North Haven Beach and paid a lot of money to do so as I love the ability to walk our dogs out the front of our house with no lead. There is a real community feel on the beach as a lot of residents have dogs and are all social. |

| Concepts: How do you feel about... | | I think having an off leash at all times area North of the breakwater is a great idea. I like the idea of on leash at all times around jetties, but would also like to see that extended as I'd like a place to walk my reactive dog on-leash with less people around. I dont like the off leash at all times between taperoo and the breakwater as my lived experience is that the boundaries are not respected and dogs often run up to my on leash dog. |

| <p>Current daylight savings rules on beach are ok, but end them at 7pm, as it's too dark to walk dogs by 8pm. I agree with on leash areas around jetties at Largs & Semaphore for both beach and foreshore. Other beaches including North Haven should be left as they are as they are not busy beaches. N.Haven and Taperoo have more dog walkers enjoy them than families and sunbathers. Grassed areas and reserves rules are fine as they are other than around the jetties, but could include foreshore from Semaphore through to just north of Largs Jetty as these are busy. The foreshore at Taperoo and N.Haven should be on leash during daylight savings. The foreshore just north of N.Haven SLSC should be excluded from restrictions. The public don't use this area for picnics and it is used daily by residents of those houses backing on to the area as a place they can freely let their dogs run anytime without bothering others. Fence off all playgrounds, then kids are safe. Leave N.Haven reserves alone.</p> | | |

| Grassed Foreshore | | I prefer the off-leash version as it is currently. Again, owners need to be held accountable for their dogs. Maybe CCTV on the foreshore to ensure this? |
| Current Rules | Love it | |
| On-leash around jetties | Can live with it | |
| North Haven | | Again, off leash is preferable where possible. Land sizes are getting smaller, and dogs need exercise. It's amazing that we're able to walk our dog (off-leash) on the beach when allowed. TO ensure the enjoyable of non dog-lovers, owners needs to be 100% accountable for their dogs and they need to be under effective control (or on a lead if not trained). So, can we put systems in place to ensure this? CCTV or roaming security at peak times? |
| Current Rules | Like it | |
| North On-leash | Dislike it | |
| Semaphore South to Breakwater | | Again, owners need to be held accountable. If effective accountability can be maintained, then off-leash would be preferred where possible. |

| Concepts: How do you feel about... | | I appreciate all the different types of on-leash and off-leash rules and I honestly believe if it's not broken don't try and fix it. I think the current rules both during daylight savings and outside of this work with those who abide by them. Unfortunately in the same way you will not please everyone all of the time, you will not have abiding citizens/dog owners all of the time either. I pass a number of a people on my morning walks who walk a dog off-leash on footpaths despite the rules. I'm a big believer that if a dog owner is walking a dog off-leash and is approaching another whose dog is on-leash, then regardless of how well trained a dog is, when passing all dogs should be on-leash. If your dog has a tendency to be aggressive, then it goes on-leash within a certain distance of another dog. |

| Concepts: How do you feel about... | | The proposal of on-leash areas is a great improvement to busy areas! Personally I would love to see the on-leash rules extended to more open space areas where pedestrian / family activities are more popular. My only concern of the all-time off-leash areas is that the increased dog activities thereof could be a potential threat to the fragile ecosystem of the foreshore sand dunes. |

| | Reasons to Visit (reasons don't visit): To walk my dog(s); To exercise; For recreation; With my adult friends and family; With my young family() | |
| Concepts: How do you feel about... | | I like dogs -I have two currently. For nearly 10 years I have encountered countless irresponsible dog owners with over-zealous/ unsafe dogs on the beach/foreshore and have seen numerous young children and (particularly migrant) families visibly anxious over free roaming dogs. Rights of dog owners shouldn't outweigh the rights of humans wanting to feel safe in a public place. All year on-leash 10-8 is the only sustainable solution - simple and requires less policing. The leash free suggested option at Taperoo is short sighted. Investors/ homeowners will have to contend with roaming dogs dominating the space. Not the dream lifestyle currently being sold to them. I also believe that jetty areas should be dog free outside of walking trail - the Largs one becomes much too busy to adequately control dogs - i've unfortunately seen a few scuffles between dogs (and near misses with children) there too. I think 500 metres each way is fair so people can congregate comfortably. |

| Grassed Foreshore | | Having dogs running around freely puts me off organising any get togethers. Having someone's dog running over to you feels intrusive even when they are of good temperament. Having dog's on leashes provides security to people using the foreshore for recreation/enjoyment. It would also means the owner does not have an excuse for not seeing their dog pooping and forgetting to pick it up! |

| Concepts: How do you feel about... | | <p>I prefer to keep dog control measures as is. Two good reasons:</p> <ol style="list-style-type: none"> 1. Have lived in area and been down that strip of beach at least 3x per week for 60 years and all year round, with or without dog. Could count on one hand dog issues, yet loose count of positive interactions in a month never mind a longer period of time. 2. Have just returned from six weeks in Europe where dogs and people coexist on and off leashes in many contexts (public transport, planes, shops, pubs, restaurants, streets, parks, etc). This is in all countries. Put faith in people, not more laws/ by laws/ controls. <p>Don't jump to the minority</p> |

| | Reasons to Visit (reasons don't visit): With my young family; With my adult friends and family; To exercise; For recreation() | |
| Concepts: How do you feel about... | | I have seen many dogs down at the beach out of control pestering bypassers and even other dog owners. Some owners have no control of their dogs. This is why full control is needed. The amount of dog poo along the path is a disgrace. On the beach there is less. Just today i the board walk right in the middle of it was dog poo. Cameras should be installed and dog owners should have numbers on their dogs when i public. This will make easy reporting for owners doing the wrong thing |

| Concepts: How do you feel about... | | Signage will need to be very obvious if changes occur Beachgoers aware off lead in ocean allowedThe beach can do with bins at beach level for human and dog waste as people will use them rather than leaving all sort of waste behind The north haven half half option seems extreme it will be a small area to have a dog off lead .500metres is also too large for the jetties 150 is more reasonable Who will monitor the zones?will there be more beach patrols during summer? I have lived here 20 years and seen some annoying dogs and owners at the beach but no dog fights cramming us all together may well have this undesired effect Division doesn't always lead to good outcomes |

| | Reasons to Visit (reasons don't visit): With my adult friends and family; To walk my dog(s); With my young family; To exercise; For recreation() | |
| Concepts: How do you feel about... | | <p>Concept 1: is the status quo. Its okish. It's restrictive for dog-walking/ personal exercise in the summer. If it was combined with areas you can walk your dog at any time ie say north of Largs jetty it would be better. Or only apply at weekends and public holidays. The rest of times should allow off-leash. Having walked Semaphore beach for 40 yrs the vast majority of days outside summer weekends and holidays are quiet and there is no justification for limiting dogs.</p> <p>Concept 2: there should be several off -leash areas at all times in the plan. And not all on the periphery. That prejudices against people with mobility issues or who don't drive.</p> <p>Concept 3 and 4: both options are overly prescriptive/ blanket and make no logical sense. Requiring dogs on leashes * in the summer* at the Semaphore forefront is fine, and most dog owners do this intuitively. But a dog on a leash on a winter, late autumn or early spring night with noone else around is just plain silly.</p> |
| Daylight Savings Rules | Can live with them | |
| Off-leash (all times) | Love them | |
| On-leash (all times) | Loathe them | |
| Exclusion (all times) | Loathe them | |
| Grassed Foreshore | | <p>It is never going to make sense to have a dog on a leash 'at all times' in any given area. The scenario of having to put your dog on a leash to traverse a geographically defined area rather than a socially and seasonally defined one (when there are lots of people around) is silly.</p> |
| Current Rules | Love it | |
| On-leash around jetties | Can live with it | |
| North Haven | | <p>It is not clear why North Haven Beach is apparently an exception? Neither of these options appeal.</p> <p>This is a beach, as local Peninsula residents, we will go to to walk our dog if our own Semaphore Beach is crowded. What is special about the Northern part of the beach which requires dogs on leash compared to the other end?</p> |
| Current Rules | Can live with it | |
| North On-leash | Loathe it | |
| Semaphore South to Breakwater | | <p>Confusing! Really. This is trying to micro-manage something which can largely be negotiated socially. Dog owners don't generally just have their dog on or off leash. We calibrate it according to the circumstances. You are trying to find a blanket solution to something which is more about education (on all sides).</p> |

| Age group: 20-24 | Gender: Female | Suburb: Largs North |
| Dog ownership: Yes | Relationship with dogs: I have a reactive dog (sensitive to certain stimuli or situations); I love dogs | |
| | Reasons to Visit (reasons don't visit): To walk my dog(s); With my adult friends and family() | |
| Concepts: How do you feel about... | | <p>I think the daylight savings hour work well as most people wanting to exercise their dogs prefer to do so early in the morning then by midday is when more people may use the beach for recreation, and for people with reactive dogs who do not want off leash dogs around.</p> <p>I think an offlead at all times area would be useful to some but is overall not essential if there are offlead hours available as given by the daylight savings hours. Additionally, unless this would apply to large sections of the beach (which I feel many would oppose anyway), having too many different sections with different rules seems over complicated and hard to follow.</p> <p>I think it is reasonable to have on lead all times areas around popular areas like the jetties, with full dog exclusion being too restrictive on dog owners, although I don't think these zones need to be too big if daylight savings on-lead applies after 10am anyways.</p> |
| Daylight Savings Rules | Like them | |
| Off-leash (all times) | Can live with them | |
| On-leash (all times) | Like them | |
| Exclusion (all times) | Dislike them | |
| Grassed Foreshore | | |
| Current Rules | Can live with it | <p>I think that option 2 is ideal because the on-lead areas can get very crowded and hectic and so not appropriate for having dogs off-lead, and still leaves plenty of grassed area not too far away for people who want their dog off lead, especially for owners with mobility aids who may not be able to use the beach.</p> |
| On-leash around jetties | Love it | |
| North Haven | | |
| Current Rules | Love it | <p>I think that option 2 is unnecessarily restrictive on dog owners, as this makes a third of the beach unusable to them all year round and confines the dogs into a smaller space. The daylight savings hours already provides on-lead only for most of the day in summer.</p> |
| North On-leash | Loathe it | |
| Semaphore South to Breakwater | | |
| Current Rules | Can live with it | <p>I think the on-lead areas around jetties are important but could be a bit smaller. Given daylight savings hours, these areas are already on-lead in popular beach going times, so mostly in effect in winter and before 10am, leaving a large stretch of beach where people exercising their dogs would need to stop and leash their dogs even when the beach is mostly empty or other dog owners. Despite this, it is useful to have a space in the morning and winter where people can leave belongings on the sand and be confident it will not get damaged by a dog, as well as using the beach before it gets too hot in summer for people who do not want dogs around.</p> <p>As a dog owner, I like the off-lead area in option 3, as this would be the only place where I could spend time with my dog on the beach during the day in summer without restricting his and my movement with a lead. Despite this, it also requires people who want dogs on lead to have less space or to travel further if they live up north.</p> |

| | Reasons to Visit (reasons don't visit): With my adult friends and family; For recreation() | |
| Concepts: How do you feel about... | | I like third option of semaphore beach particularity because it has all time leash section near the the jetty. I understand that dog owners want their dogs to enjoy running session on the beach, but people, who are not comfortable being around (large) unleashed dogs, also want to enjoy the beach. I think making some areas of the beach free from unleashed dogs is a great idea. |

| Concepts: How do you feel about... | | Although I don't have a dog at present, we used to walk our dog on Semaphore and Largs Bay beaches for many years, when I visited my mother in Largs, and later when we moved here from Melbourne. I am used to dogs being allowed to run free in parks in Melbourne and generally there were few issues. I see the dog walking as an essential part of exercise for families and individuals of all ages, and as part of building up community. I understand that some systems need to be in place when the beach is busy, but I think the current system works very well. There are always going to be one or two people who do not control their dogs and they need to be reported and fined. I am firmly against dogs being banned from beaches or being on leashes all the time. |

| Daylight Savings Rules | Loathe them | I think it comes down to the dog. I have a friend with two dobermans and he wouldn't let them off the lead as he's a sensible pet owner, yet other people are not. I think if the dog is of a certain weight (not size, due to Saffi's for example) then they should be muzzled or on the lead. If a smaller/mid sized dog, |
| Off-leash (all times) | Love them | |
| On-leash (all times) | Dislike them | |
| Exclusion (all times) | Can live with them | |
| Grassed Foreshore | | |
| Current Rules | Love it | As mentioned before, I think a weight element should be in play here as it comes down to the damage the dog could do to a child or other dog. Anything below 8kg couldn't do much harm or would have a problem in getting off of someone. This is a critical factor. |
| On-leash around jetties | Dislike it | |
| North Haven | | |
| Current Rules | Love it | The problem is that small dogs often get harmed by big dogs - never the other way around. So putting all dogs int the same area presents risks, whereas being able to find a space relevant to your dog it safer. |

| Concepts: How do you feel about... | | My wife and I have lived in Semaphore for the past 13 years and we use the beach almost every day. The current system works extremely well and we have met so many people particularly dog owners who are happy to share their dogs with other people. This is soooo important in society. The beach is a separate area to the grassed areas. Yes that is stating the obvious but the point is (and you really need to participate in these morning walks to appreciate what I'm saying) people with or without dogs are generally more friendly on the beach. It's a different environment and people act differently. We stop and talk and the dogs are often the catalyst. And allowing the dogs to run and socialise is just as important as the people socialising. On the grassed areas and paths in particular people are on the move, or playing games whatever, so dogs running riot may pose a problem in that environment. |

| Semaphore South to Breakwater | | |
| Current Rules | Like it | While the issues are somewhat complex I have found this online survey difficult and it may not reflect my feelings. Let me just say again and specifically in regard to Semaphore beach that the current and long standing arrangements work well. Let the majority rule on this issue. There will always be some who don't like dogs, so they need to avoid the beach at certain times. We all have to share and get along with each other. |

| | Reasons to Visit (reasons don't visit): To walk my dog(s); With my adult friends and family; To exercise; For recreation() | |
| Concepts: How do you feel about... | | The proposed option is over complicating it, keep as is. Have adequate signage for when dogs can be on and off leash. The issue isn't when dogs can be on and off, the issue is that people don't want to obey by the rules and don't want to train their dogs cause "they're friendly". Start fining people for not obeying the times or having dogs off leash that aren't under control. |

| North On-leash | Dislike it | |
| Semaphore South to Breakwater | | |
| Current Rules | Like it | Taperoo is my local beach, I have a reactive dog, and this is generally the quieter end of the beach which makes it easier for me to take him down there and avoid other dogs when needed, again keep it simple. I do think dogs on leash around jetties make sense as these are generally entry/exit points to the beach and makes it safer for everyone, especially those that dont like dogs. |

| Concepts: How do you feel about... | | <p>The current restrictions during daylight savings have worked very well. Keep it like this.</p> <p>In winter and autumn it's ONLY dog walkers that use the beach. There is already a mechanism in play-dogs must be under 'effective control' accepted and understood by dog walkers but rarely monitored by PAEC.</p> <p>Generations of dog owners have walked their dogs on the beaches of PAEC. It has been, part of the colour and culture of the area. It is an attractor.</p> <p>Over many many years the dog owners have witnessed very few, almost no, problems with unmanageable dogs and/or owners Families with young children also have dogs that need exercise and there are many that use the beach before 10 am in the summer months. Here dogs, children and families co-exist happily.</p> <p>Dog owners care for the beach – they pick up rubbish and they report problems.</p> <p>No other seaside council area has draconian restrictions-why us? For those elderly or health compromised off-leash is important for exercise and social interaction</p> |

| Concepts: How do you feel about... | | Dogs in public need to be controlled. I have fsmily and friends who have all had unpleasant experiences with dogs off lead. These areas a fantastic places for families and people must be kept safe. It only takes one incident or injury with a dog and that is too many. I am a dog owner and if I want my dog off lead I can go to North Haven. At other times I am happy for her to stay on lead. Being harrassed by another person's dog can make a beach experience unpleasant especially when people say " he won't hurt" as the dog then jumps on you ! Owners say they are responsible but some are not. You only have to at how much pooh is left around to have clear evidence that some simply don't care (the majority do but they are not the problem.) Finally, there are now quite a few dangerous breeds about eg pit bulls. These dogs are weapons and I am sure the council would not allow people to take a gun to the beach so why allow these dogs off lead ? A strong no to allowing more off lead areas. |

| I would be sad to see dogs excluded from large sections of the beach but am in favour of virtually all other proposed options (i.e. on leash at all times/in all areas or off-leash areas and times). We have a dog, and our children are fairly comfortable around dogs, but I absolutely appreciate that that isn't the case for everyone. People should be able to use the beach, and surrounding areas, without being "forced" to interact with dogs. | | | | | |

| Current Rules | Love it | The current rules work very well. I use the beach every single day of the year. Except on the summer, the beach is used and enjoyed by the local community that loves dogs. Dogs are important for socialization, enjoyment, mental and physical health. People exercise while walking their dogs. The benefits are enormous. There is no point in barring dogs around the jetty's all year around when 80% of the time there is nobody on the beach. In the summer dogs are on leash during day time. |

| Concepts: How do you feel about... | | As a non-dog-owner walker at Semaphore beach (3-4 days/wk), I like the current arrangement. It works well & seeing the dogs run free bring me joy. I see no reason to change the non-daylight savings times to restrict dogs on-leash (or exclusion) anywhere incl. near jetties because there are so few people other than dog walkers during many of those months - apart from long-weekend/warm Sep weekends. I support a permanent off-leash area throughout the year as well, as there are many days during daylight savings that aren't busy days/not school holiday times, & the beaches should be more available for dogs off-leash then. We don't want to encourage people to have to drive to an off-leash area for their regular walks, so it's necessary to have off-leash options spread throughout the beaches. If the jetty beaches changed to on-leash all year, being for 150m either side would be ample. |
| Daylight Savings Rules | Like them | |
| Off-leash (all times) | Love them | |
| On-leash (all times) | Dislike them | |
| Exclusion (all times) | Loathe them | |
| Grassed Foreshore | | I am happy with Option 1, it works well. Regarding Option 2, the grass areas near the jetty entrances, they don't even have that many people there without dogs for half the year, so no need to stop the dogs from getting their off-leash exercise. |
| Current Rules | Love it | |
| On-leash around jetties | Dislike it | |
| North Haven | | I don't see the need to change from Option 1, but if it does change, then the proportion of all-year on-leash area if it was only from Australia Two Ave to the north end of the beach, would be a reasonable proportion of the overall beach to offer various options for different people. |
| Current Rules | Love it | |
| North On-leash | Can live with it | |
| Semaphore South to Breakwater | | I like Option 1 best as it's clear for everyone. It prevents the need for extra beach signage defining zones. It prevents dog walkers having to avoid jetty areas which are so popular for them in the mornings. It would be sad to lose that. I don't have a dog but like watching them & know they need to run for exercise & socialising. I like that Option 3 gives people a chance to at least go somewhere off-leash during daylight savings times as before 10am/after 8pm doesn't suit everyone, but we also don't want everyone to start driving to a place to walk their dog, we want people to be able to walk there. So, if they jetty beaches are definitely going to become all-year on-leash, I would suggest 150m from the jetties to be more than enough to offer people who don't want dogs off-leash to have somewhere to go. I say this because during non-daylight savings times, there are so many days when there aren't even many non-dog walkers on the beach, that there is no need to be overly restrictive. |

| | Concepts: How do you feel about... | | Semaphore south to North Haven breakwater concepts relates to my place of residence. The 3 options discussed have merit and I can walk our dog happily within the restrictions. Dog owners on the whole in my experience are responsible and will walk their dog on lead if engagement with other dogs is not positive. It is difficult to legislate for stupidity or irresponsible owners. On leash restrictions during winter on the beach is counterproductive as most people using the beach are a different clientele (mostly walkers) to summer users (young families, swimmers, young people socialising). Dog Parks do not have the area to allow a dog such as mine to really stretch out for a run without obstacles. |

| | Current Rules | Love it | When determining on-leash and off-leash boundaries it is perhaps better to use colour coded signage (like traffic light colours) at track entrance points to the beach so people know what zone they are in. Streets are possibly better boundary indicators than landmarks because, for example, Largs bay sailing club or Largs pier hotel would need to elaborate north end or south end which may be confusing for 'out of area' visitors to the beach. |

| Dog ownership: Yes | Relationship with dogs: I love dogs | |
| | Reasons to Visit (reasons don't visit): To walk my dog(s); To exercise; For recreation() | |
| Concepts: How do you feel about... | | I often visit the beach to run with my dog from the breakwater to Largs or Semaphore jetties. Most of the time my dog would be on lead as she is reactive to other dogs. Depending on the weekday/time of my visit there is often few or no people on the beach. During this time I do let my dog off lead. She has very good recall and I ensure that she is back on lead before anyone else (with or without a dog) gets close. Accordingly we have not had an issue that is our fault. My main concern is that there are people who have no offlead recall and seem to not know how their dog will react to other dogs (including reactive dogs). They are also unaware of other dogs approaching. Regularly, my dog (when on lead) is approached by offlead dogs who can get nasty when my dog reacts to them. She has been bitten many times. The owner cant understand my frustration and anger towards them after these attacks. The options presented do not sufficiently emphasise the "effective control" element |

| North On-leash | Like it | |
| Semaphore South to Breakwater | | |
| Current Rules | Like it | Option 3 is perfect if we lived in a world whereby all dog owners are responsible people. As stated earlier many dog owners do not have effective control of their offlead dog on the beach. These people often have aggressive dogs yet seem incapable of putting their dog back onlead when other dogs are approaching. They are often unaware, or do not care, that they have a reactive dog and hence they take no action to prevent an incident from occurring. My onlead dog has had several serious attacks in the all year/all times offlead area defined in Option 3. In fact this is a hotspot for dog attacks and hence I have been forced further South to avoid such encounters. I would say that Option 3 encourages more reckless people with offlead dogs who have no respect for other users of the beach (with or without a dog). The dogs that are offlead in this area are often more aggressive and of the larger breeds. Effective Control needs a greater emphasis, a definition, and how it will be policed. |

| North Haven | | Dogs require adequate off lead time in a safe area to run,swim and play.this provides both dogs and owners physical and mental health benefits. It provides opportunities for older residents to safely exercise their dogs with like minded people providing them with physical exercise, help reduce falls risks and reduces social isolation and loneliness. Dogs provided with off lead times with other dogs develop social skills and lessons boredom barking and destruction, lessening neighbourhood disputes and dog abandonment. On a personal level I doubt I would have moved to an area that I new was Going to change the laws to provide myself and my dog the opportunity to exercise the way that was in practice when we moved here |

| Concepts: How do you feel about... | | Why are these changes even being considered, the rules are fine as they are. People travel from all over Adelaide with their families and their dogs to visit our lovely beaches. My partner and i purchased a house here because of all the beaches that are dog friendly. I think it is completely uncalled for and the fact that it is even being entertained as an idea to remove the dog beaches and create exclusion zones is atrocious. I think mayor claire's dog hating changes should be blocked |

| Concepts: How do you feel about... | | Residents and visitors to PAE council enjoy bringing dogs to the beach. The daylight saving rule gives the best of both worlds to beach goers with dogs and those without. In winter when the beach isn't utilised for swimming and recreation as often I think off lead 24/7 is sensible. Having a permanent off leash area is a great option for beach goers with dogs when it's daylight savings rules. Please do not make the beach a dog exclusion area or an exclusive dog on leash area. I feel that the PAE will loose visitors and their business. |

| | | The current conditions (Option 1) work well. I use the beach regularly and see very little issues. Locals who use the beach regularly do not seem to create the problems, it is mainly people / dogs who come to the beach infrequently (and generally only when its' hot and crowded) that incite the problems. Dogs need a good open space to be able to run and swim. The current option provides this opportunity whilst also allowing time and space for others to use the beach during the heat of summer without dogs running off lead. In my experience, often the only people using the beach in the colder months when all day off leash applies are people walking dogs and it would be very unfair to restrict this opportunity. |

| Concepts: How do you feel about... | | <p>As my oldest dog is now nearly 12 years old and has walked on the beach for this period, I can verify that the camaraderie between all beach walkers is much improved. There were some incidents very early on between some more aggressive dogs (and owners), but this no longer occurs. I believe that this is because as a broad group of familiar people we discourage persons who visit the beach with dogs that act in an inappropriate manner and owners who do not respect other peoples personal space are encouraged to leave the area, albeit in a polite way.</p> <p>Regarding the process to allow dogs off lead on the beach at North Haven, I find it rather strange. Given that the North Haven area, including Taperoo and Osborne, are currently witnessing a high level of housing construction which would undoubtedly increase the likelihood of greater residents beach foreshore participation for recreational purposes. Surely this would simply be shifting the problem, if there really is one, to another area.</p> |

| Concepts: How do you feel about... | | <p>I believe changing the rules from what they are currently would negatively impact to the community. Although I would like to see the daylight hours shorten till 7 pm (October & March), I would hate to see the rule change to negatively impact not only dog owners, but people who love dogs. Dogs off lead already have to be well-behaved and under consistent control. Personally, I would avoid going to semaphore and chose another beach to go to, which would impact the local businesses.</p> <p>I think this would have a negative impact on the community and would drive people away from visiting semaphore and surrounds. Personally, I would probably avoid going to semaphore and go south to Grange or Henley.</p> <p>I don't think things should change. I think the third option, even though it looks amazing would negatively impact the residents that are living in the selected green area. It's all well and good if they have dogs and like the off lead access, but what if they don't. They don't get to choose to have a beach that they can visit.</p> |

| Current Rules | Love it | <p>While not over the moon about restrictions around jettys during daylight savings at all times, this is something I can live with for the benefits of the minority that may fears dogs and are still on the beach during these times (after 8pm or before 10am). I can support this on the basis that the distance from the jetty is reasonable - my view is within 100m, providing a 200m stretch this would be in effect.</p> <p>I think this distance is reasonable for the following reasons:</p> <ol style="list-style-type: none"> 1. It is a distance that most spatially aware people can judge with some confidence 2. I would not expect families with young children to not venture further than this if there are anxiety issues |

| Concepts: How do you feel about... | | <p>The current regulations do not cater for shift workers with dogs. These are the people who serve our community as nurses, doctors and other health care workers, police, firefighters, prison workers, cleaners, hospitality workers, etc. Because of shift work they are unable to walk their dog/s before 10.00am. They are "forced" to break the regulations if they wish to exercise their dog/s off lead.</p> |

| Concepts: How do you feel about... | | <p>Dogs should be allowed to be off lead on our beaches during daylight savings - it's not fair to exclude dogs, beaches are there to be enjoyed by everyone. I however, have had my dog on a lead and been approached by an unfriendly dog who tried to attack my dog. So I do see merit in both proposals but I don't think it's fair to penalise all dogs.</p> |

| | Reasons to Visit (reasons don't visit): With my young family; To walk my dog(s); To exercise() | |
| Concepts: How do you feel about... | | <p>My feedback focuses on dog off-leash areas. Allowing well-behaved dogs to be off-leash offers several benefits:</p> <p>Physical Exercise: Off-leash areas let dogs engage in high-energy activities essential for their health.</p> <p>Social Interaction: Being off-leash facilitates better interaction with other dogs and people, aiding socialisation.</p> <p>Owner Responsibility: The idea hinges on dogs being under effective control, stressing the role of responsible ownership.</p> <p>Mental Health: Free exploration enriches a dog's life and positively affects their mental health, as well as the owner's.</p> <p>Community Inclusion: Restricting to on-leash areas may discourage pet owners from beaches, impacting community inclusivity.</p> <p>Human Benefit: Owners gain freedom for activities like jogging and picnicking without holding a lead.</p> |

| Concepts: How do you feel about... | | <p>I love to let my 2 medium sized dogs run on the beach off-leash. It is probably one of my favourite things to do, watching them do zoomies on the sand and in the waves, does wonders for my mental health and soul! However, I understand that not everyone loves dogs as I do, and have witnessed people freeze in fright as my dog runs towards them. I know they're harmless, but the other person does not. My dogs have pretty good recall most of the time, but occasionally they're too quick for me and approach strangers hoping for a pat. I always put my dogs on-lead when approaching other dogs on-lead, and small children.</p> <p>The beach is a place we all want to enjoy, and I agree that rules put in place make everyone feel safe to do that. I have felt that the daylight savings rules have been good, although I'd prefer the on-leash time to be more like until 11am-7pm. Maybe a designated dog beach where they can be off-leash all the time would work, and then all other beaches can be on-lead 24/7</p> |
| Daylight Savings Rules | Like them | |
| Off-leash (all times) | Like them | |
| On-leash (all times) | Like them | |
| Exclusion (all times) | Dislike them | |
| Grassed Foreshore | | <p>I think option 2 is better. I don't think its necessary to have dogs off-leash around the jetty, this is where there are larger numbers of people and small children. I have 2 dogs that are generally good at recall - until they aren't - but at least I know my dogs are not aggressive. I'm concerned that other dog owners would let their poorly behaved dogs off leash 'because it's their right', and someone could get frightened by the dogs, or even hurt.</p> |
| Current Rules | Can live with it | |
| On-leash around jetties | Like it | |
| North Haven | | <p>I don't use this beach, so this does not affect me. If it did, I guess I would go and find a different beach to let my dogs off-lead. I guess it gives people who are scared of dogs, a beach they can go to that they know won't have any dogs running around untethered.</p> |
| Current Rules | Can live with it | |
| North On-leash | Can live with it | |
| Semaphore South to Breakwater | | <p>I like Option 3, I think this is a great solution.</p> |

| | Concepts: How do you feel about... | | The needs of the community need to be taken into account in this decisions. The needs of only a section of the community cannot be taken into account and a balanced approach that meets all needs must be implemented. Given the community includes dog owners who wish to use the foreshore and beach areas allowing times for dogs to be off leash in all beach areas is imperative. Most dog owners are responsible and most dogs are well behaved and to cater only for potential concerns of dogs off leash is not helpful. In 25 years of living in the area I have not witnessed any issue with dogs off leash on the beach. I advocate to continue the enjoyment of all in the community by having rules where there are allocated times off leash depending on the time of year (including having a no restriction in winter months where there are almost no people on the beach). I don't think it is broken so no need to fix it. |

| | Concepts: How do you feel about... | | If it were up to me dogs would be free to run on the beach at any time. However, I appreciate there are some people who are wary/scared of dogs. So we have to find a compromise. It would be wonderful to have some beaches that are leash free at all times and other beaches areas that have limitations to off leash. Although, any limitations should be limited to Summer, as, generally speaking dog walkers go to the beach throughout the whole year, rain or shine. Whereas other beach users are few and far between during cooler months. |

| | Reasons to Visit (reasons don't visit): To walk my dog(s); With my young family; With my adult friends and family; To exercise; For recreation() | |
| Concepts: How do you feel about... | | Every dog, whether reactive or friendly, has the right to go out in public including our beaches and foreshore. As an owner of a friendly dog I recognise this and do my best to keep my dog safe, under effective control and exercised. However, the proposed new laws have drastic consequences for my and my dogs quality of life. As a physically disabled dog owner in PAE the amount of beaches I can directly access include North Haven Beach, Semaphore South and Snowden beach ONLY. I am also limited to the time of day that I am physically able to take my dog out. My dog is my disability assistance dog, and therefore I cannot live without her. But she must get her energy out to do her job. Every day this winter we have attended north haven beach, and it has vastly improved both our quality of lives. Letting grumpy white middle-aged men, or people who don't like dogs, dictate where and when we can take our dogs will be life changing for me in the worst way. |

| | Reasons to Visit (reasons don't visit): With my adult friends and family; To walk my dog(s); To exercise; For recreation; To participate in sport (SLS, sailing)() | |
| Concepts: How do you feel about... | | I understand the need to have dogs on leash when near roads etc, that makes sense, but keeping dogs on leash in big, open spaces doesn't. There may be cases of dogs being nuisance but more often it is visitors to the beaches creating more issues. Better energy/money could be spent on stopping people littering, clearing up dog fouling and anti-social behaviour on the beaches rather than punishing local dog walkers |

| Concepts: How do you feel about... | | <p>I walk my dog and my partners two dogs between Semaphore South to Largs Bay at least three times per week. My dog is placed on leash if there are other dogs around as she can be a bit reactive and my partners dogs are off leash.</p> <p>The current set up of one rule for all beaches works well. I have yet to encounter bad dogs or owners during my visits, and am happy with the on leash rules for daylight savings.</p> <p>I cycle the beach with one of the dogs off leash at least twice a week from Semaphore South to Largs / return and having a section of the beach as on leash at all times would be very inconvenient. She is happy to run along side the bike and never bothers other people of dogs.</p> <p>I support "no change" to the current rules and believe that if something is taken off the community it is very hard to get this back. My belief after travelling to many places in the world is that we have too many rules in place at home to satisfy the vocal minority.</p> <p>Thanks, Simon</p> |

| Concepts: How do you feel about... | | <p>Would be great to have dog off leash exclusion and inclusion zones. The daylight savings time doesn't work for all those with other commitments during those hours, or if extremely hot days. Having kids and a dog, they enjoy playing together in the water, running after the ball, jumping on the sand hills etc, anytime we visit. would be great if, like down south at O'sullivan's beach ramp, they had a dog friendly beach. no restrictions of hours. You enter knowing this.</p> |

| Concepts: How do you feel about... | | <p>When I go out with my dog, he is on a leash at all times. I have never taken a dog I own out in public "off leash", as I never trust other dogs that are "off leash".</p> <p>Dogs are all prone to violence, as is their nature, and even my Miniature Poodle who I love as if he were my child, I would not trust him if he was "off leash" and approached by another dog. I have had a dog in my life since age 4 (A bloody long time), and think I know all dogs temperaments well. I started with a Sheepdog in Quorn, then Pekingese, Shelties, (bred Standard Poodles in Sydney), a Weimaraner, 3 Corgis, and now Oz my Miniature Poodle, and I have never trusted any of them not to take the challenge of another dog if confronted.</p> <p>I have also never trusted any of my dogs alone with children, and never would.</p> |

| <p>I have been taking my child to the beach for years. I have watched idiots not care their dog was off it's leash upsetting other dogs and dog owners. I have seen dogs charge at other dogs and also charge at us. I hate and I mean really hate when dogs are off their leash. My self and my son (11 yrs old with disabilities) hate it when dogs take over the beach and owners not giving two shits if their dogs charge at people or small children. I have also seen a small child been bitten by a dog for no reason. I always watch the beach and constantly watch our backs if there is dogs off the leash. I feel I have to do this to protect us and I shouldnt have to feel that was in a public place where we go to relax. I believe dog owners should have their dogs on a leash at all times at the beach.</p> | | |

| Current Rules | Love it | <p>The current system is clear and operates effectively in my experience so option 1 is my preference.</p> <p>The number of people on the beach, in the jetty areas proposed for 'on leash at all times', are so minimal in the winter months it is ridiculous to implement change for minuscule benefit. I highly doubt having an 'on leash all year round area' will encourage anymore picnickers by the jetty when it is blowing a gale, cold and in the middle of winter when many are still conscious of exercising their dogs.</p> <p>Applying a lead at a difficult to determine position for a difficult to determine distance for the sake of essentially nobody on the beach seems pointless. It will be difficult to police and in all likelihood encourage disputes as to where the line in the the sand is. Let's just keep it as it is....it doesn't seem broken.</p> |

| Concepts: How do you feel about... | | We currently have young children and grandchildren visiting the beach pre-10 am in the morning to avoid severe UV of the middle of the day and are constantly approached by unleashed dogs weather be daylight, saving, or not throughout the day. I believe tougher rules will deter some bad dog owners from allowing their dogs to approach children, unfortunately they believing that their dog can't hurt a child or an adult unfortunately most dog owners believe their dogs are not dangerous to other people which is very wrong in my experience. A 9 am to 8 pm daylight saving period would be more suitable and allow children safety on our beaches. That should also include a 10 meter clear distance when on or off leash away from children at all times. |

| Concepts: How do you feel about... | | <p>I use beach (not foreshore grass) a lot for myself and my cocker spaniel. Running free is so good for dogs and mine is both friendly and gentle with dogs and people.</p> <p>On-leash is restrictive and less rewarding for both of us. My dog stays with me 90+% of time and has never caused an inconvenience.</p> <p>I remain wary of other (esp larger) dogs and keep a distance where possible. I try to assess whether other dogs and people are friendly or welcoming and act accordingly yet conservatively at all times.</p> |

| On-leash around jetties | Love it | |
| North Haven | | |
| Current Rules | Love it | |
| North On-leash | Can live with it | |
| Semaphore South to Breakwater | | <p>I like or accept the practicality of having a "dogs on-leash" area near jetties. I suggest 250m either side of Largs and Sema4 jetties is sufficient. If absolutely necessary it could be extended to say 350m south of Sema4 and north of Largs. Not so between the jetties as it doubles the impact between the two jetties.</p> <p>This preserves the shaded areas under jetties and provides a minimum 500 m space around each jetty, where dogs must be leashed.</p> <p>It also should not unnecessarily punish locals from nearby streets and properties from having to walk too far to exercise their dogs.</p> <p>I note that for the first and last 6 weeks of daylight saving working/weekdays there are typically very few beach users, except for Xmas school holidays.</p> <p>There is no point in effectively closing beaches when nearly no one is present.</p> |

| Dog ownership: Yes | Relationship with dogs: I love dogs; I like dogs; I have a reactive dog (sensitive to certain stimuli or situations) | |
| | Reasons to Visit (reasons don't visit): I don't currently visit(there are too many unrestrained dogs that are not under control of the owner, essentially running free with no attention from the owner. this has resulted in several "near miss" occurrences with our dogs and we made the decision some time ago to stop freq) | |
| Concepts: How do you feel about... | | I would much prefer dogs to be on leash in all public areas at all times - as dog owners this is by far the most responsible option. dogs already have several dog parks in the area for free running. failing a blanket on-leash rule, we support the options that provide the most on-leash areas so that we at least have specific areas to avoid if we don't want to encounter off-leash dogs. |

| Concepts: How do you feel about... | | I think dogs should be on leash at all time unless there is a fenced area. I see too many people who think they have fantastic control over their dogs and they don't. I love dogs but it is confronting to have them run up to you when you don't know them. You also don't know if your dog has pooped when you aren't close to them and I HATE dog poo left by owners. |

| Current Rules | Like it | This seems to be the option that caters for everyone but I wish I didn't live in the section that is the off leash part of the beach. I can see that it is a less used part of the beach and can live with it as long as it doesn't attract heaps of people with big dogs to run riot! I'm assuming the council will keep an eye on what happens if it does become the new model. |

| | Concepts: How do you feel about... | | Whilst I love the idea of off leash areas, many in the PAE area are inadequately fenced for both dogs and young families. Many of the reserves have busy roads either side so you can't allow children or dogs to play under supervision without fear that one of them will end up on the road. There are some great dog parks in the area but not enough particularly when there's so many green spaces. |

| Daylight Savings Rules | Can live with them | I can understand on leash on grassed areas where there is a lot of activity and cars. The beach is ideal as an off leash exercise area. I assume most dog owners do not want harm to occur to their dog or people, so they monitor their dog. I have not had a problem with other dogs. |

| Concepts: How do you feel about... | | Regarding daylight savings on leash requirements 10am-8pm - I understand that people don't want to be bothered by dogs when they are relaxing by the beach. However I do fully support certain areas during these times that allow off leash dog walking - it can be nice for owner and dog to be able to splash in shallows on hot days. As a dog owner who does like to abide by rules I would hope that there is clear signage. I do feel that signage at Semaphore South to Semaphore is not especially obvious currently. | |

| | Concepts: How do you feel about... | | Feel this is the best option as it works and caters to nearly all peoples' needs. You can never please everyone all the time, but the best option is most of the people, most of the time as it's more realistic. Most people won't walk their dogs in the heat of summer while there are crowds of people anyway, I know I don't, early morning and evening is great. In the winter when there's less swimmers etc on the beach, you can relax and let your dog have a good run, any time of the day. |

| | Concepts: How do you feel about... | | I think that the current system works. I can also see the benefit of an exclusion zone eitherside of the jettys, (100 Meters at most) where dog should be on lead during daylight saving months. Also a beach (Taperoo) where dogs can be off lead at all times. That allows people who are unable to get to the beach before 10 am have some where to go. Most responsible dog owners would not be on the beach in the middle of the day during the summer months because of the heat. |

| Concepts: How do you feel about... | | I believe all dogs should be on leash at all times on the beach, walk ways and grass ways. There are a couple of dog parks around the area that you can take your dog to run and be free off leash. Just think if your dog happened to bite someone or another dog, how would feel if you had to put that dog down all because of it not being on leash. Yes ALL dogs can bite, whether they have shown aggression or not. It's a not brainer - dogs on leash at all times and I have and love dogs. |

| Dog ownership: Yes | Relationship with dogs: I love dogs | |
| | Reasons to Visit (reasons don't visit): To walk my dog(s)() | |
| Concepts: How do you feel about... | | Dogs should be on leashes unless they have excellent recall and their owner also has recall skills and the dog will recall well. My old dog has a long lead because I won't let him run free on any beach because people don't appreciate having a strange dog run up and jump all over them or knock children over. Dogs should be controlled on the beach and owners need to be responsible. Not all dogs like other dogs running up to them and that is when problems occur. |
| Daylight Savings Rules | Love them | |
| Off-leash (all times) | Loathe them | |
| On-leash (all times) | Love them | |

| Grassed Foreshore | | Dogs should be on lead on paths and grassed areas. Well trained dogs only off leash that adhere to recall on the beach otherwise on lead. off leash dogs particularly some breeds Bull terriers, staffordshire bull terriers, and Rottweilers off lead can be a problem but also small dogs who behave extremely aggressive more than bigger breeds. Safety is on leash and my dogs are not ever off leash in public anywhere. |
| Current Rules | Dislike it | |
| On-leash around jetties | Love it | |
| North Haven | | as previous out of hours yes perhaps dogs off leash, but between 8am and 10pm on lead all the time for safety of people and other dogs especially where there are irresponsible dog owners who don't train their dogs, have no idea, and cause risk to other dogs and owners, plus children. Actually it is the adults that are the problem maybe they should be on leash. the ones who don't go to obedience and are irresponsible dog owners. |
| Current Rules | Can live with it | |
| North On-leash | Can live with it | |
| Semaphore South to Breakwater | | the North Haven beach is fairly secluded so off leash dogs that will recall are safe and fine there. Perhaps it should be a dog beach Semaphore south dogs should be on lead because of the volume of people, children and other dogs. |

| <p>I support Option 1. We have 3 dogs which we walk twice daily on the North Haven Beach - Early Morning & Evening (Rain, hail or shine!). The current rules work extremely well. 90% of the time the entire length of the beach is very sparse with people - usually between 1 and 10 persons at any given time, mostly fellow dog-walkers. On warm days there are a lot more people, usually in the day time or evenings. These usually coincide with daylight savings times. I usually avoid walking my dogs when there are a lot of people on the beach.</p> <p>I have lived on the North Haven Foreshore for 25 years, and I believe the current rules work very well for Dogs. If the rules were to change then we would be forced to reconsider our choice to have dogs because we enjoy the freedom of allowing our dogs to run, swim & socialise with other dogs unrestricted.</p> | | |

| | Concepts: How do you feel about... | | I understand that not everyone keeps their dogs away from people on a busy beach, and not everyone is a responsible dog owner, and these spaces need to be shared by everyone. I think the daylight savings rule is the best and most fair way to ensure the spaces are shared and accessible for all. |
| | Daylight Savings Rules | Love them | |

| | On-leash around jetties | | |
| | North Haven | | |
| | Current Rules | Love it | The daylight savings rule is respectful and gives all an opportunity. To make areas on leash all year, especially when there are so many times through the winter months that the beach is empty is unreasonable. The beach before 10 is absolute hive of friendly dog activity - its promoting exercise and socialisation for people, and dogs - and then allows all other people to access the beach peacefully for the rest of the day. |
| | North On-leash | Dislike it | |
| | Semaphore South to Breakwater | | |
| Current Rules | Love it | For reasons the same as my answer to the previous question. I can understand the jetty and grassed area at Semaphore being leash at all times, as its a busy spot a lot of the year - but very rarely is the beach either side busy, and I think we need to have some trust in dog owners, and not punish them all. | |

| Dog ownership: Yes | Relationship with dogs: I love dogs | |
| | Reasons to Visit (reasons don't visit): For recreation; To walk my dog(s); With my adult friends and family() | |
| Concepts: How do you feel about... | | <p>Not all dogs are the same and all have varying levels of training and control. I acknowledge that other community members don't have the same fondness for my 4 legged family member as I do.</p> <p>That said, I've put a great deal of effort into ensuring my dog has the required skills and temperament to be apart of our community, he loves the beach and I don't understand how his safety and enjoyment can be compromised by being on the lead in the water. Placing a lead on a child and letting them play in the water would be considered poor practice due to a choking hazard. Why is it deemed acceptable to place my more active dog at a greater risk of entanglement?</p> <p>Additionally limiting restricting the perfect hours for my dog to be off lead to have a swim during summer is disappointing.</p> <p>I would urge you to make dog friendly beach "locations" rather than restrict by daylight savings. Residents and dog owners can choose based on their intended activities.</p> |
| Daylight Savings Rules | Loathe them | |
| Off-leash (all times) | Love them | |
| On-leash (all times) | Dislike them | |
| Exclusion (all times) | Dislike them | |
| Grassed Foreshore | | <p>Roll out a compromise, option 2 but include the beach and have exclusion zones for on-leash.</p> <p>This gives both reserve and beach goer's the option to avoid any off leash dog interaction if the so choose.</p> <p>The busier locations are usually when responsible dog owners would put their dog on a leash regardless to protect their dog and not scare or inadvertently bump a young child.</p> |
| Current Rules | Love it | |
| On-leash around jetties | Like it | |
| North Haven | | <p>Remove the day light hours restrictions.</p> <p>Segregate by all means but don't place my dog at risk of entanglement or loss of enjoyment by being on a leash during the best part of the summer days.</p> |

| | Reasons to Visit (reasons don't visit): With my adult friends and family; To walk my dog(s); To exercise; For recreation() | |
| Concepts: How do you feel about... | | <p>I believe that many dog owners believe that they have "Effective control" over their dogs, however this is often not the case. Many dogs (in excess of 20 in 3 months) have approached us and our dog, jumping, licking or otherwise not being under effective control. Thankfully our dog is friendly, however I believe this poses an extreme safety concern for young children, members of the disabled community or people with dogs who are in training or otherwise not inclined to be approached by other dogs. an on lead at all times policy would enforce responsibility on the dog owners who are unable to effectively control their dog through recall or other means</p> |
| Daylight Savings Rules | Like them | |
| Off-leash (all times) | Loathe them | |
| On-leash (all times) | Love them | |
| Exclusion (all times) | Can live with them | |
| Grassed Foreshore | | <p>Traffic heavy areas such as the jetty should require on-lead dogs at all times. As there are many distractions and possibilities for dogs to become involved in un-wanted situation (ie. a game of frisbee), I believe they should be on lead as a general courtesy to other members of the public using these spaces</p> |
| Current Rules | Dislike it | |
| On-leash around jetties | Love it | |
| North Haven | | <p>as non-daylight savings times are the least, I do not believe that having dogs off lead is sensible. a dog that cannot be seen also cannot be treated with caution or avoided by other members of the public if they wis to do so. Enforcing an on-lead rule between the hours of 6pm-8am would be far more effective as a dog can be seen more easily during the daylight hours</p> |
| Current Rules | Dislike it | |
| North On-leash | Like it | |
| Semaphore South to Breakwater | | <p>As previously noted having dogs off lead during low visibility is not sensible. I believe that dogs should be onlead during these times to minimise any unexpected or unwarranted interactions</p> |

| Concepts: How do you feel about... | | This council abrogates its civic role in providing for the care and well being of its residents instead it panders to extremist views of a small number of residents and other like minded non residents. Instead of providing dog control officers to fine irresponsible dog owners it seeks to exclude all dog owners and their well behaved and loved family dogs. It's time that the ratepayers stood up and stopped this rot by voting out members of council who back the proposed dog exclusions. Enough is enough! |

| Semaphore South to Breakwater | | The council is seeking to pander to the extremist views of a limited number of residents and some non residents. The beaches have always been places for families and their dogs. The council dog control used to patrol the beaches to monitor use and behaviour. To be fair the vast majority of any anti social behaviour is by alcohol and or drug fuelled people most of whom I believe to be non residents. The vast majority of dogs who frequent the beach with residents, are well behaved and well socialised family pets. This council is pandering to extremist views. |

| Concepts: How do you feel about... | | Daylight saving hours are restrictive if you work. Taking a dog off leash after 8 pm in isolated beaches is of concern- particularly if alone. It would be good to limit it say 11-7pm ... all proposals about dogs on leads near jetties is fair -500 m is probably too much ... 150-200 m either side is fair ...great initiative to have unlimited dog area north of Strathfield Tc... maybe North Haven beach can be same unrestricted/ on lead zones .. not just during DSL unless DLS is less hours |

| Concepts: How do you feel about... | | I feel current rules strike a fair balance between dog owners, trying to have the freedom to exercise the dogs off lead. It should just be at a time that doesn't impact the large number of beachgoers in the summer. If there was a need to have a 24 hour per day of lead area I feel it should be Strathfield Terrace north, to maintain maximum segregation between dogs off lead and families during peak use times. I don't believe that the full time exclusion zone around jetties will be effective at reducing the interactions between Off lead dogs and families at the beach, as there are very few beachgoers prior to 10 o'clock in the morning, so the impact is on dog owners when there is no detriment to having a dog off the lead in the first place. |

| | | Reasons to Visit (reasons don't visit): For recreation() | |
| | Concepts: How do you feel about... | | I think this is a great initiative. I avoid the beach because I have a reactive dog and can't take him because people can't control there dog. I keep my dog on the leash and their dog approaches us. To have an on leash areas would be awesome but would need to be policed as people sometimes just don't care about others it's effecting I feel my dog misses out on the beach because of it. |

| | Reasons to Visit (reasons don't visit): To walk my dog(s); To exercise; For recreation; With my adult friends and family; To participate in sport (SLS, sailing); To participate in environmental activities() | |
| Concepts: How do you feel about... | | I like having off leash time periods where I can bring my dogs (like early in the morning) with low traffic. But I also like having places where I can walk my reactive dogs safely on a leash and not worry about off leash dogs running to my dogs. So having both options is sensible. I think everyone like having off leash options for their dogs, but its whether there are responsible dog owners who have control of their dogs, which is a community concern. |

| | Concepts: How do you feel about... | | Dogs are best on leashes for every bodies safety, especially the dogs. The number of times some unleashed dog "who won't hurt you" "my dog would never do that" "has never done that before" runs up and attacks a leashed dog in the presence of small children is frightening. The Council may be obliged to actually spend some money and do something. Hopefully it will be effective. | |

| Current Rules | Can live with it | I have two very small dogs which I rarely let off lead unless in a park area where I know I can protect my dogs. I think at a minimum the busy areas around jettys should be on leash to protect where large amounts of people and dogs are. Also around these areas are food places and where people have picnics so I think this would be more enjoyable for them. I feel it will be hard to police though as there are so many owners who don't believe their dogs are a threat and have off leash at all times. In reality my small dogs have been attacked by larger dogs - mine were leashed, larger dogs not leashed. |

| Dog ownership: No | Relationship with dogs: I feel indifferent about dogs | |
| | Reasons to Visit (reasons don't visit): With my young family; To exercise; With my adult friends and family; For recreation() | |
| Concepts: How do you feel about... | | Pro option 2 but would have on leash required from 9am as young children generally on beach from this earlier time to avoid high UV times of the day. Would also like year round requirement in all areas where dogs are permitted off leash that owners ensure their dogs still remain a minimum of 10m from young children. Have had a lot of incidents with my young children at North Haven Beach being swarmed by dogs off leash which is very distressing for them and the dog owners have done nothing to prevent this or subsequently remove their dogs from my children. |

| North Haven | | |
| Current Rules | Dislike it | Would prefer the daylight savings rules to commence from 9am as young children usually on beach from this earlier time to avoid high UV times of day. Would love exclusion zone to be extended. Also requirement year round in any permitted off leash area for dogs to be kept at least 10m away from young children. This has been a reoccurring issue where dog owners take no action to prevent, or to remove, dogs swarming my young children. |
| North On-leash | Love it | |
| Semaphore South to Breakwater | | |
| Current Rules | Can live with it | Avidly against off leash all year round. My experience has been that dog owners do not exercise any effective control over their dogs (or pick up after them) currently and this will likely not change or worsen should off leash areas be expanded to apply year round. It would make these areas NON family friendly and really unusable to families with young children or anyone who is uncomfortable around dogs which would be devastating as it is a family favourite for many. On leash from 9am also preferable as young children out at this time to avoid high UV times of day. Requirement for dogs to be kept at minimum 10m from children at all times when and where off leash is permitted also desirable. |

| | Concepts: How do you feel about... | | Having 2 dogs that we care for, we frequently walk the track along the grassed areas. Our dogs are on a leash at all times and I believe this is the only way to combat unruly dogs, dogs that run at us scaring our aging dog and upsetting our dogs, many dogs have irresponsible owners who feel it's their right to let their dogs run freely. It would also help with the dog poo problem of owners walking away from their dogs, not "noticing" their dog has pooped. There are dog parks provided for dogs to be let off their leash but I feel keeping dogs under control being on a leash at all times anywhere in public places is necessary. This would take increased signage and education of the public. Thank you |

| | | Reasons to Visit (reasons don't visit): For recreation; To walk my dog(s); With my adult friends and family() | |
| | Concepts: How do you feel about... | | I dislike dog off leash areas because some dog owners cannot be trusted to know what kind of dog they have. My dogs enjoy meeting other dogs however they are reactive due to excitement and they are small. When other dogs come up without a leash and they are not controllable by their owner, this becomes a dangerous situation. It can be traumatic for all parties if my small dog becomes overwhelmed by an excited but uncontrolled dog off leash and snaps at them. Let alone the possibility of off leash dogs attacking other dogs and people. |

| Current Rules | Love it | The current option is appropriate and effective. I also agree with footpaths and shared paths being always on leash as designated under the Dog and Cat Management Act |
| On-leash around jetties | Loathe it | |
| North Haven | | |
| Current Rules | Love it | I disagree with always having areas specific for on beach leashed dogs. This is a recipe for disaster, the dogs will not be effectively socialised, thus the council may raise more problems than what there currently are. For example, negative dog interactions on our beaches only accounted for 4.5% across all the council areas in 2022. Negative dog incidents on the beach have in fact decreased in the past 2 years. |
| North On-leash | Loathe it | |
| Semaphore South to Breakwater | | |
| Current Rules | Love it | Option one is the most equitable and effective rule proposed. This is not a broken rule. |
| On-leash around jetties | Loathe it | Current daylight rules align with other councils making it easier to understand the rules no matter what beach you are on. Any enforced, on leash areas will be cost prohibited to regulate with all year council patrols. Currently patrols are only needed for daylight saving hours. I walk Semaphore to Largs most days and see dog owners being respectful when there are families, children, or exercisers by jetties, the owners are placing their dogs on lead if they feel there is any chance of not maintaining effective control of the dog(s). Indeed, I leash my younger of the two dogs I have, when anywhere near young children, whether there is a jetty or not. |

| Dog ownership: Yes | Relationship with dogs: I have a reactive dog (sensitive to certain stimuli or situations); I love dogs | |
| | Reasons to Visit (reasons don't visit): For recreation() | |
| Concepts: How do you feel about... | | <p>Daylight saving rules - 8pm is too late for off-leash to kick in as many families are settling in for the night before then meaning dogs miss out on important opportunities for socialisation and exercise at the beach - one of the only safe places to take them in the hot weather. Mornings are often too difficult as families need to juggle school/child care drop off etc before 10am.</p> <p>Dog exclusion areas - there is simply no justification for why a dog should be excluded from an outdoor area if restrained on a leash less than 2m long. Increase the punishment for not picking up after dogs if that's the problem but don't stop them even entering an area. Australia is already so far behind many other countries with our rules around pets.</p> |
| Daylight Savings Rules | Dislike them | |
| Off-leash (all times) | Like them | |
| On-leash (all times) | Like them | |
| Exclusion (all times) | Loathe them | |
| Grassed Foreshore | | <p>Option 2: Why complicate things by adding two small 'on-leash' areas? Keep it simple - dogs are allowed off leash on the grass as long as you have them under control.</p> |
| Current Rules | Like it | |
| On-leash around jetties | Loathe it | |
| North Haven | | <p>Option 2 - again, why add complications?</p> <p>There are already time limits that dogs are allowed off lead, which is most of the useable part of the day during the main beach-going season.</p> |
| Current Rules | Can live with it | |
| North On-leash | Loathe it | |
| Semaphore South to Breakwater | | <p>The existing rules already account for keeping dogs away from families who are having a picnic - they are only allowed off lead under the effective control of the owners.</p> <p>Why is our council considering complicating the rules for residents and disrupting their daily routines so that for a few months of the year people who don't like dogs feel more comfortable sitting on the grass? Research clearly shows that pet ownership & dog walking is good for health. Why make it harder for people? Christian H, Bauman A, et al (2018). Encouraging Dog Walking for Health Promotion and Disease Prevention. American Journal of Lifestyle Medicine, 12(3).</p> <p>Epping, J (2011). Dog Ownership and Dog Walking to Promote Physical Activity and Health in Patients. Current Sports Medicine Reports, 10(4): 224-227.</p> <p>Lentino C, Visek AJ, et al (2012). Dog Walking Is Associated With a Favorable Risk Profile Independent of a Moderate to High Volume of Physical Activity. J of Physical Activity & Health, 9(3): 414-420.</p> |

| | Current Rules | Dislike it | I wasn't actually aware that dogs were allowed off leash on grassed areas, and rarely see a dog off lead other than on the actual beach. I would be happy for dogs to have to be on-leash around the grass areas surrounding the jetty's as this is where people are eating and children are playing on playgrounds. I believe dogs off lead should be reserved for the beach. |

| Concepts: How do you feel about... | | I had actually thought the 10am-8pm rule was year round! It is confusing when some public areas are on leash and some are off. I really like the idea about having a "dog beach"/off leash area toward north haven. I think this would entice more visitors (and their dogs) to the area and it's a less used space. |
| Daylight Savings Rules | Like them | |
| Off-leash (all times) | Like them | |
| On-leash (all times) | Dislike them | |
| Exclusion (all times) | Dislike them | |
| Grassed Foreshore | | I think this allows for a safer area - having dogs off leash at Semaphore foreshore poses a huge risk in summer, with a high number of people, young children using the space as it has access to facilities and a playground. It makes sense to have this busier space with dogs on leash, although monitoring this would be difficult. |
| Current Rules | Can live with it | |
| On-leash around jetties | Like it | |
| North Haven | | Don't really use this section of beach although I see a lot of people walking their dogs along the marina (near the Sailmaster) who probably do |
| Current Rules | Like it | |
| North On-leash | Can live with it | |
| Semaphore South to Breakwater | | I think it should be on leash on the reserves near jetties. Daylight savings rules on the beaches and off leash past Strathfield Tce to north haven. This way all users can access the beach, during peak times of beachgoers dogs will be on leashes and we will have a dog friendly space for people to walk their dogs at any time of day along the beach (I know this is popular in Victoria). I live on Strathfield Tce and would love to be able to walk up the street, grab a coffee and take my dog to the beach - with young children pre 10am and post 8pm are difficult times to manage. |

| Concepts: How do you feel about... | | Context is important. I understand and support dogs on leash at all times in the immediate area around Largs and Semaphore jetties. Daylight savings rules at North Haven Beach make sense (as they are) and provide balance to the community. Dogs on leash all the time at the northern end of North Haven Beach (including the grass behind it) is overkill - the walking paths, beach and grassed area are EXTREMELY quiet most of the year and the off leash times in this area provide very important amenity for our family and dog. Please keep existing rules. We strongly oppose the change to 'dogs on leash at all times' for the northern end of North Haven Beach. |

| Grassed Foreshore | | This is an extremely high traffic area, it makes sense to have dogs on leash immediately around the jetty. |
| Current Rules | Loathe it | |
| On-leash around jetties | Love it | |
| North Haven | | We STRONGLY OPPOSE option 2. This is a very quiet area, and the daylight savings rules work well. We back on to the grass affected by this proposal - and we don't have a backyard (none of the houses along here do). They have been designed to 'spill' onto the grass area, and this is such an important amenity for us, our family and our dog. Imposing option 2 would severely limit our ability to exercise and socialise with our dog. The beach is not always suitable because of weather conditions, and my husband has a disability which limits his mobility. He would be unable to get down to the beach on most days, or even take the dog for a long leashed walk. Proposal 2 would limit him from taking her on a short unleashed walk on the surrounding grass and paths, or even throw a tennis ball directly outside our house. We find this proposal draconian and is looking to remedy a problem which doesn't exist given how quiet the area is. |
| Current Rules | Love it | |
| North On-leash | Loathe it | |
| Semaphore South to Breakwater | | I think on leash around jetties and daylight savings rules are the right mix. By having dogs off leash all the time, you create a 'doggy beach' rather than spreading dogs across the entire peninsula. It is also generally too hot for dogs on the beach during the day during daylight savings, so provides amenity for those to swim without dogs during peak times without really affecting dog owners. |

| Concepts: How do you feel about... | | My partner and I love going to the beach to walk our two dogs off-lead in the warmer months. There are always many other off-lead dogs who are well-behaved and walking next to their owners. It is one of my favourite things to do with my dogs. It would be a great loss to us if dogs were not allowed off-lead at all, and we would probably never go anymore. If you must restrict the off-lead times then extend the daylight savings off-lead times to the rest of the year, so that we can at least go in the mornings. When we've gone in the mornings before, there are never any young families/kids, just other dog owners walking with their dogs off-lead like us, so I don't see the problem in letting dogs be allowed off-lead before 10am, or even 9am if you must, before families arrive. If you decide to have no off-lead times at all then I expect you will see a decrease in dog owners going to the beaches, and a decrease in all those dogs quality of life (i.e. less exercise/stimulation/enrichment). |

| North Haven | | I can't see why we can't have designated off-leash times, that way everyone is happy. By forcing dogs to be on-leash at all times dog owners will never get to walk their dogs off-lead, not even in the quiet hours of the morning or in the middle of winter when hardly anyone else will be there anyway. |
| Current Rules | Like it | |
| North On-leash | Loathe it | |
| Semaphore South to Breakwater | | I think it would be hard to enforce these designated "on-lead zones", especially as some dogs (such as puppies) might run over to the on-lead area before the owner has time to get them back on a lead. Or owners might not know/remember exactly which areas are off-lead and on-lead. It would probably be easier to just have the same rules applied to the whole beach. But in saying that, I would prefer these on-lead zones over having the whole beach on-lead. |

On leash if the owner doesn't have control to be able to recall the dog, in any circumstance

In close quarters e.g. jetties, crowds, dogs must be on leash, if there are large gaps between beach users the off leash needs to be allowed

Options 2 or 3 as they both provide better protection for both dogs and humans near jetties etc

| Concepts: How do you feel about... | | I consider the beach my Happy Place, but I am bordering on dog phobic. If during my beach walk I see a dog in the distance not on a leash I become very nervous and alter my route to avoid near contact with the dog. Recently I saw a man enter the beach and remove his dog from the leash and it immediately ran and jumped up full body on another beach goer. Many, Many times someone with a dog has let their dog run up to me. My concern is with the rule about the dog being under verbal control, this is not happening. I don't consider the dog to be under verbal control if it is let loose to run up to me or anyone else for that matter. I also don't see how this can be monitored. For someone to then tell me to calm down it's only a small dog doesn't help the situation if someone has a real fear. I'd like to add that I have enjoyed beach walks during day light savings and see many dogs off the leash then too. |

| Concepts: How do you feel about... | | Dogs need off leash time for their health and wellbeing. I am aware too, as a dog training instructor to the community (I am also a sports dog competitor) that some dogs are not as reliable off lead as mine are. I feel there is a very positive role for local community dog clubs to educate the public about dog etiquette both on lead and off leash. It is also true that a very small minority of dogs are not suitable to be off lead, but it is highly unfair for the vast majority to be disadvantaged because of the few. It is true also that some people without dogs can ruin the beach experience for others but we don't ban people from the beach. Overseas, many countries allow dogs in restaurants and on public transport. We are already too restrictive. The countries that restrict dogs highly see way more behavioural problems in dogs than those that do not stop dogs from learning to partake in an active and environmentally fulfilling life. |

| Grassed Foreshore | | I like to obedience train my dogs off leash for competition focus on the grassed areas as they offer the perfect distraction practice with passers by. I have not experienced any problems from other dogs. With the road so nearby, it seem that only those with dogs that stay close and under good control tend to have their dogs off leash due to the road being there. I agree with dogs being on lead on the walking shared use path. ON THAT SUBJECT THE (SILENT) ELECTRIC SKATE BOARDS, SCOOTERS AND BIKES, AND EVEN NORMAL BIKES THAT CHARGE AT HIGH SPEED ALONG THE BEACH ARE INCREDIBLY DANGEROUS. IVE HAD MANY NEAR MISSES WITH AND WITHOUT MY DOGS. THEY CHARGE THROUGH GROUPS OF FAMILIES KIDS. |

| Concepts: How do you feel about... | | <p>I wonder how the 2 areas would be separated? I also think the proposed off lead area is too small if there were many dogs there.</p> <p>The off lead area from Strathfield Tce is too small. There is no parking within easy walking distance of the beach. It needs to be the whole area from Chester St onwards.</p> <p>How will it be policed? How will the areas be separated? Keep the rules as they are. As it is, the beaches are almost deserted outside summer, and even then are often empty of people on weekdays.</p> |

| Concepts: How do you feel about... | | <p>Firstly, any generic rule for all dogs doesn't take into account the variable nature, sizes and training of dogs, so there is a collective approach/punishment applied by such blanket rules take into account.</p> <p>Secondly, any dog control rules are generally followed by considerate owners of well behaved dogs, while the less community minded dog owner with the less well behaved dogs will still generally ignore any regulations.</p> <p>Therefore, we end up with a situation where the good are restricted in their enjoyment while the less good act in an unrestricted manner - the end result being that there is no real improvement regarding poor dog behaviour but the enjoyment of good dog ownership is reduced.</p> <p>While keen to limit restriction on dogs being off lead, I think as the beach areas around the jetties are getting busier each succeeding year and with lots of children, etc it would be sensible to have dogs on leads.</p> <p>The current rules work well. In winter few people use this beach other than dog walkers.</p> <p>Current rules work well. In winter few people other than dog walkers use the beaches. Not sure why the all-year-round-north-of-taperoo is not offered as a 4th option in conjunction with Option 1. I believe better education on what amounts to effective control would not go amiss either, so dog owners are more aware of the requirements to have their dogs off lead.</p> |

| North Haven | | North haven is a small beach and your proposed off leash area is always completely covered in sea weed and unusable. This would cause issues with dogs being confined to a small area. The beach is hardly used over winter other than for dog walkers. Current rules work well. Other countries allow dogs in cafes, accommodation and on planes with very few issues as they are used to mixing with people and other dogs, we are doing the opposite in our country. Our dogs are part of our families and give us so much love and joy. We need to give them an opportunity to live their best life. |

| | Concepts: How do you feel about... | | North haven beach, (NHSLC end) Over the past 18 months since living at north haven I have walked my dogs 5-6 times a week with zero issues of off leash with dogs. Most community members are friendly and give a wave. I believe dog owner should have a right to be able to let their dogs off the leash when they deem safe. Thanks Lee |

| Semaphore South to Breakwater | | The current rules work well. I don't see any reason for change. There doesn't appear to be any evidence of the need for change. I think the options that have changing rules depending on where you are on the beach or foreshore, are confusing. The clearest and easiest to follow rules are the current rules. My experience, having spent time on these beaches for more than 30 years, is that the majority of dog owners/walkers are responsible. They are courteous of others, with and without dogs, and take care of the beach by picking up rubbish and cleaning up after their dogs. It's a very friendly and positive community and the dogs are loved and cared for and have a great life too! There is plenty of evidence to support the view that a community like this, has a huge impact (positive) on the mental and physical health of its residents. |

| Concepts: How do you feel about... | | Responsible dog owners and their dogs should be able to enjoy the beaches freely. It's not the same experience for the owner or the dog to have a dog on lead. There is nothing better than seeing a happy dog running and swimming on the beach. There are plenty of places where dogs must be on lead at all times or are not allowed. Whilst the beach is at its busiest, it is fair that dogs should be on lead but outside of this time dog owners should still be allowed to take their dogs to enjoy the beach lead free. |

| | Reasons to Visit (reasons don't visit): To walk my dog(s) | |
| Concepts: How do you feel about... | | <p>Current daylight savings rules are fine. The beach is popular in warmer weather with many visitors frequenting the area. Leash laws around the jetties are acceptable in conjunction with daylight savings however in winter this could be more flexible. During the cooler months the beach is sparsely populated and it is mainly dog owners. Dogs should be on leashes at all times away from the beach such as the grassed foreshore areas and bike path. This obviously does not apply to other areas such as local ovals already catering for dogs.</p> <p>As a side note I am the owner of a small timid dog(6kgs in weight) and walk the beach frequently at all times of the year. My dog is well controlled off leash and doesn't seek out other dogs. I have never once encountered a threatening situation where I or my timid dog were or felt at risk. At worse some of the larger breeds were a little playfull at times but there never appeared to be any aggressive behaviour.</p> |
| Daylight Savings Rules | Like them | |
| Off-leash (all times) | Like them | |
| On-leash (all times) | Can live with them | |
| Exclusion (all times) | Can live with them | |
| Grassed Foreshore | | <p>Common areas away from the beach should be leashed all year round. It is for the safety of people and dogs. Unleashed dogs can be hit by cyclists and cars.</p> <p>While most dogs are good they are effectively under control until they aren't. Leashed around jetties and grassed areas and the bike path.</p> |
| Current Rules | Can live with it | |
| On-leash around jetties | Like it | |
| North Haven | | <p>I believe all options are viable as long as the distance from each jetty is limited to 150 metres for leashed dogs on the beach during daylight savings. If it was 500 metres that would effectively cover the entire distance between Semaphore and Largs Bay jetty. That would be an overreach especially in winter.</p> |

| Current Rules | Love it | <p>I walk my dog on the beach through winter and there are many times when there's no one on the beach. I like the option of letting him run off leash during those colder months. I'm more than happy to follow the on leash rules for daylight savings.</p> <p>If one area is made off leash only, it means having more dogs in a contained zone... and in the cooler months or times of day (6am) when not many people are on the beach we can't spread out and stay away from each other.</p> |

| Concepts: How do you feel about... | | Disgusted with your council. Only 4.8 % of dog attacks happen on beach so why exclude your council rate payers with dogs walking their dogs on the beach. I walk 3 doggies every week on the Semaphore to Largs Bay kiosk walk they socialise, they play and Millie get her old lady joints moving she has arthritis so needs the softer packed sand to lubricate her joints. I wish only the worst in life for anyone who stands in the way of the doggies who just want to have time on the beach. Dogs running together and catching balls create a happy family atmosphere so banning dogs is a cruel and senseless thing to do. Have respect for all life dogs count. |

| | Concepts: How do you feel about... | | The beach is not the most popular due to seaweed, not dogs off leash. I believe the foreshore rules should change to on leash at all times as this is mainly where families meet and eat etc, not the beach. The beach can be busy in school holidays otherwise fairly empty. In fact in cool days and months the only visitors are dog walkers. We help keep the beaches clean from the disgusting visitors and semaphore is and has always been very dog friendly |

| | | Reasons to Visit (reasons don't visit): To exercise; For recreation; With my adult friends and family; To walk my dog(s)() | |
| | Concepts: How do you feel about... | | <p>My dog recently died, but loved walking on the beach and playing in the water. I've never encountered a dog owner on the beach who hasn't had good control of their dog when off-lead, and the vast majority of users during the current off-the-lead times are dog walkers - very few beachgoers without a dog.</p> <p>The rules should reflect mixed use of our beaches - dogs are currently only allowed off-leash for a short amount of time (in my opinion, these times should be extended) so banning dogs or making beaches leash only is not fair to rate paying and dog registration paying owners and dogs. I am against creating bans or further restrictions.</p> |

| Concepts: How do you feel about... | | I'd prefer it if dogs were made to be on a lead at all times. Our greyhound must be on lead at all times. I hate it when unleashed dogs run up unbidden. I find it frightening. There are too many irresponsible owners who have no control of their pets, or just don't care. They think their dogs have "a right" to run free on the beach, foreshore. Well, I have a right to feel safe. If people want to let their dogs run free, I suggest they visit a fenced dog park, or move to a large property. |

| Concepts: How do you feel about... | | I understand that dog owners want their pets to run free but it can be quite scary for people with genuine phobias. I walk between Largs and Semaphore jetties on a regular basis and am not sure of the leash rules, perhaps it is better signage that is required with the rules? Most times I do see dogs without leads on the grassed area next to the Largs beachfront cafe, so dog owners need to take responsibility too but who is policing this? Visitors to the area most likely would not know the rules? |

| Concepts: How do you feel about... | | I don't see why we need to change the current dog laws, that give both dog owners and non dog owners access to the beach that best suits their individual preferences. |
| Daylight Savings Rules | Can live with them | |
| Off-leash (all times) | Can live with them | |
| On-leash (all times) | Dislike them | |
| Exclusion (all times) | Dislike them | |
| Grassed Foreshore | | I can accept that high traffic areas around the two jetty's can be better suited to on leash dogs. I just think this could be confusing, having different rules for grassed areas. I like that dog owners are able to make good choices about their own dogs capacity to behave in the areas is good for all the communal spaces. |
| Current Rules | Love it | |
| On-leash around jetties | Can live with it | |
| North Haven | | I feel current day light saving laws are fairer for the whole coastline. Option 2 could see a an unfair concentration of dogs for those residents living that southern end of that area. |
| Current Rules | Love it | |
| North On-leash | Dislike it | |
| Semaphore South to Breakwater | | I maintain that current laws are adequate giving dog owners and those not owning dogs good clear options about what they can expect by dogs laws on this very popular section of the coast. I think the changes, which I can live with in option 2 are confusing and hard to know where those boundaries lie for all beach users, potentially causing more conflict between dog owners and non dog owners. Option 3 would mean higher concentration of dogs in one section of our beaches and unfair on residents living and visiting that section of the beach. Equally is would be confusing to all beach users where this boundaries lie. |
| Current Rules | Love it | |

| Concepts: How do you feel about... | | It would be nice to see a range of areas for dogs and their owners to enjoy alongside the rest of the community. For example, I understand that it is frustrating for owners of a reactive dog to be walking on the beach and have their dog approached by off leash dogs - for this reason, on lead at all times areas are a good thing. But there should also be an option for off leash at all times - perhaps a small section of the beach that is not so busy, as well as the daylight savings rules in the more popular areas. Even better, I would love to see separate off leash areas for big dogs and small dogs so all our furry friends can play safely! |

| Concepts: How do you feel about... | | <p>I have found that unfortunately too many dog owners don't ask myself or my daughter if we feel safe with their dogs. They say things like, "don't worry, she's friendly".</p> <p>I love dogs! My daughter loves dogs!! But we don't like dogs and owners that come up and jump all over us without asking. This is a safety issue: sometimes the dogs that are a bit aggressive. I've had to put my daughter behind me as two dogs started barking and losing it at each other.</p> <p>I also unfortunately personally know a friend who uses your area, whose dog bit their owner, requiring 11 stitches, and they are still advocating for their greyhound to be allowed off leash. This is madness! We don't know what kinds of dogs are off leash, as owners often act with their heart rather than their heads.</p> <p>As regular visitors and consumers in your area, where we spend a lot of our leisure time and money, I would feel a lot safer if dogs were always leashed, for the above reasons.</p> |

| | Concepts: How do you feel about... | | I understand the on lead times on the beach, but would like to see them shorted to 6pm at night. It gives those that work early a reasonable chance to go to the beach at night at a reasonable time. As someone who spends a lot of time on the beach through SLS, there are usually low numbers on the beach after 6pm except those rare perfect nights through summer, in which case it is still packed till nightfall. Even 5pm is often empty. |

| | Concepts: How do you feel about... | | Making areas exclusively on or off leash all year round is a poor community decision, and a terrible environmental decision. I spend a lot of time training my dog, so that she remains under effective control, and I can currently walk to the beach to let her off lead and roam. I would have to get in my car and drive north of Strathfield terrace from Semaphore South to do this under the new rules. Wasting petrol, adding to fumes, and creating angst towards the council. |

| | | Reasons to Visit (reasons don't visit): To walk my dog(s); To exercise; For recreation; With my adult friends and family() | |
| | Concepts: How do you feel about... | | I walk my dogs at Semaphore beach every morning, rain, hail or shine at 6:30am with a group of other dog walkers. The ONLY people I ever see on the beach between 6:30am-8:00am on weekday mornings are dog walkers. If you want to ban dogs from being on the beach, you will no longer have anyone on the beach at these times. I am originally from Canberra and have moved here to study veterinary medicine and I personally believe Adelaide people do not leave their houses in bad weather. All winter, I do not see anyone on the beach. I can't believe we would even consider banning dogs from being off leash or even being on the beach at all every day all day to make way for the minute percentile of people who are there and hate dogs being within their vicinity. Instead of just doing a blanket ban and then trying to enforce that, why doesn't PAE just enforce the current rules it has in place and ensure that dogs who are off lead are under effective control. I have NEVER had a bad incident. |

| Concepts: How do you feel about... | | I wish to inform those who it concerns that we have a 11 month old Kelpie that needs a good run and is well behaved and loves going into the water. Having dogs off leash early in the morning is enough restrictions during daylight saving in the warmer months. Colder months it is irrelevant. All dogs love the freedom and exercise of the beach. Maybe having allocated areas for dogs off leash is an option at certain times. Don't punish the dogs to try to please those who don't appreciate the extent of their preferences. It will make it a lonely quiet place to be if you see how happy people are to see a dog loving the beach and able to interact with them. |

| Concepts: How do you feel about... | | There is no need to force dogs on lead at all times. The current rules daylight saving work well and there is no need to change this. The whole community needs to be able to cohabit and participate in various past times and interests. Dogs are a very important piece of many people's lives and the ability to exercise them. I have no idea what the drive for this enquiry is but I hope that a common sense solution is found. |

| Grassed Foreshore | | I see absolutely no reason for changing the current arrangement. It works well and is an important part of many rate payers lives. Often during off leash periods dogs and their owners are the only ones on the beach and at other times my experience has been of extremely respectful dog owners and dogs. I have not heard of any negative dog interactions and this would seem to be supported by the evidence over the past 2 years which I understand shows a decrease in incidence. |

| Concepts: How do you feel about... | | <p>I love the beach. My dog Marley loves the beach. My husband and I thoroughly enjoy taking Marley to the beach so she has somewhere to run around off-leash that's an open space where she doesn't feel restricted (being a anxious dog on lead, that doesn't enjoy the confined spaces of the dog park (As much as I do love dog parks))</p> <p>Along with Marley, I too have anxiety and suffer from depression. Without this daily outing that Marley and I have of running along the beach together then we would both be stuck inside all day with not a lot of socialising (on both our parts) Having the option to take Marley to the beach and get outside has been a huge help for both our mental health illnesses and has helped both of our confidence.</p> <p>Thank you kindly, Aleisha and Marley</p> |

| Semaphore South to Breakwater | | <p>I love the beach. My dog Marley loves the beach. My husband and I thoroughly enjoy taking Marley to the beach so she has somewhere to run around off-leash that's an open space where she doesn't feel restricted (being a anxious dog on lead, that doesn't enjoy the confined spaces of the dog park (As much as I do love dog parks))</p> <p>Along with Marley, I too have anxiety and suffer from depression. Without this daily outing that Marley and I have of running along the beach together then we would both be stuck inside all day with not a lot of socialising (on both our parts) Having the option to take Marley to the beach and get outside has been a huge help for both our mental health illnesses and has helped both of our confidence.</p> <p>Thank you kindly, Aleisha and Marley</p> |

| | Concepts: How do you feel about... | | After visiting the beach today and had a dog off leash charge at my two greyhounds, I and my daughter were left shaken. This was around 6pm. The owner unfortunately did not have voice recall of her small dog, one of my dogs became reactive and my other nearly pulled his collar off. Please do make these very popular public spaces leads on for safety for animals and humans |

| | Concepts: How do you feel about... | | Responsibility dog owners will keep dangerous dogs on leads at all time. But there should be at least 1 beach in Adelaide where dogs can enjoy themselves. I understand it shouldn't be a busy beach but inbetween Semaphore and Tennyson or Semaphore and North haven should be 1 dog friendly beach. People could decide then if they want to go there or on a dog on lead beach. I think that would be a win win for everyone |

| Concepts: How do you feel about... | | <p>The vast majority of dogs are well behaved and similarly most dog owners are responsible. I have walked my dogs at Semaphore beach on and off the leash for 35 years without incident. There is no need for change.</p> <p>In this isolating time do not underestimate the way dog walking builds community and provides social exchange between young and old.</p> <p>Also the changes are very human privileging denying other species the right to use beaches unhindered or unchained. It's a very conservative attitude at a time when ethics is willing to explore the rights of the non human.</p> |

| Dog ownership: No | Relationship with dogs: I dislike dogs | |
| | Reasons to Visit (reasons don't visit): To exercise; With my adult friends and family() | |
| Concepts: How do you feel about... | | <p>The path along the foreshore is, in my opinion, ONLY for walkers, runners and cyclists. If only one area is kept as a Leash-only area, please keep this as the first priority. Cyclists and elderly walkers can be (and have been) injured by tripping over dogs, and runners are at risk of large, active dogs chasing them and thinking it's a game. I can live with the grassed area being off-leash, but I am sick of encountering dogs running towards me on the path when I walk or run each day in the early morning.</p> <p>I think it is reasonable that dog-owners use the beaches Off-leash before 10am and after 7pm, and Lease-only on weekends and every day during the summer: Dec-Feb, when young children may be on the beach. No matter how well-trained the dog, preschoolers are never 100% safe around dogs off leash. Where there is a decision between being Child-safe and Dog-friendly, I would much prefer that the Council chooses Child-safe; they don't vote but they are also residents.</p> <p>Thank you.</p> |

| Concepts: How do you feel about... | | <p>Prefer as it is as or even off lead at all times - it is very hard to walk two active dogs on lead on a beach together. Let's face it beaches are pretty empty during the day so no point to have dog on lead. I trust owners will decide what is best for their dog and surrounds. I guess the people who don't will also certainly not care what rule is in place.</p> |

| Concepts: How do you feel about... | | Looking at Normanville why can't we just make dogs on leads a 100m each side of the jetties. Most visitors and people in general only use that part of the beach anyway. This will allow to keep everything as normal for the dog walkers and the dogs. I would like times for on and off lead stay the same. I have lived in the area for 14 years and to warrant these changes on people who use the beach everyday so a few can use it once a year is one of the craziest things I have ever heard. |
| Daylight Savings Rules | Love them | |

| Grassed Foreshore | | Why don't we remove the bikes and scooter's speeding as you walk along the path, I see them being way more of a problem than someones dog. Most dog owners have good control over their dogs and it's only people that come for a visit that seem to have a problem with their animals or other people's dogs. Why should I and my dog suffer so that someone that only uses the area a couple of times a year can feel warm and fuzzy. We live work and spend all our time in the Semaphore area and it would be a big loss for the community if we loose the little things that make our community great. |

| Concepts: How do you feel about... | | I should have the same rights as anyone else to take my small dogs on the beach and exercise them and myself - how dare you try to take those rights away. I walk early and rarely see children and my naughty dog is always on a leash. I literally moved house to be closer to the beach for the benefit of being able to walk and swim with my dogs. This does not require taking the rights of everyone away but should focus on those who do not do the right thing. |

| | Concepts: How do you feel about... | | We have our own dog that we walk on the beach with a lead. We love dogs however we have had instances of dogs just running up to us, it can be quite intrusive they run all over your personal belongings and can be scary especially when we are with our grandchildren especially if it's a larger dog. Maybe there could be designated areas for people to let their dogs run off the lead but otherwise I really feel they should be on leads. There are so many dogs down there it's a bit of an overload. |

| Concepts: How do you feel about... | | As the owner of a Chihuahua who never walks further than 10 metres away from me regardless of where we are walking; I see these restrictions as absolutely ridiculous. My mother in law often walks my dog down at Semaphore and North Haven twice a day and has never had an issue along these beaches with the dog being a threat to children, other dogs, etc. If this law is imposed it will very much hurt our families fitness regimes and social aspects as well. Luckily my partner and I live down South where our council respects our freedom and appreciation of the beautiful beaches we are blessed to have along our SA coastline. Such a shame this has even become an issue. If your child or dog is scared of dogs, as an owner/parent you have the responsibility and option to voice that to whoever is imposing a 'threat' to you in that time. I was very scared of dogs as a child and that didn't mean my mum couldn't take me to the park or beach. Just had to let people know of my fear. Thanks. |

| Grassed Foreshore | | As my previous statement said, I think the idea of dogs being on leashes is ridiculous. People have voices, use them if you have an issue with another dog or your child is scared but do not take away the freedom for those who are genuinely enjoying fitness, leisure and sporting opportunities along our magnificent coastlines. If this chance is allowed I can guarantee it will impact not only our family but many more and make it much harder to stay active and enjoy our lives the way we should be able to. |

| Concepts: How do you feel about... | | Have been walking my dogs a few times a week there for years. Never had an issue with other dogs. If people want dogs off the beach then why not do a fenced area like a Brighton in Victoria has. Huge area for dogs to run and swim and they are fenced in. Just because someone is scared of a dog the rest of the world shouldn't have to suffer. Kids can be a pain at the beach with their screaming and crying.....do we ask for a child free beach...no we don't. We all need to get along |

| Concepts: How do you feel about... | | I visit Semaphore beach regularly (2-3 times per week) with my small Jack Russel dog, he is obedient, trained and when off leash is always under my control. I often meet with other regular dog walkers on the beach, usually between 7.30 and 9.00am every week and they always have their dogs under control off leash. I have never had any issues with any other dogs what so ever and have always found the dog owners very friendly and respectful of mine and all other people with dogs on the beach. I will strongly encourage the council not to alter the status quo, it currently works well. I must also mention that my dog has never had any issues with any beach users that are not dog walkers. |

| Concepts: How do you feel about... | | <p>We have been coming to Semaphore beach every weekend for the last thirty years and always walked the dogs off lease when permitted to do so. Semaphore beach is great for socialising the dogs and also to meet up with like minded people and share a cup of coffee at the Train Station Kiosk. It is a great place to keep fit and socialise.</p> <p>I think current times work well and hate to see them changed.</p> <p>I would like to see the pathway along the foreshore have a speed limit for bike riders reduced to twenty mph as they are a hazard for elderly people, children and animals.</p> <p>I would like to keep option 1.</p> |

| Concepts: How do you feel about... | | I dont believe any area of the beach should have dogs off-leash all times, we need to feel safe when going to the beach, especially when taking children. I see many dog owners taking their dogs to the beach during the off leash times and they have no concept of effective control, in particular dog owners who take multiple dogs, they allow their dogs to move and maneuver their way around other peoples dogs and other people, even when the other persons dogs are on leads and the other person is showing fear from the dogs, we all know they are pack animals and this lack of effective control can have serious injury and potentially legal consequences, so lets limit the potential exposure to injury, by limiting the time when dogs can be off the leash. I believe the time that dogs should be allowed off leash is before 10am and after 8.00am all year round. |

| Grassed Foreshore | | I do not believe any dog should be allowed off leash within 200 meters of a childrens playground or a public BBQ area, the reasons are obvious in relation to childrens safety and the enjoying a family outing without the disruption of off lead dogs being attracted. |
| Current Rules | Loathe it | |
| On-leash around jetties | Love it | |
| North Haven | | The area north of the entrance is used for the surf life saving club including Childrens training, hence in full support. |
| Current Rules | Love it | |
| North On-leash | Love it | |
| Semaphore South to Breakwater | | The Jetty area is supported well by families should be safe and i support a 200m zone. The concept of allowing the area between North Haven break water and Taperoo all the time is irresponsible, why penalise a certain area and what is the selection critera based around, this selection process was not mentioned anywhere. There is a new beach side housing complex at Taperoo, these residents purchased a beach side property for them and their immediate family members to enjoy the beach, why should they be subjected to unfair treatment. I dont believe any area of the beach should have dogs off-leash all times, we need some time to feel safe when going to the beach, especially with children. I see dog owners taking dogs to the beach during the off leash times and they have no concept of effective control, dog owners who take multiple dogs, they allow their dogs to move their way around other peoples dogs and people, even when other dogs are on leads and the other person is showing fear. |

| Concepts: How do you feel about... | | <p>The daylight savings rules sometimes feel a little restrictive, especially during the weekdays. 10am to 8pm makes sense during the long summer weekends, but perhaps during weekdays when the beaches aren't so busy it could be brought back to 7pm so we don't have to walk our dogs so late.</p> <p>That said, what good are rules if they are not enforced? Plenty of times I see dogs in on-leash areas around Semaphore (especially on the footpaths of Semaphore Rd) off leash, regardless of the impact to other community members.</p> <p>There are many places where there is no barrier between the foreshore reserve and the Esplanade. This poses a safety risk for dogs, especially if they are not under effective control.</p> <p>My main issue with the proposed changes is the unknown distance of the on-leash zone around the jetties. The idea makes sense, but given there is only ~1.5-1.6km between Semaphore and Largs jetties, a 500m on-leash zone would only leave around one-third of the distance available for off-leash walking/play. For those dog owners who use the jetties as a start and end point this would definitely reduce the amenity of the beach for our dogs, especially if it is a year-round restriction.</p> |

| Concepts: How do you feel about... | | <p>Being able to walk my dogs off leash on the beach is what I love most about living where I live. It is very important for me that I be able continue to do this.</p> <p>I am content with the way things are now. My concern is that changes to other areas will change where other people choose to go. It may lead to an increase in people/dogs in the patch of beach I use regularly (taperoo end). While I don't want to restrict anybody, my preference is for a solitary walk on a less populated beach and choose my time accordingly.</p> <p>I can understand possible rule changes for grassed areas.</p> |

| Concepts: How do you feel about... | | Day light savings rules are simple and easy to abide with. It becomes very confusing when we start on and off leash in different areas/times etc. I feel this has been working ok and not even sure why it needs to be changed. I understand there are people who would like to have off leash areas all the times as well as people who are scared of dogs and will prefer if they are on leash all the time. I don't like the dog exclusion areas. If dogs are on leash they should be ok anywhere. Keep it simple I say. Easier to comply (for people) easier to control (for you) |
| Daylight Savings Rules | Love them | |
| Off-leash (all times) | Dislike them | |
| On-leash (all times) | Dislike them | |
| Exclusion (all times) | Dislike them | |
| Grassed Foreshore | | Due to the paths being 'on leash' at all times I think it gets very confusing for people. Leash on/leash off depending where you are walking. That is why I don't think Off-leash in the grassed areas work as dogs will be running around. I like the second option as those particular areas are usually very crowded and I think having dogs on leash there at all times will be good for all concerned. |
| Current Rules | Dislike it | |
| On-leash around jetties | Like it | |
| North Haven | | I am not very familiar with this area so happy to go with majority on this one. |
| Current Rules | Like it | |
| North On-leash | Like it | |
| Semaphore South to Breakwater | | I think the current rules are ok and don't see a need to change them. I can live with either of the other 2 options though once again I think it becomes confusing when you have areas on/off leash. I believe that people get it right when it is a simple rule, especially if we consider non English speaking people. I also think it is easier to control if people know what times the dog is allowed off leash and what times the dog needs to be on leash. Simple! |

| Concepts: How do you feel about... | | <p>Daylight savings times needs to start earlier e.g. 6.00 am and then it would be useful. The current hours exclude us from going there before work. I cannot go after work, or it can be too hot for my black dog to go at that time. If you ever see a dog under "effective control" let me know. I've never come across one, they just do what they want, go as far as they want. Owners are not responsible. Owners do not train dogs on recall.</p> <p>Off leash areas all times- excludes people from going to those areas at all times by default, if they don't like dogs, are scared of dogs, or have a dog that is scared of off leash dogs. Both of these rules are biased towards dog owners with off leash dogs. The rest of society has to risk having uncontrolled dogs running at them or not go those areas. Beach and foreshore grassed area access should be biased towards non-dog owners, not towards dog owners.</p> <p>"Effective control and close to the owner" is not effective in practice.</p> |

| Grassed Foreshore | | <p>Off leash all areas makes life difficult for non-dog owners and others not wanting uncontrolled dogs running at them, see my previous comments. Dog owners do not have "effective" control of their dogs,</p> <p>Designated areas on leash should be bigger than designated off leash areas in such popular suburban beaches and foreshore reserves where many people come from far and wide to visit. On-leash areas should be a minimum of 1 km long, and very clearly sign posted and frequently policed by the council to enforce it.</p> |
| Current Rules | Loathe it | |
| On-leash around jetties | Can live with it | |
| North Haven | | <p>Reasonable sized on leash area is more fair for all users.</p> |
| Current Rules | Dislike it | |
| North On-leash | Like it | |
| Semaphore South to Breakwater | | <p>On leash areas around jetties should be a minimum of 1 km long, ideally much longer than this (3-5 km). As stated previously, rules should be biased towards non-dog owner/users of the beaches and foreshore areas, these remain the majority. The issues are that dog owners with dogs off leash very rarely have their dog under "effective control". Few can recall their dog Before it runs over to another dog or other people on the beach or foreshore. So the minority are ruining the day of the majority. You need to actually spend some resources on educating dog owners with off leash dogs on what "effective" control is and what recall is. Duty of care is a responsibility here.</p> |

| Concepts: How do you feel about... | | the key phrase here is "under effective control" . If you use the Semaphore foreshore and beach daily, as we do, you will immediately see that the rules are not well posted, and NOBODY follows the rules. I have never in 8 years of walking the foreshore/beach seen an off-leash dog "under effective control". Please BUILD A DOG RUN. |

| Concepts: How do you feel about... | | Council published that dogs were to be on-leash AT ALL TIMES. This is a very sensible decision for everyone except a few vocal dog owners who believe their dog can do no wrong. Council has clearly been scared into submission by aggressive dog owners (who probably own aggressive dogs!). I should be able to walk on the beach AT ANY TIME without being bothered by off-leash dogs. Almost every day my quiet peaceful walk is disturbed by a dog bounding up to me and/or owners calling 'Nelson/Fido/Spot' loudly as the dog ignores them. There is a new large dog playground just a couple of minutes further along Military Road where people can let them off leash. I am EXTREMELY DISAPPOINTED that council published a dogs on-lead policy and then lost the courage to enforce it. Responsible dog owners should agree that dogs should be on leash. As the Dog Management campaign points out, any dog can bite. We will hold COUNCIL responsible if so. Please change the policy as planned! Thank you. |

| North On-leash | Like it | |
| Semaphore South to Breakwater | | All these options include the phrase 'off leash under effective control'. We all know this is a nonsense. All dogs can bite as the current advertising campaign tells us vividly. And in three years of walking on the beach almost daily, I have NEVER seen a council ranger or officer enforcing this, so it's totally meaningless. If Council continues to allow dogs off leash you MUST undertake to monitor and enforce the effective control rule otherwise it's totally meaningless. |

| Concepts: How do you feel about... | | <p>I do like the concepts of off lead all times and on lead at all times in certain specified areas. I'm not certain that dog exclusion is required if you have on lead at all time areas. I think daylight saving rules complicate the issue and rules should be simple if you expect users to understand and willingly obey them</p> <p>An off lead at all times area would prove popular. I currently walk the beach each day between Strathfield Terrace and the Taperoo breakwater with my dog and there are usually few users of the beach without dogs in that area, and in fact few users in general because it is an area that is often covered in seaweed. The majority of dog users currently walk their dogs off lead in that area so it is reasonably good concept to use that area as an off lead area.</p> |

| Concepts: How do you feel about... | | The current rules around dogs are fine as they are. Please don't further restrict people's lives through harsher rules. With so many single households now, pets and primarily dogs, are now a critical part of people's lives and mental health. They bring people together and help connect communities. There are so many places that now restrict dogs. It's completely backwards. Other countries approach this very differently and embrace dogs as part of the community. Learn from other countries rules. The very small number of issues involving dogs should not wreck it for the rest of us who are responsible dog owners. | |

| Concepts: How do you feel about... | | <p>Dogs should be allowed off lead but under effective control AT ALL TIMES. This gives owners who have reactive, anti social, or less obedient dogs an obligation to stay on lead (and they usually do!). There is a very clear unspoken rule amongst the residents who walk their dogs on the beach and reserves - if your dog is on the lead, I'll call mine back and keep it leashed until we pass each other. If yours is off lead, I will allow mine to say hello / play. IT WORKS! Realistically, the people who use these areas the most are the dogs. Most use it at least twice a day, all year round. The dog walkers are the ones who clean up after the recreational beach users constantly throughout summer. I understand the beach and reserves are for everyone to use, but forcing dogs who have been off lead in these areas their whole lives, will create conflict between residents and council. The regular dog walking residents know their dogs and make responsible decisions regarding being on or off the lead</p> |

With dog exclusion areas the opportunity for a longer walk for older residents who live near the jetties is restricted. Not everyone has a car to drive to an off leash area. The current daylight saving rules allow people to walk their dogs freely and don't interfere with the majority of beach goers who arrive after 10 in summer and are predominantly absent during winter. Thankyou

Has anyone actually surveyed the number of people who actually visit North Haven beach ?

Some dogs are reactive on leash with other dogs. If a dog is under effective control off leash what difference does it make walking past the jetties?

| | Concepts: How do you feel about... | | Dog rules in place to day light savings. The dog on leash areas definitely keep us from visiting semaphore & PA during the day throughout daylight savings, which is disappointing. There is far too little off leash time during day light savings for reserves & beach time. If under effective control I don't understand why a portion of beach isn't assigned to dog off leash area. Ridiculous having west beach & south of Adelaide as the only options of metro beach areas where dogs are allowed off lead year round. Myself & MANY others want this changed. Please :) |

I really love the idea of an on leash area near the largs and semaphore jetties. My dog is a rescue from the AWL and is reactive, and my friend is fearful of dogs. So creating safer spaces, where there is no risk of off lead dogs creating stress/anxiety would be amazing. It would also be great for community members with young children, keeping them safer by having areas they can enjoy without off lead dogs around.

I'm not as keen on a no dog zone. Dogs are part of the family. A major activity of going to the beach is a family walk, which might become difficult if there were stretches the dog was not allowed into.

Grassy areas are a popular location for family BBQs and gatherings. Having on-lead areas for dogs would be good. Off lead dogs are at risk of getting into the belongings of other community members, which could include foods poisonous to dogs. People who are anxious/fearful of dogs, and small children should have grassed foreshore areas they can go to where dogs must be on lead.

On leash around jetties would be brilliant. You never know which dogs are going to react to each other, requiring leads in these areas gives anxious dogs a space to enjoy the beach with their owners having control over how close they get to other dogs. Community members fearful of dogs will also be more at ease in these areas with the risk of an off lead dog running up to them removed.

| North Haven | | <p>North Haven beach tends to be much quieter than Semaphore/Largs and this is a great place to take dogs that might not want to interact with other dogs as much.</p> <p>The North end is often completely covered in seagrass and not very accessible at all times.</p> <p>Current rules that in place work well for this area.</p> |
| Current Rules | Love it | |
| North On-leash | Loathe it | |
| Semaphore South to Breakwater | | <p>It's interesting that you have 2 anti dog options and the only 1 good one for dog walkers and this is what we currently have.</p> <p>I personally think that 100m either side of each jetty would be more than enough space. If you allowed 500m in total either side of both jetties this would exclude a massive amount of the beach. There are dog walkers with limited mobility that use the jetty for access to the beach, they would not be able to do this with this option. The current accessible options need people to walk over quite a lot of the beach to get to the water.</p> <p>Again you have no allowance for winter/daylight savings for options 2 and 3, I will repeat myself. The only people using the beach in winter are dog walkers, there should always be daylight saving/winter allowances in the rules.</p> |

| <p>We have lived at Semaphore South for 15 years and have always walked our dog on the beach in the mornings. During winter the only people on the beach are local people with dogs. Obviously during summer there are more people using the beach, so the current day light savings rules make sense. It seems ridiculous to penalise the majority of people who use the beach year round. Discouraging people from exercising on the beach first thing in the mornings seems counter intuitive to the promotion of good lifestyle choices.</p> <p>All of the dogs on the beach that I have ever encounter are extremely well behaved and friendly (as they are there everyday). I understand that during peak times on the beach it is not practical to have dogs off leash, but the majority of owners can recognise this for themselves and leash their dog when appropriate.</p> | | |

| Concepts: How do you feel about... | | As someone who has two young children who both have been traumatized by incidents on the beach with dogs and irresponsible owners, I would prefer that dogs remain on-leash as much as possible. Dog exclusion areas and on-leash areas mean that every person can enjoy the beach without having to worry how obedient/well behaved a dog is. I don't see why the council should make provisions for dogs to be off lead on the beach, our rates already pay for dog parks. Why should extra provisions be made because someone buys the wrong breed/size of dog suitable for their living situation? If all dog owners were responsible and trained their pets properly there would be no problem, unfortunately this is not the case and so rules need to be in place to protect the public from owners that do not 'do the right thing'. Allowing an off-leash area on the beach is a slippery slope because it is a self policing principle, so all it takes is one poorly trained dog to race off and potentially hurt someone. |

| On-leash around jetties | Love it | |
| North Haven | | I'm a local to this beach with two young kids, both of whom are now terrified of dogs because of incidents there. Last summer my family was down at North Haven beach for the afternoon when a woman decided to take her Labrador off leash and start pitching a tennis ball down the beach towards we had set up for the day. The 40kg dog leapt for the ball, narrowly missing my 15kg, 3 year old son. Had the dog hit him, we would off been going to the hospital for sure. The woman seemed ignorant to the fact that she was putting my kids in danger until I raised it with her. The incident terrified my son and has had a profound affect on interactions with dogs. Because of this I am hyper-vigilant at the beach and I so observe owner/dog interactions quite closely. The amount of dogs that can't/won't obey a command is concerning to say the least. Option 2 at least gives me some peace of mind that I can take my kids to the beach without them being further traumatised, injured or worse. |
| Current Rules | Dislike it | |
| North On-leash | Love it | |
| Semaphore South to Breakwater | | Owners already get dog parks paid for by our rates, public spaces should not have to be sacrificed further to this. Owners should buy breeds appropriate for their living conditions, if you don't have space on your property for your dog to run, don't buy a breeds that need to run so much. |

I'm happy with the daylight savings times that there are calibrated times for dog owners in the morning and evening on leash times during the day.
 This has served its purpose for many years and there's been no as in zero evidence presented that this needs to change.
 I would personally like more off leash time during the day during daylight savings because sometimes I can't make the morning times but I'm willing to support anyway.
 I can certainly live with off leash areas all the time but because I thought the concept was ok the last time in theory, council used that answer and that of others to push through seriously hated laws of on leash all the time on beaches dog wonders and residents have enjoyed for decades so I'm still wary of giving any support to unleashed areas all the time.

I'd be happy to support an unleashed area at Taperoo but because it's coupled with silly all year round laws for leashing around jetties, I can't support it. As council have heard from those deeply connected to the beaches and community, ad nauseam, the beaches of the Le Fevre Peninsula are empty of people during winter and much of spring and Autumn. Changes to these laws are petty and unnecessary.
 Honestly what is the actual problem here that council has spent two years trying to change? No sound evidence nor rationale has been provided for changing the current laws except vague mutterings about dog behaviour and incidents that have never been proved.
 The peninsula is probably the most dog friendly parts of this state and there is absolutely zero reason to try and disrupt that.

| | Concepts: How do you feel about... | | Not only do most dogs require open space off lead, it's also the life style that attracted me to living in Largs bay / semaphore. Enjoying taking my family and pooches to the beach utilising the off lead hours which I believe works well. We enjoy walking from our house in Largs to semaphore beach to Largs bay jetty and back. Like many others its the life style that attracted us to living and staying here in Semaphore, being able to let your pooch off lead within the dedicated hours. |

| Concepts: How do you feel about... | | I like the idea of a designated area for off lead all times I also think we should stay with the daylight savings rules everywhere else ie: as per usual Not keen on a dog free zone on the beach but perhaps on the grassed area during summer holidays. I'm thinking about the foreshore at semaphore here when it's really busy during summer |

| | Daylight Savings Rules | Like them | I have an issue with people that don't abide by the rules and either don't keep their dogs on leads at the right times or let them run up to my dogs. More education and classification about the meaning of "effective control" is needed for all dog owners. |

| Concepts: How do you feel about... | | <p>I would love to be able to take my dog anywhere with me, and have him rub free, but I understand exactly why this can't happen. communities are full of people from all sorts of backgrounds, allergies etc, and I can't know who is going to be comfortable with a dog around them, off leash, not can I know if another dog is going to be okay with that!</p> <p>I frequently visit the beach with my dog, however it is difficult in The winter time to get there with daylight, around full time work hours.</p> <p>I live at the beach in the summer time, and my dog does too, however it is difficult for him and I to enjoy our activities (paddle boarding etc) when he is restricted to a lead, for a variety of reasons. I am all for dog on leash areas, and no dog areas, however, I would LOVE there to be certain beaches which are off-leash every day of the year (aside from plover nesting times) as my dog still wants to play and run in the summer time too, and I don't want to have to restrict that to 8pm or later.</p> |

| Grassed Foreshore | | |
| Current Rules | Like it | <p>Yes this makes perfect sense. Semaphore is incredibly busy in the summer time, and adding in unleashed dogs in these spaces would only add to the chaos. Not to mention, the crowds are often huge, and it's not easy to see if another dog is walking nearby and is hidden behind other people. This dog may be reactive, or vice versa.</p> <p>Although I like the idea of dogs being leashed in these specific areas, I do believe it should be in effect until around 9pm or so, as when it is less busy, it is nice to hang out with my dog, we often skate/run through this area (off leash) late at night in the summer, or he watches me skate on the halfpipe while he chills on the grass watching me, or sniffing nearby.</p> |
| On-leash around jetties | Love it | |
| North Haven | | |
| Current Rules | Dislike it | <p>I don't specifically dislike either of them, i just had a different idea! my thoughts for having an all year round, off leash area, was to be around here, as it is less busy with families etc, and further away from the busy beaches! I think the dogs of lefevre peninsula deserve one space to have a spot to run about in the summer. Of course, there are days when it's not safe to bring your dog out in the heat, due to burning their paws, dehydration etc! But having this space as an all year round, off-leash area, allows the opportunity for dog owners and their dogs to go out to the beach and frolic around when the weather does permit!</p> |
| North On-leash | Dislike it | |
| Semaphore South to Breakwater | | |
| Current Rules | Can live with it | <p>Yes, I LOVE option 3!!</p> <p>These beaches are a lot less busy than the beaches south of Largs, which makes for a great area for the pups to zoom around to their hearts content! It can be a space for families with their own dogs, to play together in the summer time, and have a late picnic at the beach with their dog!</p> |

| | Concepts: How do you feel about... | | I feel like all the options including current ones are too confusing, if you're walking your dog along the beach enjoying the day, chatting etc, you have to stop and think which section you're on to put your dog on a lead to walk past a jetty for instance, why can't all grassed and paths be on lead at all times and the beach follow current daylight savings restrictions, off lead early and late and on lead during the day? Over thinking and excessive planning leads to confusion. |

| | Concepts: How do you feel about... | | I use the beach/reserve/jetty almost daily with my dog and family/friends for the last 6 years. I can honestly say I have RARELY had any issues with any dogs being off lead. It would be such a shame to have further restrictions put upon beach goers with their dogs. The majority of people do the right thing; and to change more rules would be disappointing. If any rules are changing I'd love for the restricting daylight saving hours to be reduced or removed to allow beach goers and dogs more access to the beach off lead. |

| Current Rules | Love it | Considerations needs to be given to precise locations for designated areas, particularly at Largs since the grassed area is limited and elderly people from nearby streets walk there with their dogs and may be unable to access the beach so some of that area south of the jetty should remain as current regulations. |
| On-leash around jetties | Like it | |
| North Haven | | |
| Current Rules | Can live with it | Since the northern end is regularly used by people launching boats, it's logical and safer to keep dogs away from that area. The rest of the beach under daylight savings rules still provides plenty of room. |
| North On-leash | Like it | |
| Semaphore South to Breakwater | | |
| Current Rules | Like it | The precise distance either side of the jetties should not be more than 150m south and 150m north (total distance 300m at Semaphore, and total 300m at Largs). Otherwise, should the distance be up to 500m either side, that would be a 1 kilometre distance on-leash at Semaphore, followed by a 1km distance at Largs. This would, in fact, leave only a 500m stretch between Semaphore and Largs where dogs could be exercised off-leash. As an example... we access the beach at Noonies in Semaphore South, and walk daily up to Largs Jetty and back. That's approx. 5.5km. If 500m either side of the jetties were to be designated as on-leash area, then two-thirds of that distance would be on leash (approx 3.0km). This isn't reasonable. Additionally, the designated areas should not be necessary when it's not Daylight Savings. In winter, very few people frequent the beach but dogs are walked there all year round. |

| Concepts: How do you feel about... | | I am perfectly happy with the way the dog rules are. They allow for on leash time during the peak. During non daylight savings time there is absolutely NO reason for on leash. The beaches are virtually deserted except for the regular dog walkers. We do see a tiny group of dogless walkers but we coexist peacefully. I would like to point out that Australia is a democracy and since the VAST majority of users during the entire year are dog walkers the current rules should stay in place. We are the majority. Please hear us. |
| Daylight Savings Rules | Like them | |
| Off-leash (all times) | Love them | |
| On-leash (all times) | Loathe them | |
| Exclusion (all times) | Loathe them | As long as we have our dogs under control why should anyone care if we have our dogs off? Children run feral and uncontrolled all the time in the foreshore so why hassle dog owners? |
| Grassed Foreshore | | |
| Current Rules | Love it | |
| On-leash around jetties | Loathe it | How on earth do you think dog walkers are going to be aware of these stupid on leash areas once we are on the sand? I will reiterate, for the VAST MAJORITY of the year there ARE no families or walkers without dogs. The tiny number we see regularly coexist with no issues. |
| North Haven | | |
| Current Rules | Love it | |
| North On-leash | Loathe it | There are no issues with the current set up. Why try to mess with something that has worked since as long as I have walked these beaches (nearly 50 years) I walk daily and the issues I have come across can be counted on my hands. The main issue is with aggro dogs who are rarely walked and are not socialised at all. They usually come with aggro owners from the northern suburbs. The other issue I would like to highlight is that the signage on the beach front is all faded out and I have had a few nervous people, usually with tiny dogs (I have small dogs myself) who get upset when they see dogs off leash because they are totally sure that dogs should be on leash after 10. They are too stupid to be able to understand that the sign not stating implicitly that dogs CAN be off least at all times during non daylight savings time. |

| | Reasons to Visit (reasons don't visit): To walk my dog(s); To exercise; For recreation; With my adult friends and family() | |
| Concepts: How do you feel about... | | <p>I believe the current rules (Option 1 for every proposed area) are the best option. From my experience, specially at the North Haven beach, there is literally no one except for dog owners walking their dogs during April- October.</p> <p>And not many other people during daylight saving months either. However, I think there could be more investment in educating dog owners about "off-leash" manners and also what "effective control" means. Your dog should NEVER approach any person or dog (specially a leashed dog) without permission. If your dog can't do that, put them on a leash when walking past other dogs/people until they are trained.</p> <p>For the beaches from Semaphore to the breakwater, option 1 and 3 seem reasonable. Option two is really restrictive for dogs and their owners.</p> |

| | Concepts: How do you feel about... | | It is not reasonable that there are areas, like the grassed reserves from North Haven to Semaphore South where dogs are allowed to run free at all times. It is all well and good to say the dogs should be under control, but in my experience owners do not always have control over their dogs. I walk on the shared path along the foreshore daily and regularly have dogs run up to me, across my path while I am walking . Most are friendly, some are aggressive. I have witnessed people falling over dogs running across their path and dogs fighting. None of these animals are fully under the control of their owners. Dogs should be leashed at all times in public areas. If people want to have their dogs off leash, then they can use dog parks. |

| Concepts: How do you feel about... | | <p>So often the beach is empty and it makes no sense dogs should be on leads.</p> <p>I do think dogs should be under effective control when there are children and other beach users around, this could include putting them on lead if they are not well trained.</p> <p>In my experience it is bad dog owners who create an air of unease around other dogs. Sadly good dogs and owners are tarred with the same brush as those who do not respect other beach users.</p> <p>I understand the desire for dogs on leads around busy area such as the Jetty. However, on lead all year round doesn't seem totally reasonable when there will be times there are no other beach users around, it seems pointless to enforce dogs on lead at times like that. However dogs on leads during weekends and school holidays, and even evenings in the summer would make some sense.</p> <p>Seems pointless to make half a beach compulsory on lead. Either make the whole beach or none at all.</p> <p>Having a dogs off lead area all year, at the end of the beach that is always the quietest makes sense. If this comes with the condition that dogs must be on lead at the jetty then this is a good compromise.</p> <p>Current rules work though sometimes seems pointless having dogs on lead during the day in summer when there is no one else around. Currently I think people let dogs run free unless there are other beach users, this works well as it is though technically not abiding by the rules.</p> |

| Concepts: How do you feel about... | | <p>I am happy with the current rules. We work hard on ensuring our dogs are under our effective control at all times.</p> <p>During winter (non-daylight savings) we see almost no people on the beach that aren't with dogs. So why restrict us from those areas?</p> <p>During daylight savings we make the most of the offlead time earlier and later.</p> <p>If you restrict us to smaller areas/sections of the beach, I think there might actually be more issues/incidents due to higher concentration of dogs in a smaller area.</p> <p>I believe that the people who ruin it for us are those that won't follow the rules anyway.</p> |

| Concepts: How do you feel about... | | <p>In theory the daylight savings rule is great. But it's not enforced at the peak times when most recreational/casual beach goers are there with their dogs. Many times I've encountered dogs who have no recall or are aggressive towards my dog who stays on the lead so I can easily pick him up if there is a problem. It's really scary as a dog owner walking along and wondering if the next off lead dog is going to be the one that attacks mine. I think if people have their on lead beach and an off lead one further north, during daylight savings, then that would solve a lot of problems.</p> <p>But the biggest problem right now is that there is absolutely no consequence to either following or breaking the rules, and your proposed changes don't go far enough in curbing the issue of people mis managing their animals. I am really disappointed with this outcome as I really loved the initial plan and thought it would make beaches feel safe for all to use.</p> |

| <p>As detailed in my previous response(s) I think that during daylight savings dogs should be on lead at all beaches/ foreshore areas at peak times with off leash permitted north of taperoo. It's far too busy with non-regular dog owners who let their dogs loose and are a disaster waiting to happen. If there is some enforcement of the rules on a 35 degree day from 4-8pm then that would be a good start - there are no consequences, no education and nobody is doing anything to help the situation at the moment to ensure dogs are under control when there are more people at the beach.</p> | | |

| Concepts: How do you feel about... | | I am a responsible dog owner and control my dog at all times. I leash him where needed and don't allow him to go up to other people or dogs unless it is ok with the person - and dog. It is irresponsible dog owners that make it hard for all of us. I like the rules where the dogs have to be leashed at certain times but are allowed freedom outside of peak periods. I don't think I should be excluded from areas because I have a dog. |

| Concepts: How do you feel about... | | The current rules are pretty good, except it would be good to have an area that dogs can be off leash all the time as sometimes there is no one at the beach 10am-8pm anyway, and it gives dog owners somewhere to go during the day. I am a shift worker so have many day times where this would be useful. I think it's fine to have some on leash areas so people can go there if they don't want to be around dogs, as long as there is somewhere else for dog owners to go off leash. |

| Concepts: How do you feel about... | | Dogs should be on leash at all times. Many people and children have genuine fear of dogs. Dogs cannot be guaranteed to be well behaved with others at all times. What is a collective consensus of what is effective control? Everyones interpreting that differs depending on if you are a dog owner, lover, phobia or I difference. You can't trust any dog no matter what age or breed. |

| Concepts: How do you feel about... | | I prefer the option 3 for dogs on the beach between Semaphore South and Taperoo. I usually put my dogs on a lead anyway, when there are people present around the jetty. In busy times, I always walk north, so the idea of "off beach at all times north of Stratfield Terrace" is good. In the winter, local dog walkers are usually the only people braving the beach. I do not like the idea of the grassed areas being off leash, as they are very near car parks and the road. Dangerous for dogs and for families with young children accessing the beach. |

| | Daylight Savings Rules | Dislike them | I like option 3 of having the Taperoo area available for dogs to be walked off of leads, but I think this could be extended to just north of the Largs Jetty. Most dog owners on our beach are respectful of others and their dogs anyway and leash a dog when necessary around young children or smaller dogs. I agree with dogs being on leads in busy areas like the Jetties and places like Semaphore, etc., but I think you could extend the dogs off lead area to just north of the Largs Jetty. Most people who use this area are locals and we already have a courtesy of leashing dogs when necessary, and then letting them off once away from others. Thank you for forming this committee! It makes us locals feel like we are being listened to and have a say! 😊 |

| Concepts: How do you feel about... | | Semaphore has many elderly people who walk their dogs on the beach regularly which provides exercise, socializing for the humans & dogs. Many pet owners then go to local cafes etc. Should you ban dogs off lead it would challenge local owners who do not drive , the dogs would miss out on vital exercise. Would I want to live in a council area that is so mean spirited? Certainly not! Would such a mean council policy deter new residents choosing to live in the area? Definitely! |

| | Concepts: How do you feel about... | | The beaches should retain the current rules ie around daylight saving; Ok with "on lead" at & around jetty entrances & on the Jettys; The grassed areas could be the same as foreshore above - during daylight saving times there are lots of BBQ's, eating areas & people use picnic blankets. Many dogs when off lead, while harmless (like our lab/retriever) can be a nuisance as they can hang around looking for food & I think its reasonable that during the daylight saving period that dogs could be on leads from 10am to 8pm to avoid them being pests for family groups having food. |

| Concepts: How do you feel about... | | I love the concept of having a dogs off leash at all times area. I love walking the beach with my dogs and do so regularly in both winter and summer. I would like an area where we aren't bothering people sunbathing or young families. Option 3 - offlead at all times is very appealing. I support the on lead around jetty's. I prefer off lead on the grassed foreshore, but on-lead at the area around the jetty's |

| | Reasons to Visit (reasons don't visit): With my adult friends and family; To walk my dog(s); To exercise; For recreation() | |
| Concepts: How do you feel about... | | I love the off-leash at all times rule during winter when the beaches are quiet. My dog is old and blind so I often go for beach walks without him and I love seeing happy dogs running and playing in the water. The current daylight savings rules are working fine but I would prefer dogs to be off-leash after 7pm because it's almost dark by 8pm. There is plenty of time during the summer from 10am to 8pm for people to walk their reactive dogs on-leash and for people who are afraid of dogs to enjoy their time at the beach. A dog exclusion zone or permanent on-leash area around the jetties is inconvenient and unnecessary. |

| Semaphore South to Breakwater | | I think the current daylight savings rules are working fine but it would be better if dogs can be off-lead after 7pm instead of 8pm. It would be really annoying for dog owners to have to put their dog on-lead for 500m around the jetty during winter when no-on is sitting on the beach anyway. I think the on-lead at all times areas are unnecessary. |

| Concepts: How do you feel about... | | <p>Off leash rules during daylight works well I believe for most using the beach. The times the beach is busy dogs must be on leash which is fair for non dog owners. . The earlier off leash times let's dog owners use the beach to let their dogs run free. When not daylight saving times the beach is usually not busy mainly used by dog owners.</p> <p>Don't agree with designated areas would be too confusing for most to know where dogs can be off leash.</p> <p>Semaphore is a popular beach for residents and visitors. At a time where there is great demand for owners to include dogs on holidays or outings Australia wide we don't want to make our beaches unfriendly.</p> |

| Semaphore South to Breakwater | | |
| Current Rules | Can live with it | Having an off leash area north of Taperoo which is inaccessible and unwalkable from my house is a retrograde step. One of the reasons and attractions to living at Port Adelaide is to be able to exercise the dog within walking distance to Semaphore beach. It is a very unattractive proposition to have to drive to Taperoo Beach to walk your dog off leash during daylight savings hours. I was looking for Council to expand the options for off leash times during daylight saving between Semaphore South and Largs. |

| Concepts: How do you feel about... | | <p>Happy with current rules of Daylight savings (on-leash 10am-8pm). All other times, off-leash everywhere. 99% of dog walkers are responsible and respect rules etc.</p> <p>As a resident, walking 3 times a day on the beach every day, I see how empty the beach is, especially during winter. Only dog walkers are using it. In summer, people respect the rule.</p> <p>When weather is bad, beaches are empty expect for dog walkers. Why take this away when they are the only ones using it.</p> <p>Restricting dog walkers who are all local people makes no sense. Making smaller areas for off-leash is OK but you are putting more people with dogs in one concentrated area, it becomes a dog park which we already have. Also making one area off-leash and restricting everywhere else will affect residents as many cannot easily get to North Haven without a car. They are no longer able to freely walk their dog.</p> <p>Keep rules as they are. Off-leash all other times, in all areas and on-leash during daylight savings</p> |

| | Concepts: How do you feel about... | | I thought this was the survey about proposed changes and options, but there is no scope to provide feedback about options. I walk my dogs down the beach in the morning about 5 days a week year round and in non daylight savings time you could say 95% of people down there are dog owners. On shared paths and around the Semaphore Jetty Cafe dogs should be on lead. But not within 100-150m of the jetty. Most owners are responsible and put them on lead near or on the jetty. Don't change the rules, monitor the existing ones better, and educate the community about the existing ones. |

| Dog ownership: No | Relationship with dogs: I love dogs | |
| | Reasons to Visit (reasons don't visit): Other: With my partner & young grandchildren() | |
| Concepts: How do you feel about... | | <p>We have had many incidents as regular local beach walkers where dogs off leash have knocked grandkids over / scared them & beach towels peed on & have encountered dog faeces left on the beach. Our Adult son has been attacked & bitten trying to protect his dog on leash.. Dogs off leash are often unsupervised , roaming behind walkers or groups chatting. without effective control. Rules are not enforced or adhered to. We've had dogs over the years, always walked on leash at the beach & have had incidents of aggressive off leash dogs not controlled. We believe the onleash area needs to extend at least between the Semaphore & Largs jetty to cater for a wider group of the community. Many interstate beaches do not allow dogs at all where there are families & swimmers, eg the gold coast & Byron. Bay. The area marked on leash is too small for the influx of tourists. 10pm is too late for summer heat , high UV. Many families go earlier before the heat. 9am would be a compromise</p> <p>The crux of the issue is effective control & supervision. & how this is monitored. With families sitting on the grass even when dog faeces is collected there is still a residue</p> |

Key considerations for review of PA&E Dog On and Off Leash Areas

- Points noted from the GoodDogs BadDays web page:
 - There were 513 hospital admissions in SA due to dog bites in 2020/21 and 500 in 2021/22.
 - “Statistics from South Australia’s local Councils show that 71 per cent of attacks happen in a public place.”
 - "Dogs are much loved but we must understand that any dog can bite, even the family pet we all believe is harmless, for a range of reasons and completely unexpectedly. When they do, they can cause a lot of harm."

- Points noted from the Adelaide Metropolitan Coast Park Concept Plan (2001)
 - “Generally residents of the northern suburbs of metropolitan Adelaide gravitate towards the Semaphore and North Haven area of the Coast Park. This trend will be strengthened in the future following the completion of the Port River Expressway.”
 - “increased demand for a safe, pleasant and convenient Coast Park environment particularly to enhance the health and safety of people recreating,”
 - “a set of integrated by-laws should be developed to control the free rein of dogs during times when the beaches are being used by others.”
 - “It is also important that by-laws relating to access for horses and dogs are integrated and clearly signposted for beach users to avoid confusion when moving along the beach from one council area to another.”

- Points noted from the 2019 Charles Sturt Council review of dog leash suitability for the section of Coast Park from Grange Road to Marlborough Street, Henley Beach:
 - “the area of Coast Park subject to consultation has caused confusion with dog owners and non-dog owners alike using this space, as the adjoining footpaths around the foreshore and prior to this section and after, have a requirement for dogs to be kept on leash under the Act.”
 - “it is recommended that the dog-leash laws be amended, via Council Resolution, to require dogs to be on lead at all times whilst being within this section of Coast Park.”
 - “the reserve path between Grange Road and Marlborough Street, Henley beach is now an on-lead at all times area (leads can be a maximum of 2m in length).”

- Dedicated Dog Parks are a recent development providing additional areas for safely exercising dogs off-leash:
 - Roy Martin dog park, Adelaide Brighton Community Park, Semapaw park.
 - and significant other off-leash areas are available including Glanville Coachhouse Reserve, EP Nazer Reserve and John Hart Reserve.

Personal observations on sociological changes in recent times:

- Increased visitors to Semaphore beaches and foreshore, as predicted in the Adelaide Metropolitan Coast Park Concept Plan, and further encouraged by the Northern Connector.
- Increased number of dogs on the beach and foreshore grassed area since Covid.
- Significant people activity on the beach and grassed foreshore outside of daylight saving times, particularly September and April.
 - South Australian school holidays are in April and Easter Sunday can be as late as April 25th
 - Victorian School holidays are in September.
- Grandparents are regularly seen supervising young children in the foreshore precinct while the parents are working.
 - Grandparents often have reduced physical ability to protect a young child.
- Disability support workers regularly making use of the grassed foreshore and coast path with their clients.
- Parents (and grandparents) taking children to the beach earlier and later in the day to avoid peak sun exposure.
- Government and community group recognition and action to protect coastal sand dunes, through which dogs regularly run.
- A significant number of dog owners do not abide by the current rules. We live on the esplanade at Semaphore and regularly see the existing rules being flaunted:
 - Dogs not on leads on the esplanade footpaths and foreshore coast path.
 - Dog droppings left on the footpaths, verge and foreshore grassed area.
 - Dogs running free on the beach between 10am and 8pm during Daylight Saving, including through the sand dunes.
 - Dogs not being in close proximity to their owners.
- It is irresponsible to let unrestrained dogs interact with small children and other vulnerable members of the community in the same public areas.
 - This implies either dogs are on a short leash, or vulnerable members of the community should be kept away.

Comments on the Options proposed by the Dogs on Beaches Working Group

Grassed Foreshore Reserves

Option 1 (current rules)

Dogs allowed off-leash at all times all year round. On shared pathways and footpaths, dogs must always be on-leash.

Option 2

Provides a limited area of the grassed foreshore around the Semaphore and Largs jetties where dogs must be on-leash at all times all year round. Outside of these areas current rules to apply.

Comment

Both options mean off-leash at all times on the grassed foreshore in front of our home.

It is not possible to stop an off-leash dog on the grassed foreshore area from straying onto the coastal path. The off-leash dog does not understand the difference between being on the grass or the path. Allowing off-leash on foreshore grassed area at all times, in practical terms, means off-leash at all times on the coastal path.

The grassed foreshore area from Semaphore South through to Semaphore jetty is used extensively on warm days for family picnics, ball games, riding bikes or scooters, using the showers to wash off sand, and by people jogging or walking on the path. If there is a high tide and fresh sea breeze the grassed areas can become extremely busy. The implication in the survey options is that if these people don't want to be approached by dogs they should cram into a small area around the Semaphore Jetty.

As a minimum the rules applying to dogs on the beach (currently on-leash from 10am to 8pm during daylight saving) should apply to the adjacent grassed foreshore areas.

At Semaphore the Timeball Tower Reserve is currently designated as off-leash and is another area where families picnic and children love rolling down the grass bank. This area should also have the same rules as the grassed foreshore and the beach.

Semaphore South to Breakwater Beaches

Option 1 (current rules)

During daylight saving dogs must be on leash between 10am and 8pm.

Option 2

Provides an area between 150 and 500 metres in total around Largs and Semaphore jetties where dogs are to be on-leash at all times. Dogs would be allowed off-leash at all times on the beach between Strathfield Terrace and the North Haven breakwater. In all other areas the current rules apply.

Comment

The small area around the jetties outside of daylight saving is insignificant and unlikely to be complied with or policed. How many owners walking their dogs along the beach during the quiet winter months are going to remember to put the lead on the dog when they pass an imaginary line?

The dog off-leash beach north of Strathfield Terrace does not affect us directly, but we would be greatly concerned if we lived at North Largs or Taperoo

No consideration has been given to whether the daylight savings rules are compatible with contemporary beach use.

Easter Sunday can occur as late as April 25th and the South Australian school holiday dates are 13th to 28th April in 2024 and 12th to 27th April in 2025.

Victoria has school holidays during September with significant numbers of interstate visitors to our beaches and foreshore.

Parents with young children regularly visit the beach before 10am to minimise sun and heat exposure.

The regulations need to be consistent along the Coast Park, and the relevant Councils should be jointly considering whether the daylight saving period and times remain appropriate for dogs on beach rules.

What do we think should happen?

We consider the decision by Council in August 2022 to make the grassed foreshore area on-leash at all times to be the correct one.

If implemented the same rules would then apply to the Port Adelaide & Enfield and Charles Sturt sections of the Coast Park.

There is human activity, including very young, very elderly and disabled in this area throughout the year, and this will only increase when the West Lakes Shore and Tennyson sections of the Coast Path are completed. People have a right to use this area without feeling anxious or fearful about being harassed by an unrestrained dog.

At Semaphore all grassed foreshore areas, including the Timeball Tower Reserve, should be on-leash at all times.

Regarding the beach areas we would prefer dogs always to be on-leash but accept that the same rules should apply along the coast, which are currently 10am to 8pm on-leash during daylight saving.

As discussed above, the duration and timing of the on-leash period should be reviewed because of changes to when people now use the beaches. But this should be a multi-Council review and agreement to avoid different dates and times applying along the coast.

City of Port Adelaide Enfield – Pups in Public Places - Dogs on Beaches

Submission from BirdLife Australia

BirdLife Australia welcomes the opportunity to provide input to the City of Port Adelaide Enfield's Pups in Public Places - Dogs on Beaches community engagement. We wish to highlight the importance of considering the impact caused by off-leash dogs on Beach-nesting Birds, when developing changes to dog by-laws that cover the City of Port Adelaide Enfield beaches.

BirdLife Australia (formerly Birds Australia) is a highly respected, science-based, not-for-profit conservation organisation. With our specialised knowledge and the commitment of our Australia-wide network of 13,000 members, and more than 100,000 volunteers and supporters, we are dedicated to achieving outstanding conservation results for our native birds and their habitats. We have an extensive ongoing program of research, including our National 'Beach-nesting Birds' Program, developed to address the impacts of people and recreational activities on beaches on the breeding of Australia's native resident shorebirds, such as the Hooded Plover (*Thinornis cucullatus* [formerly *rubricollis*]) and the Red-capped Plover (*Charadrius ruficapillus*).

The Hooded Plover (Eastern) is listed as Vulnerable under the Environment Protection and Biodiversity Conservation Act 1999 (EPBC Act) and the South Australian National Parks and Wildlife Act 1972 (Schedule 8). The Hooded Plover is the most threatened beach-nesting bird in South Australia because it relies exclusively on ocean beach habitat for laying eggs, incubation, and raising chicks which cannot fly for 35 days. The chicks need to feed themselves from day one, so that means they will go outside the fenced area to feed on the beach and at the water's edge.

Whilst Red-capped Plovers are not currently listed, the continued decline over the past 15 years, in the Red-capped Plover population across Gulf of St Vincent is of concern. A high rate of localised breeding failure is likely to be the cause of this decline. (Lees, D. and Bartley, K. (2022). Shorebird Population Monitoring within Gulf St Vincent 2021/2022 Annual Report. BirdLife Australia report for the Green Adelaide Board.)

Hooded Plovers are a national priority and threatened species. Key to conservation success has been the coordinated and consistent approach to monitoring, reducing threats and awareness raising in the community by land managers and other agencies.

The EPBC Act affects any group or individual whose actions may have a significant impact on a matter of national environmental significance. This includes local councils, landowners, developers, industry, state and territory agencies and Commonwealth agencies.

The Australian Government's Conservation Advice under the Environment Protection and Biodiversity Conservation Act, effective from 06/11/2014 for the species, identifies management actions required for protection of Hooded Plovers by governments and land managers. These include:

1. Manage the use of (and access to) key beaches for recreation when plovers are breeding – e.g. discourage or prohibit vehicle access, horse riding and dogs from beaches; implement temporary beach closures; erect fencing to prevent people entering.
2. Adequately police beaches to ensure compliance with regulations, especially those relating to dog walking, and undertake a review of existing regulations to assess whether there is room for improvement.
3. Educate the public in research, monitoring, management and advocacy efforts.
4. Incorporate requirements for the hooded plover into coastal planning and management, and erosion control activities, including:
 - a) limiting levels of urban development within the coastal zone,
 - b) adopting evidence-based best practice,

- c) consulting with relevant state and local government departments, research organisations, and community organisations.

The Australian Government has identified all breeding territories and non-breeding flocking sites are of high conservation significance.

The Beach-nesting Birds Program:

The Beach-nesting Birds program has been operating since 2006 and has trained volunteers and land managers in on-ground protection of priority breeding sites, engaged with residents and schools to raise awareness of the plight of these birds. Working in partnership with and support from Green Adelaide and the National Landcare Program, in partnership with Hills and Fleurieu Landscape Board and councils, this has been a very effective program at boosting breeding success of these birds. With Green Adelaide’s support, BirdLife Australia works closely with Adelaide and Fleurieu Peninsula councils to offer expert advice when reviewing legislation and management plans. We collaborate with councils, volunteers, and other land managers, to install temporary protective fencing and signage at breeding sites and offer training to relevant council staff.

Up until 2017 all Hooded Plover breeding pairs in the previous Landscape Board region, Adelaide and Mount Lofty Ranges (AMLR) occurred on the Fleurieu Peninsula. In 2017 the first breeding pair was recorded in the Adelaide metro area, nesting at Seaclyff. Since then, we have had breeding pairs at West Beach and Henley Beach.

In August 2022, BirdLife Australia received a report of two Hooded Plovers on North Haven Beach (north of the marina). When a staff member attended North Haven to confirm the sighting, a juvenile Hooded Plover was present. Three Hooded Plovers were also seen foraging on Bird Island, Outer Harbor on the 18th of August 2022. One of the adults was banded with flag 'KV', this individual was banded at Maslins Beach in December 2020 as a fledgling and thus highlights the birds are beginning to extend their range north along the Adelaide metro coast.

In September 2023, a pair of Hooded Plovers bred for the first time since monitoring commenced with a nest containing two eggs recorded on Bird Island. This significant breeding event further highlights the importance of introducing protection for the threatened species via Councils by-laws.

Hooded Plover Juvenile – North Haven

Hooded Plover nest 11th Sept, 2023 - Bird Island

As well as the potential of Red-capped and Hooded Plover breeding areas, beaches of Port Adelaide may also be used outside of breeding season as ‘flocking sites’ for plovers and roosting areas for migratory shorebirds. Active management of dogs at these locations may also be of conservation benefit.

Council By-Laws:

Whilst we do not have a record of breeding activity in the Port Adelaide Enfield area, as the population of Hooded Plovers slowly increases, it is expected that they will move north looking for new breeding territory. The habitat from Semaphore South to North Haven is suitable breeding habitat. This season (September 2023) a pair of Hooded Plovers have been recorded nesting on Bird Island, located a short distance from Outer Harbour, for the first time. This further supports our expectation that the birds will be looking for suitable breeding habitat in this location in future seasons.

Monitoring of Red-capped plovers at City of Charles Sturt and Port Adelaide beaches indicates that dogs off leash are a significant threat to the breeding success of the Red-capped Plover at metro Adelaide from Semaphore South Beach to Tennyson. There have been reports of suspected chick deaths due to off-leash dogs, one at West Lakes Beach and a confirmed chick death due to an off-leash dog attack at Semaphore South Beach witnessed by a BirdLife volunteer.

BirdLife Australia supports the implementation of on-leash zones. This benefits beach goers and local wildlife. Our preference for North Haven is Option 2 – North on-leash area. Our preference for Semaphore South to Breakwater is Option 2 – On-leash around jetties. However, further measures need to be implemented to ensure beach-nesting bird breeding zones are better protected across all beaches.

In the adjacent City of Charles Sturt Hooded Plover nesting territories, monitoring since 2019 when Hooded Plovers first nested at City of Charles Sturt sites indicates significant levels of beach usage and a substantial risk of nest disturbance from beach walkers and off leash dogs at the site.

Leashing regulations and fencing of nesting territories is a proven and effective management practice for this species supported by over a decade's worth of research across Victoria and South Australia.

The introduction of by-laws to better protect threatened wildlife is supportive of the Dog and Cat Management Act and the National Parks and Wildlife Act. With regards to the Dog and Cat Management Act 1995, control orders for dangerous and menacing dogs include clauses relating to a dog that *has attacked, harassed or chased a person or an animal or bird, or is likely to do so, in circumstances that would constitute an offence against this or any other Act.*

With regards to the other Acts, it is also an offence under the National Parks and Wildlife Act 1972 with regards to the molestation of protected animals, it is an offence for a person *to cause or permit the interference with, harassment or molestation of, a protected animal.*

As ideal habitat for Beach-nesting Birds exists between Semaphore South and North Haven, we would like to see the provision of temporary on-leash zones included in your by-laws, aligning with other Adelaide metro and Fleurieu Peninsula councils. City of Charles Sturt, City of Holdfast Bay and City of Onkaparinga councils all have a by-law requiring dogs to be leashed for 100 metres, at temporarily signed breeding areas. Marion Council's small section of beaches are on-leash at all times.

It would make sense, for consistency, that the City of Port Adelaide Enfield aligns their by-laws with the other metro coastal councils. The by-laws for City of Charles Sturt, City of Holdfast Bay and City of Onkaparinga are listed below for reference.

City of Charles Sturt

Dogs and Cats By-Law 2021 – By-Law No.5

PART 1 - PRELIMINARY

3.10 Hooded and Red Capped Plover breeding site means any land within 100 metres of a sign installed by the Crown or Council on land that indicates a Hooded and/or Red Capped Plover breeding nest, eggs or chicks are or may be present on the land or in the vicinity;

PART 2 – Dog Management and Control

6. Dogs on Leash Areas

A person must not allow a dog under that person's control to be or remain:

6.4 in a Hooded or Red Capped Plover breeding site, unless the dog is secured by a strong leash not exceeding two metres in length which is either tethered securely to a fixed object capable of securing the dog or held by a person capable of controlling the dog and preventing it from being a nuisance or a danger to other persons.

City of Holdfast Bay

Dogs By-Law 2019 -By-Law No. 5

PART 1 – PRELIMINARY

6.7 **Hooded Plover breeding site** means any land within 100 metres of a sign on Local Government land that indicates a Hooded Plover breeding nest or chicks may be present on the land or in the vicinity.

6.12 For the purposes of clause 10 of the By-law, a dog is (under **effective control by means of a leash**) if the dog is secured to a leash, chain or cord that does not exceed 2 metres in length and:

6.12.1 the leash, chain or cord is either tethered securely to a fixed object; or

6.12.2 held by a person capable of controlling the dog and preventing it from being a nuisance or a danger to other persons.

PART 3 – DOG CONTROLS

10. Dog on Leash Areas

10.2 A person must not allow a dog under that person's control, charge or authority to be or remain in a Hooded Plover breeding site unless the dog is under effective control by means of a leash.

City of Onkaparinga

Dogs By-Law 2022 – By-Law no.7

PART 1 - PRELIMINARY

6.19 a Hooded Plover dog-prohibited zone is any portion of land on the foreshore, Local Government land or any other public place that:

6.19.1 an authorised person or other person authorised by the Council in writing (which authorisation may be subject to any conditions the Council sees fit to impose) has enclosed by a temporary fence or other barrier; and

6.19.2 is identified by a sign that includes the words 'hooded plover breeding site' that is erected on or near the fence or other barrier; and

6.20 a Hooded Plover dog on-leash zone is any land on the foreshore, Local Government land or any other public place that is within one hundred (100) metres of any sign thereon that includes the words 'hooded plover' or otherwise indicates hooded plovers are or may be present in the area.

Part 3 – DOG CONTROLS

9. Dog on leash areas

Subject to clause 10, a person must not, without the Council's permission, allow a dog under that person's control, charge or authority (except an assistance dog that is required to remain off-lead in order to fulfil its functions) to be or remain:

9.4 on or within a Hooded Plover dog on-leash zone—

City of Charles Sturt temporary sign

City of Holdfast Bay temporary sign

We would like to thank the City of Port Adelaide Enfield and the Dogs on Beaches Community Working Group for giving us the opportunity to be involved in the consultation process. Please do not hesitate to contact us if you would like further information on any matter.

Kind Regards,

I would just like to put my views forward. I am a dog owner, border collie, and whilst well trained and disciplined she is getting older and her tolerance for other dogs varies and for this reason she is lead always. We love walking near the beach, and stick the footpath which is fine but not ideal when dogs off lead (while probably safe) come barreling up to us like a deranged lunatic. It's not great, so we basically avoid the area altogether. Also, not everyone love dogs and have fears and whilst dogs slowly wandering over to a picnicking group might seem cute to the owners, perhaps not so enjoyable to those with fears. For these reasons I say dogs off lead (between certain hours and guidelines etc) on the beach only, and everywhere else on lead 24/7 365 days a year.

Unleashed dogs should be restricted from all beaches and parks. Dogs should be on leash at all times. Too many people have been aggressively approached or attacked and this risk can be virtually eliminated by requiring dog owners to keep dogs on leash.

Dogs should always remain on lead unless in a designated off leash area. Open beaches and foreshores area not suitable off lead areas. I always keep mine on lead but the number of times they have been harassed by other dogs off lead and not under effective control is multiple.

We walk our dog on Largs North beach every day and have not encountered any issues. Everyone is courteous and friendly. Pls leave the hours as they are -daylight saving hours on lead 10am-8pm and off lead all other times. As the LeFevre Peninsula has a large dog population, pls allow them to enjoy our wonderful beaches especially in winter when they are seldom used by people.

The wording "under effective control" should be changed. The wording should include a reasonable distance from the owner, as everybody's understanding of the current wording is different. For a well trained dog 50m away from the owner could be ok. An untrained dog is a different story altogether

I'm writing to give support to Birdlife Australia's proposals to improve protection for beach nesting birds along Adelaide metropolitan beaches. As a committed Hooded Plover volunteer on the Fleurieu Peninsula, it has been amazing to observe the difference the local councils can make in improving public awareness and implementing a range of actions to improve the success rate of reproduction in these highly vulnerable species. Please consider seriously, implementing the 100m leash by-laws around nesting sites.

To whom it may concern

Subject: Request for Continuous Off-Leash Areas for Dogs

Dear Port Enfield Council,

I hope this letter finds you well. I am writing to express my concerns and opinions regarding the proposed changes to dog off-leash areas in our community. As an avid dog owner and a responsible member of this community, I have several reservations about the idea of designated off-leash areas and would like to share my perspective.

First and foremost, I believe that allowing dogs to be off-leash at all times, as it has been in the past, is in the best interest of our community. The current setup allows dog owners to enjoy open spaces, such as the beach, with their pets without constraints. This freedom has fostered a strong sense of community and has provided an opportunity for both owners and animals to recharge, exercise, and play in a natural, unstructured environment.

I am concerned that the introduction of designated areas will concentrate a higher number of dogs in smaller spaces, potentially leading to overcrowding, territorial issues, and an overall less pleasant experience for both dogs and their owners. This can also create tension among dog owners as they compete for limited space. I believe that our current system, which offers more expansive areas for dogs to roam freely, is more effective in reducing conflicts and maintaining harmony in our community.

Moreover, I find the idea of designated off-leash areas to be somewhat discriminatory. Australia is a nation known for its high per capita dog ownership, and this diversity should be reflected in our approach to accommodating the needs of our community. A one-size-fits-all approach may not consider the unique requirements of various dog breeds, sizes, and temperaments. Allowing off-leash access to broader areas, such as the beach, is inclusive and fair to all dog owners, regardless of their pets' characteristics.

In addition, I would like to express my strong support for maintaining our existing daylight saving rules. The current rules have served our community well and should be preserved. I encourage you and the City Council to keep these rules as they are, and I urge all residents to "Vote 1" in support of this preservation during any upcoming discussions or elections.

In conclusion, I urge the City Council to reconsider the proposal for designated off-leash areas and to maintain our current system, which promotes community bonding, inclusivity, and a sense of belonging for all dog owners and their beloved companions. I believe this approach aligns with the spirit of our community and ensures that our beautiful beach remains a cherished place for relaxation, exercise, and play for all residents and their dogs.

Thank you for your time and consideration. I look forward to a resolution that benefits our entire community and continues to make our city a great place for both residents and their four-legged friends

Q4 Your question/message

Long Text

I do speak on behalf of all participants in our household and we are all dog lovers and walk our dog at the beach. As our working hours vary and therefore, we request that you keep the Dogs on Beaches at CURRENT (OPTION 1). It's that simple. Don't need to spend any more of our funds on ongoing drama and waste our hard-earned money on further conversations, meetings, surveys etc etc. Spend that money to educate the different nationalities that are not familiar with dogs in their lives. People from different ethnicities don't like dogs. For example, Muslims think dogs are not clean animals and therefore, they do not like dogs. Spend the money on education, rather than restricting or banning something. Knowledge is power.

These surveys, talk about this situation with dogs off-leash takes time, effort, and money. There are many elderly people in our community who walk their dogs peacefully every day at the beach and it is inhumane to change those rules and take one thing that makes those people and their dogs happy to fill someone else's agenda. A dog on a leash is far more unpredictable than a well-trained dog that is off-leash. Because they are under pressure. I take my dog to elderly homes and he goes to all the humans first and greets them and gets a pat. It makes their day better. The day someone comes up with the idea to ban that, that'll be a sad day for all. My dogs come to work with me. In the years I have walked with my dog singularly or as a group, with all off-leash dogs, I have NEVER witnessed a single fight not even a snarl!! So why I ask, these changes?

As our living spaces are becoming smaller and smaller the dogs miss out. The dog parks are disasters waiting to happen. All in a pressure cooker situation. Unruly dogs and arrogant owners think their dogs don't need to be disciplined. We have made friends with many people who visit our beach from different areas that do not belong to this council and don't take that away from 100's of people who enjoy seeing their best friend having some freedom in this BIG space. By restricting these current times you are not only taking away our dogs' freedom but ours too. Please consider.

Thank you.

Using a iphone, I cannot find the survey mentioned at the top of the page.
Being a small, well socialised dog owner, I would rather off leash at all times but I understand larger dogs belonging to irresponsible owners can be a problem.
Tough one, glad it's you, not me ☺☺

I'm just adding my two cents worth re the revision of the hours dogs are required to be on lead while on our beaches. We all love dogs just not ones that are not under effective control by their owners, I personally think any reduction to on leash laws while on our beaches is not only irresponsible but also dangerous to other rate payers and other dog owners. Hopefully the city of PAE council won't buckle to an irresponsible minority. While it's nice to have your dog off lead, it's even nicer to feel safe and unbothered on our beaches. Kind regards Max From Queenstown.

Near PAE My toy poodle loves his walks along the path however I was thinking a closed area for small dogs under 8kg and a bigger dog enclosure park for bigger dogs. That way small dogs do not get injured and have opportunity to socialise off a lead if owners choose. Kind regards [REDACTED]

Good afternoon

I'm the responsible owner of a female, desexed Pug, Maggie. Maggie is registered with PAEC. My cat is also registered with Council. The only time I take Maggie off lead is on the beach near the water. Leads on dogs in the water pose a safety risk of getting snagged causing injury or at worst death. If Maggie goes in the water with me she also wears a dog life vest. My concern is dangerous breeds, such as Pit-bulls, Rottweiler's or Doberman's and those not under effective control. Including dogs not desexed as per the requirements of current laws. Many times I have picked Maggie up to protect her from charging out of control dogs. Further, people not picking up after their dog or using bags sometimes supplied by Council is shameful. Not only unacceptable human behaviour but may spread disease if the dog isn't properly vaccinated or wormed etc. There needs to be more bag stations between Largs beach and Semaphore beach. Dogs must be on lead on grassed areas and footpaths. For not only other's safety but their own. It is a shame that responsible owners may be penalised for those failing to consider others. Laws need to be changed that it is compulsory that if your dog attacks another, the owner or person with the dog must give their name, address and contact number and show Drivers Licence for identification. Far too often people run off and leave the injured dog and the distraught owner to fend for themselves. Not acceptable by today's community expectations. [REDACTED]

Where can I complain about dogs on the beach being unleashed, out of control and their owners not having control and leaving their poo all over the beach.

The beach should be free from roaming, menacing dogs that attack children and free from dog faeces.

I've had multiple incidents where my young children have been attacked by unleashed dogs during leashed times. What or who helps me then, while my two young children are being attacked/jumped on etc? It doesn't make sense to give dogs right of way over a human being- children.

Where can I complain please?

DOGS ON BEACHES COMMUNITY WORKING GROUP

Workshop 4 – held 3rd December 2023

15 members in attendance, start time 1.05pm

Dataset Presentation

The Manager Community & Environmental Health provided a comprehensive summary of the consultation results.

This was followed by a facilitated Q&A session to support understanding of the data for all working group members.

Working group members in general realised the need to compromise on the needs of dog and non-dog owners when deciding on the recommendations to put to Council for each area.

North Haven Beach

Comments from individual working group members:

- Small beach – not worth it?
- Dog people want it to stay as is
- On-leash zone too small
- Surf Life Saving move around (based on tide and seaweed) - nippers

The working group discussed North Haven being a small area of beach and whether it was beneficial to split this area of beach. People exercising dogs would like this area of beach to stay under current daylight savings rules. The on-leash area proposed is quite small and often covered in seaweed. North Haven SLSC said that the on-leash area wouldn't be beneficial to them as they need the flexibility to move their activities based on the weather conditions and tides. Overall, the working group didn't believe there was enough support from the community or the SLSC, to proceed with the proposed Option 2 for North Haven Beach.

Working Group Votes:

- Option 1: Current rules / daylight savings – 12 (unanimous)

The Working Group's preference for the North Haven Beach is:

to retain the current, day light savings rules

Grassed Foreshore Reserves

Comments from individual working group members:

- Like the idea of an area for people with reactive/scared dogs to have a safe space
- Good compromise
- Data suggests a compromise is worth discussing
- Doesn't necessarily align with beach outcome
- People with mobility issues (meeting their needs to access off-leash space)
- Consider foreshore redevelopment, allow redevelopment to make adjustments
- Needs to be a clear boundary (between on-leash and off-leash use)

There was support from members of the group for Option 2 providing safe spaces where people with reactive/scared dogs could spend time. Creation of a family / community focused spaces in key high traffic areas.

Feelings that Option 2 provided a good compromise to offer on-leash and off-leash areas on the grassed foreshore. Community engagement results suggest a compromise for this area is worth discussing as the proposed option (option 2) received the most support out of all the options proposed by the working group.

The proposed on-leash areas don't necessarily align with the beach outcomes and the group discussed the benefits and/or need for these rules/spaces to align.

Members of the working group discussed the needs of people with mobility issues to be able to access grassed foreshore spaces with their dogs. Ensuring that grassed spaces are still available for off-leash use.

Consideration of the upcoming Semaphore Foreshore redevelopment and the need to be make adjustments to meet the needs of this redevelopment. Without having this information available to them, the working group thought council administration were best placed to have the flexibility to make this decision.

The need for there to be a clear boundary for the on-leash areas in order for these rules to be easily conveyed and enforced. Conversations around boundaries were mostly focused on the Semaphore on-leash area and whether this space should finish at the boundary of the existing playground and skate ramp or extend to the southern edge of the reserve near the train shed. Working group members view on this varied and they were happy with council staff and elected members making this final decision.

Working Group Votes:

- Option 1: Current rules, off-leash all areas – 1 vote
- Option 2: On-leash areas – 11 votes

The Working Group's preference for grassed foreshore areas is

Option 2: defined on-leash areas at all times

Semaphore South to Breakwater beaches

Comments from individual working group members:

- Need an inclusive option
- Line up beach with foreshore
- An option for shift workers
- People can work it out (new rules / any rule changes)
- Off-leash area or reduced daylight savings hours?
- Northern section ideal for dog off-leash area
- Reservation around previous decision, do not want 500m either side of jetty
- Want an off-leash area but not on-leash areas
- Keep on-leash zones, extend daylight savings times (more off-leash time)
- Data indicates support for Option 2 zones for on-leash
- Be consistent with foreshore
- Don't need to be consistent with foreshore
- About 100-150m for people to feel safe (from off-leash dogs)
- Line up with an entry path
- In line with paths on grass area
- Option 1 won't get through or Option 4 (doesn't meet goals of working group)
- Safe zones in summer (daylight savings) only
- Support option 1 but can see it doesn't consider other perspectives
- Consider on-leash areas but only during daylight savings times
- Need to consider needs for others with different needs

Group members highlighted the need for an inclusive option for this area of the beach, something that offers an opportunity for everyone to access and enjoy this space.

A separate off-leash area was discussed by the working group as this came across strongly in the engagement results around concepts however Semaphore South to Breakwater beaches Option 3 was not well supported. Members of the working group felt this was because the on-leash and off-leash zones were included as one option. Group members discussed the need to make sure there is an option for shift workers as they make up a large percentage of our workforce in PAE. One member discussed the possibility of adjusting/reducing daylight savings hours instead of creating an off-leash zone.

The Working Group voted on the inclusion of an off-leash area and daylight savings rules as a fourth option to discuss.

Working Group Votes:

- Off-leash area- 8 votes
- No off-leash area – 5 votes

A fourth option with a northern off-leash area was added to be further discussed by the working group.

Group spoke about how easy it would be for community members to navigate areas with different rules and how this could be promoted and enforced. Some members felt that the rules needed to be as simple as possible while others thought that community members could navigate different rules / learn new rules, without any issues.

Group members discussed how far someone needs to be away from a dog off-leash to feel safe. They thought that 100-150m was sufficient and therefore the zones should be 200-300m per jetty ensuring that the area aligned with beach entrances and grass foreshore pathways. There were reservations about previous 2022 council decision and if Option 2 was close to that original decision if the on-leash zones were 500m either side of the jetties. The working group discussed the possibility for the on-leash zones only being for daylight savings rather than all year round. The group also discussed the possibility of lining up beach on-leash areas with foreshore on-leash areas.

Staff discussed the unlikelihood of Option 1 being successful due to it not meeting the goals of the working group and the needs of the whole community.

Working Group voted on how they felt about Option 1, 2, 3 and 4

- Option 1: daylight savings rules
 - Like – 4
 - Can live with it – 4
 - Needs work - 5
- Option 2: On-leash areas
 - Like – 6
 - Can live with it – 3
 - Needs work - 4
- Option 3: On-leash areas and northern off-leash area
 - Like – 5
 - Can live with it – 2
 - Needs work – 6 (3 with daylight savings for consideration for on-leash areas)
- Option 4: Northern off-leash area
 - Like – 4
 - Can live with it – 4
 - Needs work - 5

Members of the group highlighted the need to focus beyond their personal needs and act for overall community benefit.

Intensive discussion led to a breakthrough where the group could work on and agree to a compromise that provided opportunities for all community members to find a safe and enjoyable space on the beaches.

This wasn't the first choice for each group but offered something for each with compromise for each.

The Working Group decided that considering the goals of the group, that Options 1 and 4 were unlikely to be successful and decided their preference as a group would be Option 3: On-leash Areas and Northern Off-leash Area, with the consideration to be taken by Council whether on-leash areas would be all year around or only during daylight savings. Option 3 was supported by show of hands, in two variants, for Council to consider whether the on-leash areas apply at all times or during daylight savings only.

The Working Group's preference for Semaphore South to Breakwater beaches is:

On-leash around jetties (all times) and off-leash north area

OR

On-leash around jetties (all times during daylight savings only) and off-leash north area

(Council to consider whether the on-leash areas apply at all times or during daylight savings only)

Two members of the working group had left the workshop prior to the final vote on the preferred option to be taken to Council. Two members of the working group felt very strongly that Option 1: daylight savings Rules, should still be presented to Council as a possible option forward as it was the option most strongly supported by the overall community through community engagement.

Workshop Debrief

In relation to the Semaphore South to Breakwater beaches there was some confusion during the workshop. Following the workshop the Council staff and facilitator met for a debrief on the workshop and in particular to discuss the confusion around Option 1 (daylight savings rules for Semaphore South to Breakwater) and whether this was a valid option. This was a result of a comment that Option 1 was included as a baseline in the survey to determine how the community felt about the current rules.

Whilst the conversation during the previous workshop was that this option would be included as a baseline question, this was not referenced as a baseline question in either the Council report in the lead up to or in the community engagement survey. This conversation was only during the Dogs on Beaches Community Group Workshop.

As the data from community indicated a level of support for this option and to remove any confusion, this option will be included in the final Council report with context alongside the group's preference, Option 3 (which includes on-leash areas, an off-leash area with Council to consider whether the on-leash rules are to apply at all times or only during daylight savings).

Additional Notes

Changes in demographics in the region raises a need to review dog management in relation to diverse cultural perspectives on dogs in public places.

On and off leash sections appear to be a trade-off with further discussion warranted.

Workshop Close: 4:45 pm
